## NOTIFICATION.

The 1st November 1887.—The following rules, framed by the Magistrate of Khulna with the approval of the Commissioner of the Presidency Division, under section 15 of the Bengal Ferries Act, 1845, having been accepted by the Lieutenant-Governor, are hereby published for general information.

COLMAN MACAULAY,  
Secretary to the Govt. of Bengal.

RULES UNDER SECTION 15, ACT I (B.C.) OF 1885 FOR THE  
DISTRICT OF KHULNA.

Rule 1.—In these rules the term "Magistrate" includes—

- (a) the District Magistrate of Khulna and any Magistrate subordinate to him and appointed by him in that behalf;
- (b) the District Board of Khulna in respect of any public ferry, the management of which has been vested in it under section 35 of Act I (B.C.) of 1885; and any Local Board in the district of Khulna when legally vested with powers in respect of any public ferry by the District Board of Khulna.

Rule 2.—Every public ferry in the district of Khulna shall either be held khas by the Magistrate, or be leased by public auction.

*Rules for the management of public ferries held khas..*

Rule 3.—For every public ferry which is held khas, the Magistrate shall from time to time—

- (a) provide such boats, landing-stages, rest-houses and other appliances as he shall think proper;
- (b) appoint a suitable person to superintend the plying of the ferry, provide and pay boatmen, receive the authorised tolls, and remit the same to the treasury;
- (c) fix with the approval of the Commissioner the tolls to be levied from persons using the ferry;
- (d) cause a schedule of such tolls, legibly written in the vernacular, to be fixed up on both landing-stages;
- (e) determine the maximum number of passengers, animals, carts, vehicles, and goods which each ferry boat shall carry, and cause a notice to this effect to be affixed to each boat;
- (f) determine the hours within which the boats shall ply, and the minimum number of journeys to be made every day;
- (g) provide for the prompt conveyance of the mails at all times across the ferry.

Rule 4.—Any person may compound for tolls payable for the use of the ferry; and if the ferry should be closed before the expiry of the period for which such person has compounded for tolls payable for its use, he shall be entitled to a refund, the amount of which shall bear the same proportion to the whole sum paid by him as the period remaining bears to the whole period for which he compounded. Such refund shall be made under the orders of the Magistrate.

*Rules for leasing out ferries.*

Rule 5.—When it has been determined to lease the tolls of any public ferry by auction under section 9 of Act I (B.C.) of 1885, the Magistrate shall, at least 15 days before the auction is held, cause an advertisement of such auction to be published, both in English and in the vernacular, in such place and in such manner as to him shall seem expedient.

Rule 6.—The advertisement shall specify—

- (a) the time and place of the sale;
- (b) the period for which the ferry is to be leased, and the dates between which the lessee shall be bound to ply the ferry every year;
- (c) the number and description of the boats to be maintained, the strength of the crew to be employed on each, and the maximum number of passengers, animals, vehicles, and the bulk or weight of goods each is authorised to carry;
- (d) the liability or otherwise of the lessee to provide the boats and to keep them in repair;
- (e) the liability or otherwise of the lessee to provide and keep in order the landing-stages, and the rest-houses or travellers' sheds, if any, at either or both termini of the crossing;
- (f) the minimum number of crossings to be made daily at any particular season of the year;
- (g) the rate of tolls to be levied;
- (h) the persons and things to be ferried over free of toll as provided in Rule 14;
- (i) the instalments in which the rent for the ferry is to be paid; and
- (j) such other particulars as the Magistrate shall consider necessary.

Rule 7.—A copy of the advertisement, and of the Rules and the Form of agreement required to be executed under section 9 of the Act, shall be posted up in a conspicuous place in the Magistrate's office, and shall be duly notified on the day of the auction.

**Rule 8**—On the day of the auction the lessee, to whom the ferry has been knocked down, shall deposit 25 per cent. as security for the due fulfilment by him of the conditions of his lease. This deposit may, however, at the discretion of the Magistrate, be dispensed with in the case of small ferries in which boats or canoes are not provided by Government.

**Rule 9.**—In cases in which the ferry is leased for only a year, or part of a year, the lessee shall be held liable for the rent for the entire period the moment the ferry has been knocked down to him. In cases in which the ferry is leased for a number of years, the liability for each year's rent shall accrue from the first day of the year.

**Rule 10.**—The contract which the lessee will be required to execute under section 9 of the Act shall be in the form appended to these rules.

**Rule. 11.**—As soon as possible after the contract has been executed by the lessee, the Magistrate shall furnish him, free of charge, with a copy of these rules, a list of the authorised tolls duly signed under section 19 of the Act, and two notice boards having written on them legibly in the vernacular the schedule of tolls applicable to the ferry, the number of boats which the lessee is bound to keep plying, the number of men by whom each boat is to be manned, and the maximum number of passengers, &c., each boat is allowed to carry. The notice boards shall be fixed by the lessee in a conspicuous place at both ends of the ferry, and shall be kept by him in a proper condition. On the expiry of his lease they shall be returned by him to the Magistrate.

*\* Rules for the management of ferries leased by public auction and for regulating their traffic.*

**Rule 12.** The lessee shall be bound to ferry over diligently, carefully, and with the least possible delay, all passengers, vehicle, animals and goods which may come to the ferry ghât to be ferried over.

**Rule 13.** The rate of tolls to be levied shall be those fixed by the Magistrate, with the approval of the Commissioner, under section 18 of the Act.

**Rule 14.**—The lessee shall not charge or demand tolls for ferrying over—

- (a) Mails, mail carts, dāk-runners, and Government telegraph messengers on duty.
- (b) Commissariat stores, animals and vehicles, when accompanied by a challan from the Commissariat officer.
- (c) Military officers, soldiers, and their followers
- (d) Police and other public officers and process-  
serving peons
- (e) Executive officers of the District Road Department when travelling on duty.
- (f) Coolies engaged in repairing roads, with their tools and instruments.
- (g) Persons carrying dead bodies or property sent in by the police.

**Rule 15.**—The lessee shall not charge or demand tolls from persons who wade or swim across, or take cattle or other animals or property across at their own cost and risk, or from persons who cross themselves, or take other persons across without charge, in their own boats.

**Rule 16.**—The ferry shall ordinarily ply between sunrise and sunset; but the lessee may employ the boats in ferrying passengers across at any time after sunset, provided each boat so employed carries a light, which must be displayed in a conspicuous part of the boat.

**Rule. 17.**—The Magistrate may, if necessary, fix the times for the crossing of the mails and dāk-runners, and may, as occasion arises, vary such times. He shall in all such cases give notice in writing to the lessee of the times at which the mails are to be ferried over, and it shall thereupon become the duty of the lessee to see that arrangements are specially made for the crossing of the mails immediately on their arrival at the ferry ghât, and that no delay is allowed to occur in their transit.

**Rule 18.**—The lessee shall provide and keep in proper order, to the satisfaction of the Magistrate, the landing-stages on both sides of the ferry, and shall move them when necessary according to the rise and fall of the water. He shall also provide proper rest-houses or travellers' sheds on the banks of the ferry as required by the Magistrate, and shall make all proper arrangements and provide all suitable accommodation on the ferry boats for passenger and goods traffic.

**Rule 19.**—The lessee shall mark on each boat the number of passengers, animals and vehicles, and the bulk and weight of other things it is authorised to carry at a single trip.

**Rule 20.**—When any ferry which has been leased for a given period is discontinued under the orders of the Magistrate before the expiry of that period, the lessee shall be allowed a deduction in the rent payable for the unexpired portion of the term of the lease. If it be shown to the satisfaction of the Magistrate that the lessee has suffered any loss, consequent on the discontinuance of the ferry, the Magistrate may allow him such compensation as he thinks is deserved.

**Rule 21.**—In the event of the ferry being discontinued before the expiry of the lease, either by order of the Magistrate or otherwise, all persons who have compounded for the tolls for its use shall be entitled to receive a refund calculated as in Rule 4, and unless the claims of all such persons have been satisfied by the lessee, the Magistrate shall have authority to satisfy the claims out of the deposit made by the lessee under Rule 8.

**Rule 22.**—The lessee shall, when required by the Magistrate to do so, but not otherwise, furnish all information in his power regarding suspicious persons or classes of persons who may have been, or may come to be, ferried over.

**Rule 23.**—The lessee shall be bound to furnish such returns of traffic as may from time to time be called for by the Magistrate, and for this purpose he shall keep up a register of traffic in the form to be prescribed by the Magistrate.

5. I shall not charge or demand tolls for ferrying over—

- (a). Mails, mail carts, dak-runners and Government telegraph messengers on duty.
- (b). Commissariat stores, animals, and vehicles, when accompanied by a challan from the Commissariat officer
- (c). Military officers, soldiers and their followers } when travelling on duty with their *bond*  
side baggage, horses, palkies, or other conveyances.
- (d). Police and other public officers and process-serving peons }
- (e). Executive officers of the District Road Department when travelling on duty.
- (f). Coolies engaged in repairing roads, with their tools and instruments.
- (g). Persons carrying dead bodies or property sent in by the police.

6. I shall not charge or demand tolls from persons who wade or swim across, or take cattle or other animals or property across at their own cost and risk, or from persons who cross themselves, or take other persons across without charge in their own boats.

7. I hereby agree to pay the rent in the following instalments:—

Date.

	Rs.	A.	P.
1st	...	...	...
2nd	...	...	...
3rd	...	...	...
4th	...	...	...

But if at any time before the expiry of the period for which the ferry has been leased to me, I be removed therefrom for any breach of the terms and conditions of the lease, or for any wilful breach of any of the rules under section 15 of the Act, I shall be liable to pay rent up to and including the instalment due next after my removal.

8. If the rates of toll are reduced during the currency of my lease, or the exemptions from the payment of it are extended, this agreement is to be modified accordingly. I shall be given a fair opportunity of satisfying the Magistrate as to the effect of the change, and if the terms proposed by him thereafter are not such as I can reasonably accept, I will, according to the law, immediately carry into effect the order reducing the rates of toll, or extending the exemption from payment of it, but will at the same time state the amount of rent I may be willing to pay under the altered circumstances of the case. Should my offer appear to the Magistrate to be inadequate, it shall be competent to him to remove me, and place another person in charge of the ferry, and for such time as I remain in charge of the ferry after the issue of the order reducing the rates of tolls, or extending the exemption from payment of it, I shall pay rent only at the rate tendered by me.

9. If I make default in the payment of the rent for the ferry, or of any penalty which may be lawfully imposed, or if I do not observe and perform the covenants herein contained, it shall be lawful for the Magistrate to remove me from the charge of the ferry, and to settle the same with some other person. After such removal, I shall not be entitled to any part of the proceeds of the ferry or to levy any toll therefor. And if the rent on re-letting the ferry fall short of the amount at which it was leased to me, and the Government thereby incur loss, I shall be held responsible for such difference or loss, the amount of which may be deducted from my deposit. If the deposit does not cover the loss incurred, the rent due from me, and the amount of tolls refunded by the Magistrate under Rule 21 of the rules under section 15 of the Act, the total amount which is deficient shall be recoverable in the manner set forth in section 12 of the Act.

10. I will not assign, sublet or part with the possession of the ferry without the previous consent, in writing, of the Magistrate.

11. I shall not claim any compensation on account of roads being closed for repairs, or on account of inundations, or the breaking down of bridges.

#### NOTIFICATION.

*The 1st November 1887.*—The following rules, framed by the Commissioner of the Presidency Division, under section 22 of Act I (B.C.) of 1885, for the management of private ferries in the district of Khulna, having been accepted by the Lieutenant-Governor, are hereby published for general information.

COLMAN MACAULAY,  
Secretary to the Government of Bengal.

#### RULES UNDER SECTION 22, ACT I (B.C.) OF 1885, FOR THE DISTRICT OF KHULNA.

*Rule 1.*—All private ferries shall be registered in the office of the Magistrate of the district in which they are situated, and particulars under the following heads shall be entered in the application for registration:—

- (a). Name of the ferry and names of the villages and thannah in which, and the river across which, it is situated.
- (b). The number and description of the boats to be maintained, and the strength of the crew to be employed on each.

(c). The maximum number of passengers, animals, vehicles, and bulk or weight of goods to be carried by each boat.

(d). The periods or season during which the ferry is to be plied every year.

**Rule 2.**—Before a private ferry is registered, the Magistrate shall satisfy himself that the statements contained in the application are correct.

**Rule 3.**—If the proprietor of any private ferry shall not apply, as required by Rule 1, for its registration within three months from the publication of these rules, the Magistrate of the district may serve upon him a written notice requiring him to furnish the particulars stated in Rule 1, within a stated period of not less than one month; and any proprietor on whom such a notice has been served in respect of any ferry shall not maintain the same, or allow it to be maintained, after the expiry of the period fixed in such notice, unless the particulars required by Rule 1 shall have been furnished to the Magistrate as ordered.

**Rule 4.**—The proprietor of every private ferry shall be bound to adhere to the terms of his application, or of any statement furnished by him under Rule 3, and shall not reduce the number of boats or crews to be maintained by him, or allow any of his boats to carry an excess number of passengers, animals, vehicles or weight or bulk of goods.

**Rule 5.**—The proprietor shall mark on each boat the number of passengers, animals and vehicles, and the bulk and weight of other things it is authorized to carry at a single trip.

**Rule 6.**—The ferry shall ordinarily ply between sunrise and sunset, but the proprietor may ply the boats after sunset, provided each boat carries a light, which must be exhibited in a conspicuous part of the boat.

**Rule 7.**—The ferry shall not ply when the current, wind, or state of the weather is such as to render the crossing unsafe, or to endanger the lives of the passengers.

**Rule 8.**—The Magistrate may direct that any boat used in any private ferry may be examined by such officer as he may depute, and may prohibit the use of such boat if he is satisfied that it is of such a kind, or in such a condition, that its use is dangerous to life or property.

**Rule 9.**—The owner of every private ferry shall report without delay, at the police-station within whose jurisdiction the ferry is situated, the occurrence of any accident at the ferry resulting in serious injury or in loss of life.

**Rule 10.**—The Magistrate may require the owner of any private ferry to state the name of any person to whom such ferry may be leased, or who may be placed in charge of such ferry.

**Rule 11.**—The person in charge of a private ferry, and all persons employed in working a private ferry-boat, shall be responsible that such boat shall not be overladen; and every person having been directed not to enter a fully laden boat, or not to load animals and goods in it, shall be bound to obey such direction.

#### NOTIFICATION.

*The 1st November 1887.*—The following rules, framed by the Commissioner of the Rajshahye Division, under section 22 of Act I (B.C.) of 1885, for the management of private ferries in the district of Dinagepore having been accepted by the Lieutenant-Governor, are hereby published for general information.

COLMAN MACAULAY,  
Secretary to the Govt. of Bengal.

#### RULES UNDER SECTION 22, ACT I (B.C.) OF 1885 FOR THE DISTRICT OF DINAGEPORE.

*Rule 1.*—All private ferries shall be registered in the office of the Magistrate of the district in which they are situated, and particulars under the following heads shall be entered in the application for registration :—

- (a). Name of the ferry and names of the villages and thannah in which, and the river across which, it is situated.
- (b). The number and description of the boats to be maintained, and the strength of the crew to be employed on each.
- (c). The maximum number of passengers, animals, vehicles, and bulk or weight of goods to be carried by each boat.
- (d). The periods or season during which the ferry is to be plied every year.

*Rule 2.*—Before a private ferry is registered, the Magistrate shall satisfy himself that the statements contained in the application are correct, and that the description of each boat and the strength of the crew to be employed is suitable for the safety of passengers and goods and may, if he see fit, by a notice in writing declare the description of boat to be maintained and the number of the crew to be employed, and any proprietor of a private ferry who shall, within one month after receipt of such notice, neglect to comply with it, shall cease to maintain the ferry or allow it to be maintained.

*Rule 3.*—If the proprietor of any private ferry shall not apply, as required, by Rule 1, for its registration within three months from the publication of these rules, the Magistrate of the district may serve upon him a written notice requiring him to furnish the particulars stated in Rule 1, within a stated period of not less than one month; and any proprietor on whom such a notice has been served in respect of any ferry shall not maintain the same, or allow it to be maintained, after the expiry of the period fixed in such notice, unless the particulars required by Rule 1 shall have been furnished to the Magistrate as ordered.

*Rule 4.*—The proprietor of every private ferry shall be bound to adhere to the terms of his application, or of any statement furnished by him under Rule 3, and shall not reduce the number of boats or crews to be maintained by him, or allow any of his boats to carry an excess number of passengers, animals, vehicles or weight or bulk of goods.

*Rule 5.*—The proprietor shall mark on each boat the number of passengers, animals, and vehicles, and the bulk and weight of other things it is authorized to carry at a single trip.

*Rule 6.*—The ferry shall ordinarily ply between sunrise and sunset, but the proprietor may ply the boats after sunset, provided each boat carries a light, which must be exhibited in a conspicuous part of the boat.

*Rule 7.*—The ferry shall not ply when the current, wind, or state of the weather is such as to render the crossing unsafe, or to endanger the lives of the passengers.

*Rule 8.*—The Magistrate may direct that any boat used in any private ferry may be examined by such officer as he may depute, and may prohibit the use of such boat if he is satisfied that it is of such a kind, or in such a condition that its use is dangerous to life or property.

*Rule 9.*—The owner of every private ferry shall report without delay, at the police-station within whose jurisdiction the ferry is situated, the occurrence of any accident at the ferry resulting in serious injury or in loss of life.

*Rule 10.*—The Magistrate may require the owner of any private ferry to state the name of any person to whom such ferry may be leased, or who may be placed in charge of such ferry.

- (e) determine the maximum number of passengers, animals, carts, vehicles, and goods which each ferry boat shall carry, and cause a notice to this effect to be affixed to each boat;
- (f) determine the hours within which the boats shall ply, and the minimum number of journeys to be made every day;
- (g) provide for the prompt conveyance of the mails at all times across the ferry.

**Rule 4.**—Any person may compound for tolls payable for the use of the ferry; and if the ferry should be closed before the expiry of the period for which such person has compounded for tolls payable for its use, he shall be entitled to a refund, the amount of which shall bear the same proportion to the whole sum paid by him as the period remaining bears to the whole period for which he compounded. Such refund shall be made under the orders of the Magistrate.

*Rules for leasing out ferries.*

**Rule 5.**—When it has been determined to lease the tolls of any public ferry by auction under section 9 of Act I (B.C.) of 1885, the Magistrate shall, at least 15 days before the auction is held, cause an advertisement of such auction to be published, both in English and in the vernacular, in such place and in such manner as to him shall seem expedient.

**Rule 6.**—The advertisement shall specify—

- (a) the time and place of the sale;
- (b) the period for which the ferry is to be leased, and the dates between which the lessee shall be bound to ply the ferry every year;
- (c) the number and description of the boats to be maintained, the strength of the crew to be employed on each, and the maximum number of passengers, animals, vehicles, and the bulk or weight of goods each is authorised to carry;
- (d) the liability or otherwise of the lessee to provide the boats and to keep them in repair;
- (e) the liability or otherwise of the lessee to provide and keep in order the landing-stages, and the rest-houses or travellers' sheds, if any, at either or both termini of the crossing;
- (f) the minimum number of crossings to be made daily at any particular season of the year;
- (g) the rate of tolls to be levied;
- (h) the persons and things to be ferried over free of toll as provided in Rule 14;
- (i) the instalments in which the rent for the ferry is to be paid; and
- (j) such other particulars as the Magistrate shall consider necessary.

**Rule 7.**—A copy of the advertisement, and of the Rules and the Form of agreement required to be executed under section 9 of the Act, shall be posted up in a conspicuous place in the Magistrate's office, and shall be duly notified on the day of the auction.

**Rule 8.**—On the day of the auction the lessee, to whom the ferry has been knocked down, shall deposit 25 per cent. as security for the due fulfilment by him of the conditions of his lease. This deposit may, however, at the discretion of the Magistrate, be dispensed with in the case of small ferries in which boats or canoes are not provided by Government.

**Rule 9.**—In cases in which the ferry is leased for only a year, or part of a year, the lessee shall be held liable for the rent for the entire period the moment the ferry has been knocked down to him. In cases in which the ferry is leased for a number of years, the liability for each year's rent shall accrue from the first day of the year.

**Rule 10.**—The contract which the lessee will be required to execute under section 9 of the Act shall be in the form appended to these rules.

**Rule 11.**—As soon as possible after the contract has been executed by the lessee, the Magistrate shall furnish him, free of charge, with a copy of these rules, a list of the authorised tolls duly signed under section 19 of the Act, and two notice boards having written on them legibly in the vernacular the schedule of tolls applicable to the ferry, the number of boats which the lessee is bound to keep plying, the number of men by whom each boat is to be manned, and the maximum number of passengers, &c, each boat is allowed to carry. The notice boards shall be fixed by the lessee in a conspicuous place at both ends of the ferry, and shall be kept by him in a proper condition. On the expiry of his lease they shall be returned by him to the Magistrate.

*Rules for the management of ferries leased by public auction and for regulating their traffic.*

**Rule 12.**—The lessee shall be bound to ferry over diligently, carefully, and with the least possible delay, all passengers, vehicles, animals, and goods which may come to the ferry ghât to be ferried over.

**Rule 13.**—The rate of tolls to be levied shall be those fixed by the Magistrate, with the approval of the Commissioner, under section 18 of the Act.

**Rule 14.**—The lessee shall not charge or demand tolls for ferrying over—

- (a) Mails, mail carts, dak-runners, and Government telegraph messengers on duty.
- (b) Commissariat stores, animals, and vehicles, when accompanied by a chalan from the Commissariat officer.
- (c) Military officers, soldiers, and their followers (when travelling on duty with their
- (d) Police and other public officers and process- { *bonâ fide* baggage, horses, palkies, or other conveyances.  
serving peons

- (e) Executive officers of the District Road Department when travelling on duty.  
(f) Coolies engaged in repairing roads, with their tools and instruments.  
(g) Persons carrying dead bodies or property sent in by the police.

**Rule 15.**—The lessee shall not charge or demand tolls from persons who wade or swim across, or take cattle or other animals or property across at their own cost and risk, or from persons who cross themselves, or take other persons across without charge in their own boats.

**Rule 16.**—The ferry shall ordinarily ply between sunrise and sunset; but the lessee may employ the boats in ferrying passengers across at any time after sunset, provided each boat so employed carries a light, which must be displayed in a conspicuous part of the boat.

**Rule 17** —The Magistrate may, if necessary, fix the times for the crossing of the mails and dak-runners, and may, as occasion arises, vary such times. He shall in all such cases give notice in writing to the lessee of the times at which the mails are to be ferried over, and it shall thereupon become the duty of the lessee to see that arrangements are specially made for the crossing of the mails immediately on their arrival at the ferry ghât, and that no delay is allowed to occur in their transit.

**Rule 18.**—The lessee shall provide and keep in proper order, to the satisfaction of the Magistrate, the landing-stages on both sides of the ferry, and shall move them when necessary according to the rise and fall of the water. He shall also provide proper rest-houses or travellers' sheds on the banks of the ferry as required by the Magistrate, and shall make all proper arrangements and provide all suitable accommodation on the ferry-boats for passenger and goods traffic.

**Rule 19.**—The lessee shall mark on each boat the number of passengers, animals, and vehicles, and the bulk and weight of other things it is authorized to carry at a single trip.

**Rule 20.**—When any ferry which has been leased for a given period is discontinued under the orders of the Magistrate before the expiry of that period, the lessee shall be allowed a deduction in the rent payable for the unexpired portion of the term of the lease. If it be shown to the satisfaction of the Magistrate that the lessee has suffered any loss, consequent on the discontinuance of the ferry, the Magistrate may allow him such compensation as he thinks is deserved.

**Rule 21.**—In the event of the ferry being discontinued before the expiry of the lease, either by order of the Magistrate or otherwise, all persons who have compounded for the tolls for its use shall be entitled to receive a refund calculated as in Rule 4, and unless the claims of all such persons have been satisfied by the lessee, the Magistrate shall have authority to satisfy the claims out of the deposit made by the lessee under Rule 8.

**Rule 22** —The lessee shall, when required by the Magistrate to do so, but not otherwise, furnish all information in his power regarding suspicious persons or classes of persons who may have been, or may come to be, ferried over.

**Rule 23.**—The lessee shall be bound to furnish such returns of traffic as may from time to time be called for by the Magistrate, and for this purpose he shall keep up a register of traffic in the form to be prescribed by the Magistrate.

**Rule 24.**—If the lessee desires to establish communication across the ferry by means of a bridge of any kind, he shall first obtain the sanction, in writing, of the Magistrate, and shall, on obtaining such sanction, carry out any orders which the Magistrate may make regarding the opening of such bridge for the through passage of vessels and rafts. Such bridge shall on no account obstruct the free passage of the stream.

**Rule 25.**—The Magistrate may at any time require the lessee to repair or replace any boat which he considers to be in a dangerous state of disrepair, and the lessee shall thereupon be bound to repair or replace it as directed.

**Rule 26.**—Police officers will report at once any instance of mismanagement of a public ferry, the insecurity of the boats, landing stages, slopes or approaches, and any other defect in the working of the ferry, which may come to their notice.

**Rule 27.**—The ferry boats belonging to any public ferry shall not be plied when the current, wind, or state of the weather is such as to render the crossing unsafe and endanger the lives of the passengers.

**Rule 28.**—A register in the following form, showing the demand and collection on account of rents payable for tolls of public ferries, shall be kept up by the Magistrate.

*Receipts on account of ferry* , *farmed by* , *at an annual rent of Rs.*

After such removal I shall not be entitled to any part of the proceeds of the ferry or to levy any toll therefor. And if the rent on re-letting the ferry fall short of the amount at which it was leased to me, and the Government thereby incur loss, I shall be held responsible for such difference or loss, the amount of which may be deducted from my deposit. If the deposit does not cover the loss incurred, the rent due from me, and the amount of tolls refunded by the Magistrate under Rule 21 of the rules under section 15 of the Act, the total amount which is deficient shall be recoverable in the manner set forth in section 12 of the Act.

10. I will not assign, sublet or part with the possession of the ferry without the previous consent, in writing, of the Magistrate.

11. I shall not claim any compensation on account of roads being closed for repairs, or on account of inundations, or the breaking down of bridges.

**NOTIFICATION.**

*The 1st November 1887.*—The following rules framed by the Commissioner of the Rajshahye Division, under section 22 of Act I (B.C.) of 1885, for the management of private ferries in the district of Rungpore, having been accepted by the Lieutenant-Governor, are hereby published for general information.

COLMAN MACAULAY,  
*Secretary to the Govt of Bengal.*

RULES UNDER SECTION 22, ACT I (B.C.) OF 1885, FOR THE DISTRICT  
OF BUNGPORE.

**Rule 1.**—All private ferries shall be registered in the office of the Magistrate of the district in which they are situated, and particulars under the following heads shall be entered in the application for registration :—

- (a). Name of the ferry and names of the villages and thannah in which, and the river across which, it is situated.
- (b). The number and description of the boats to be maintained, and the strength of the crew to be employed on each.
- (c). The maximum number of passengers, animals, vehicles, and bulk or weight of goods to be carried by each boat.
- (d). The periods or season during which the ferry is to be plied every year.

**Rule 2**—Before a private ferry is registered, the Magistrate shall satisfy himself that the statements contained in the application are correct.

**Rule 3.**—If the proprietor of any private ferry shall not apply, as required by Rule 1, for its registration within three months from the publication of these rules, the Magistrate of the district may serve upon him a written notice requiring him to furnish the particulars stated in Rule 1, within a stated period of not less than one month; and any proprietor on whom such a notice has been served in respect of any ferry shall not maintain the same, or allow it to be maintained, after the expiry of the period fixed in such notice, unless the particulars required by Rule 1 shall have been furnished to the Magistrate as ordered.

**Rule 4.**—The proprietor of every private ferry shall be bound to adhere to the terms of his application, or of any statement furnished by him under Rule 3, and shall not reduce the number of boats or crews to be maintained by him, or allow any of his boats to carry an excess number of passengers, animals, vehicles, or weight or bulk of goods.

**Rule 5.**—The proprietor shall mark on each boat the number of passengers, animals, and vehicles, and the bulk and weight of other things it is authorized to carry at a single trip.

**Rule 6.**—The ferry shall ordinarily ply between sunrise and sunset, but the proprietor may ply the boats after sunset, provided each boat carries a light, which must be exhibited in a conspicuous part of the boat.

**Rule 7.**—The ferry shall not ply when the current, wind, or state of the weather is such as to render the crossing unsafe, or to endanger the lives of the passengers.

**Rule 8.**—The Magistrate may direct that any boat used in any private ferry may be examined by such officer as he may depute, and may prohibit the use of such boat if he is satisfied that it is of such a kind, or in such a condition, that its use is dangerous to life or property.

**Rule 9.**—The owner of every private ferry shall report without delay, at the police-station within whose jurisdiction the ferry is situated, the occurrence of any accident at the ferry resulting in serious injury or in loss of life.

**Rule 10.**—The Magistrate may require the owner of any private ferry to state the name of any person to whom such ferry may be leased, or who may be placed in charge of such ferry.

**Rule 11.**—The person in charge of a private ferry, and all persons employed in working a private ferry-boat, shall be responsible that such boat shall not be overladen; and every person having been directed not to enter a fully laden boat, or not to load animals and goods in it, shall be bound to obey such direction.

- (g) provide for the prompt conveyance of the mails at all times across the ferry;
- (h) allow the exemptions mentioned in Rule 14 below.

*Rule 4.*—Any person may compound for tolls payable for the use of the ferry; and if the ferry should be closed before the expiry of the period for which such person has compounded for tolls payable for its use, he shall be entitled to a refund, the amount of which shall bear the same proportion to the whole sum paid by him, as the period remaining bears to the whole period for which he compounded. Such refund shall be made under the orders of the Magistrate.

#### *Rules for leasing out ferries.*

*Rule 5.*—When it has been determined to lease the tolls of any public ferry by auction, under section 9 of Act I (B.C.) of 1885, the Magistrate shall, at least 15 days before the auction is held, cause an advertisement of such auction to be published, both in English and in the vernacular, in such place and in such manner as to him shall seem expedient.

*Rule 6.*—The advertisement shall specify—

- (a) the time and place of the sale;
- (b) the period for which the ferry is to be leased, and the dates between which the lessee shall be bound to ply the ferry every year;
- (c) the number and description of the boats to be maintained, the strength of the crew to be employed on each, and the maximum number of passengers, animals, vehicles, and the bulk or weight of goods each is authorised to carry;
- (d) the liability or otherwise of the lessee to provide the boats and to keep them in repair;

- (e) the liability or otherwise of the lessee to provide and keep in order the landing-stages, and the rest-houses or travellers' sheds, if any, at either or both termini of the crossing;
- (f) the minimum number of crossings to be made daily at any particular season of the year;
- (g) the rate of tolls to be levied;
- (h) the persons and things to be ferried over free of toll as provided in Rule 14;
- (i) the instalments in which the rent for the ferry is to be paid; and
- (j) such other particulars as the Magistrate shall consider necessary.

**Rule 7.**—A copy of the advertisement, and of the Rules and the Form of agreement required to be executed under section 9 of the Act, shall be posted up in a conspicuous place in the Magistrate's office, and shall be duly notified on the day of the auction.

**Rule 8.**—On the day of the auction the lessee, to whom the ferry has been knocked down, shall deposit one-fourth of the sale bid as security for the due fulfilment by him of the conditions of his lease. This deposit may, however, at the discretion of the Magistrate, be dispensed with in the case of small ferries in which boats or canoes are not provided by Government.

**Rule 9.**—In cases in which the ferry is leased for only a year, or part of a year, the lessee shall be held liable for the rent for the entire period the moment the ferry has been knocked down to him. In cases in which the ferry is leased for a number of years, the liability for each year's rent shall accrue from the first day of the year.

**Rule 10.**—The contract which the lessee will be required to execute under section 9 of the Act shall be in the form appended to these rules.

**Rule 11.**—As soon as possible after the contract has been executed by the lessee, the Magistrate shall furnish him, free of charge, with a copy of these rules, a list of the authorised tolls duly signed under section 19 of the Act, and two notice boards having written on them legibly in the vernacular the schedule of tolls applicable to the ferry, the number of boats which the lessee is bound to keep plying, the number of men by whom each boat is to be manned, and the maximum number of passengers, &c, each boat is allowed to carry. The notice board shall be fixed by the lessee in a conspicuous place at both ends of the ferry, and shall be kept by him in a proper condition. On the expiry of his lease they shall be returned by him to the Magistrate.

*Rules for the management of ferries leased by public action and for regulating their traffic.*

**Rule 12.**—The lessee shall be bound to ferry over diligently, carefully, and with the least possible delay, all passengers, vehicles, animals and goods which may come to the ferry ghât to be ferried over.

**Rule 13.**—The rate of tolls to be levied shall be those fixed by the Magistrate, with the approval of the Commissioner, under section 18 of the Act.

**Rule 14.**—The lessee shall not charge or demand tolls for ferrying over—

- (a) Mails, mail carts, dâk-runners, and Government telegraph messengers on duty.
- (b) Commissariat stores, animals and vehicles, when accompanied by a châlân from the Commissariat officer.
- (c) Military officers, soldiers, and their followers
- (d) Police and other public officers and process-servants
- (e) Executive officers of the Department of the District Board when travelling on duty.
- (f) Coolies engaged in repairing roads, with their tools and instruments.
- (g) Persons carrying dead bodies or property sent in by the police.
- (h) Members of the District and Local Boards travelling on duty connected with their office as District and Local Board Members.

**Rule 15.**—The lessee shall not charge or demand tolls from persons who wade or swim across, or take cattle or other animals or property across at their own cost and risk, or from persons who cross themselves, or take other persons across without charge, in their own boats.

**Rule 16.**—The ferry shall ordinarily ply between sunrise and sunset; but the lessee may employ the boats in ferrying passengers across at any time after sunset, provided each boat so employed carries a light, which must be displayed in a conspicuous part of the boat.

**Rule 17.**—The Magistrate may, if necessary, fix the times for the crossing of the mails and dâk-runners, and may, as occasion arises, vary such times. He shall in all such cases give notice in writing to the lessee of the times at which the mails are to be ferried over, and it shall thereupon become the duty of the lessee to see that arrangements are specially made for the crossing of the mails immediately on their arrival at the ferry ghât, and that no delay is allowed to occur in their transit.

**Rule 18.**—The lessee shall provide and keep in proper order, to the satisfaction of the Magistrate, the landing-stages on both sides of the ferry, and shall move them when necessary according to the rise and fall of the water. He shall also provide proper rest-houses or travellers' sheds on the banks of the ferry as required by the Magistrate, and shall make all proper arrangements and provide all suitable accommodation on the ferry boats for passenger and goods traffic.

**Rule 19.**—The lessee shall mark on each boat the number of passengers, animals and vehicles, and the bulk and weight of other things it is authorised to carry at a single trip.

**Rule 20.**—When any ferry which has been leased for a given period is discontinued under the orders of the Magistrate before the expiry of that period, the lessee shall be allowed a deduction in the rent payable for the unexpired portion of the term of the lease. If it be shown to the satisfaction of the Magistrate that the lessee has suffered any loss, consequent on the discontinuance of the ferry, the Magistrate may allow him such compensation as he thinks is deserved.

**Rule 21.**—In the event of the ferry being discontinued before the expiry of the lease either by order of the Magistrate or otherwise, all persons who have compounded for the tolls for its use shall be entitled to receive a refund calculated as in Rule 4, and unless the claims of all such persons have been satisfied by the lessee, the Magistrate shall have authority to satisfy the claims out of the deposit made by the lessee under Rule 8.

**Rule 22.**—The lessee shall, when required by the Magistrate to do so, but not otherwise, furnish all information in his power regarding suspicious persons or classes of persons who may have been, or may come to be, ferried over.

**Rule 23.**—The lessee shall be bound to furnish such returns of traffic as may from time to time be called for by the Magistrate, and for this purpose he shall keep up a register of traffic in the form to be prescribed by the Magistrate.

**Rule 24.**—If the lessee desires to establish communication across the ferry by means of a bridge of any kind, he shall first obtain the sanction, in writing, of the Magistrate, and shall, on obtaining such sanction, carry out any orders which the Magistrate may make regarding the opening of such bridge for the through passage of vessels and rafts. Such bridge shall on no account obstruct the free passage of the stream.

**Rule 25.**—The Magistrate may at any time require the lessee to repair or replace any boat which he considers to be in a dangerous state of disrepair, and the lessee shall thereupon be bound to repair or replace it as directed.

**Rule 26.**—Police officers will report at once any instance of mismanagement of a public ferry, the insecurity of the boats, landing-stages, slopes or approaches, and any other defect in the working of the ferry, which may come to their notice.

**Rule 27.**—The ferry boats belonging to any public ferry shall not be plied when the current, wind or state of the weather is such as to render the crossing unsafe, and endanger the lives of the passengers.

**Rule 28.**—A register in the following form, showing the demand and collection on account of rents payable for tolls of public ferries, shall be kept up by the Magistrate.

*Receipts on account of ferry* , farmed by , at

#### NOTIFICATION.

*The 1st November 1887.*—The following rules framed by the Commissioner of the Dacca Division, under section 22 of Act I (B.C.) of 1885, for the management of private ferries in the district of Dacca, having been accepted by the Lieutenant-Governor, are hereby published for general information.

COLMAN MACAULAY,  
*Secretary to the Govt. of Bengal.*

#### RULES UNDER SECTION 22, ACT I (B.C.) OF 1885 FOR THE DISTRICT OF DACCA.

*Rule 1.*—All private ferries shall be registered in the office of the Magistrate of the district in which they are situated, and particulars under the following heads shall be entered in the application for registration :—

- (a). Name of the ferry and names of the villages and thannah in which, and the river across which, it is situated.

- (b). The number and description of the boats to be maintained, and the strength of the crew to be employed on each.
- (c). The maximum number of passengers, animals, vehicles, and bulk or weight of goods to be carried by each boat.
- (d). The periods or season during which the ferry is to be plied every year.

**Rule 2.**—Before a private ferry is registered, the Magistrate shall satisfy himself that the statements contained in the application are correct.

**Rule 3.**—If the proprietor of any private ferry shall not apply, as required by Rule 1, for its registration within three months from the publication of these rules, the Magistrate of the district may serve upon him a written notice requiring him to furnish the particulars stated in Rule 1, within a stated period of not less than one month; and any proprietor on whom such a notice has been served in respect of any ferry shall not maintain the same, or allow it to be maintained, after the expiry of the period fixed in such notice, unless the particulars required by Rule 1 shall have been furnished to the Magistrate as ordered.

**Rule 4.**—The proprietor of every private ferry shall be bound to adhere to the terms of his application, or of any statement furnished by him under Rule 3, and shall not reduce the number of boats or crews to be maintained by him, or allow any of his boats to carry an excess number of passengers, animals, vehicles, or weight or bulk of goods.

**Rule 5.**—The proprietor shall mark on each boat the number of passengers, animals and vehicles, and the bulk and weight of other things it is authorized to carry at a single trip.

**Rule 6.**—The ferry shall ordinarily ply between sunrise and sunset, but the proprietor may ply the boats after sunset, provided each boat carries a light, which must be exhibited in a conspicuous part of the boat.

**Rule 7.**—The ferry shall not ply when the current, wind, or state of the weather is such as to render the crossing unsafe, or to endanger the lives of the passengers.

**Rule 8.**—The Magistrate may direct that any boat used in any private ferry may be examined by such officer as he may depute, and may prohibit the use of such boat if he is satisfied that it is of such a kind, or in such a condition, that its use is dangerous to life or property.

**Rule 9.**—The owner of every private ferry shall report without delay, at the police-station within whose jurisdiction the ferry is situated, the occurrence of any accident at the ferry resulting in serious injury or in loss of life.

**Rule 10.**—The Magistrate may require the owner of any private ferry to state the name of any person to whom such ferry may be leased, or who may be placed in charge of such ferry.

**Rule 11.**—The person in charge of a private ferry, and all persons employed in working a private ferry-boat, shall be responsible that such boat shall not be overladen; and every person having been directed not to enter a fully laden boat, or not to load animals and goods in it, shall be bound to obey such direction.

**Rule 12.**—The Magistrate of the district may delegate his duties and powers under these rules to Sub-divisional Magistrates, and may authorize them to entertain petitions, &c.

#### NOTIFICATION.

*The 1st November 1887.*—The following rules framed by the Commissioner of the Dacca Division, under section 22 of Act I (B. C.) of 1885, for the management of private ferries in the district of Backergunge, having been accepted by the Lieutenant-Governor, are hereby published for general information.

COLMAN MACAULAY,  
Secretary to the Govt. of Bengal.

#### RULES UNDER SECTION 22, ACT I (B.C.) OF 1885, FOR THE DISTRICT OF BACKERGUNGE.

**Rule 1.**—All private ferries shall be registered in the office of the Magistrate of the district in which they are situated, and particulars under the following heads shall be entered in the application for registration:—

- (a). Name of the ferry and names of the villages and thannah in which, and the river across which, it is situated.
- (b). The number and description of the boats to be maintained, and the strength of the crew to be employed on each.
- (c). The maximum number of passengers, animals, vehicles, and bulk or weight of goods to be carried by each boat.
- (d). The periods or season during which the ferry is to be plied every year.

**Rule 2.**—Before a private ferry is registered, the Magistrate shall satisfy himself that the statements contained in the application are correct.

**Rule 3.**—If the proprietor of any private ferry shall not apply, as required by Rule 1, for its registration within three months from the publication of these rules, the Magistrate of the district may serve upon him a written notice requiring him to furnish the particulars stated in Rule 1, within a stated period of not less than one month; and any proprietor on whom such a notice has been served in respect of any ferry shall not maintain the same, or allow it to be maintained, after the expiry of the period fixed in such notice, unless the particulars required by Rule 1 shall have been furnished to the Magistrate as ordered.

**Rule 4.**—The proprietor of every private ferry shall be bound to adhere to the terms of his application, or of any statement furnished by him under Rule 3, and shall not reduce the number of boats or crews to be maintained by him, or allow any of his boats to carry an excess number of passengers, animals, vehicles or weight or bulk of goods.

**Rule 5.**—The proprietor shall mark on each boat the number of passengers, animals and vehicles, and the bulk and weight of other things it is authorized to carry at a single trip.

**Rule 6.**—The ferry shall ordinarily ply between sunrise and sunset, but the proprietor may ply the boats after sunset, provided each boat carries a light, which must be exhibited in a conspicuous part of the boat.

**Rule 7.**—The ferry shall not ply when the current, wind, or state of the weather is such as to render the crossing unsafe, or to endanger the lives of the passengers.

**Rule 8.**—The Magistrate may direct that any boat used in any private ferry may be examined by such officer as he may depute, and may prohibit the use of such boat if he is satisfied that it is of such a kind, or in such a condition, that its use is dangerous to life or property.

**Rule 9.**—The owner of every private ferry shall report without delay, at the police station within whose jurisdiction the ferry is situated, the occurrence of any accident at the ferry resulting in serious injury or in loss of life.

**Rule 10.**—The Magistrate may require the owner of any private ferry to state the name of any person to whom such ferry may be leased, or who may be placed in charge of such ferry.

**Rule 11.**—The person in charge of a private ferry, and all persons employed in working a private ferry-boat, shall be responsible that such boat shall not be overladen; and every person having been directed not to enter a fully laden boat, or not to load animals and goods in it, shall be bound to obey such direction.

#### DECLARATION.

*The 31st October 1887.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Burrisal Municipality for a public purpose, viz., for erecting a public latrine near Chamarpatti road, in the town of Burrisal, pergunnah Gerdabandar, zillah Backergunge, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 cottah and  $7\frac{1}{4}$  chittacks of standard measurement, is required. The land is bounded on the north by Ram Kumar Poddar's land; on the east by Baboo Ruhini Kumar Sen's land; and on the south and west by Baboo Chandi Charan Rai's lands.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACMILLAN,  
Secretary to the Govt of Bengal.

#### NOTIFICATION.

*The 24th October 1887.*—It is hereby notified that, under section 112 of Act IX (B.O.) of 1880, the Lieutenant-Governor is pleased to appoint Mr. E. Brown to be a member of the Darjeeling District Road Committee.

COLMAN MACAULAY,  
Secretary to the Govt. of Bengal.

## PART II.

### Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

### LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Monghyr, will be put up to sale at the Monghyr Collectorate on the 10th January 1888, corresponding with 12th Magh 1295. The purchasers of these estates will be subject to the following conditions of sale:—

#### Conditions of sale.

1. The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.
2. The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
3. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
4. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

## NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

*Under-Secy. to the Govt. of Bengal.*

*The 24th November 1886.*

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

**The Indian Law Reports,**

*Published under Authority.*

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

*Terms of subscription payable annually in advance.*

For the complete series, including postage, Rs. 22-8.

Without postage. With postage.

" a part of the Calcutta Series purchased separately (inclusive of postage in India) .....		2 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately (inclusive of postage in India) ... ..		1 0

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.

" Thacker & Co., Bombay.

" Higginbotham & Co., Madras.

The Government Central Book Depot, Bombay.

" Proprietor of Government Books, North-Western Provinces and Oudh.

" Superintendent of Government Printing, Bengal.

*Orders and subscriptions for 1885 should be at once remitted.*

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA.

### LEGISLATIVE DEPARTMENT.

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 21st October, 1887, and is hereby promulgated for general information:

ACT NO. XX OF 1887.

#### *An Act for the Protection of Wild Birds and Game.*

WHEREAS municipal authorities in different parts of British India have from time to time made rules for the protection of birds and other game;

And whereas it is expedient that Local Governments and cantonment-authorities as well as municipal authorities should be empowered to make such rules;

It is hereby enacted as follows:—

1. (1) This Act may be called the Wild Birds

Title, extent and commencement.

Protection Act, 1887.

(2) It extends to the whole of British India; and

(3) It shall come into force at once.

Definitions. 2. In this Act—

(1) "municipal authority" means the corporation, commissioner, committee, board, council or person having authority over a municipality under any enactment for the time being in force:

(2) "cantonment-authority" means a cantonment-committee or, in the case of a cantonment for which such a committee has not been constituted, the commanding officer of the cantonment: and

(3) "wild bird" includes a peacock and every bird of game.

3. (1) The Local Government with respect to any municipality or cantonment within the territories under its administration, or the municipal authority or cantonment-authority of any municipality or cantonment, may from time to time make rules—

(a) defining the expression "wild bird" for the purposes of this Act in its application to the municipality or cantonment;

(b) defining for those purposes the breeding season of any kind of wild bird; and

(c) prohibiting, subject to such exceptions and conditions as may be prescribed by the rules, the possession or sale during its breeding season within the municipality or cantonment of any kind of wild bird recently killed or taken, or the importation into the municipality or cantonment of the plumage of any kind of wild bird during such season.

(2) The authority making a rule under clause (c) of sub-section (1) may direct that a breach of it shall be punishable with fine which may extend, in the case of a first offence, to five rupees for every wild bird in respect of which or of the plumage whereof the breach of the rule has been committed, and, in the case of a subsequent offence, to ten rupees in respect of every such bird or plumage.

(3) A Court convicting any person of a breach of any such rule may order the confiscation of any wild bird or plumage in respect of which the breach was committed.

(4) The power to make rules under this section is subject to the condition of the rules being made after previous publication and, in the case of rules made by a municipal authority or cantonment-authority, to the further condition of the rules being confirmed by the Local Government before they are published in the official Gazette under clause (5) of section 6 of the General Clauses Act, 1887.

4. The Local Government, of its own motion or Power to apply Act on the application of any to any animals of game. municipal authority or cantonment-authority, may, by notification in the official Gazette, declare the provisions of the last foregoing section with respect to wild birds to apply to any animals of game other than birds,

and thereupon those provisions shall apply to such animals and their furs in like manner as they apply to wild birds and their plumage.

J. M. MACPHERSON,

*Offg. Secretary to the Government of India*

The following Report of the Select Committee on the Bill for the Protection of Wild Birds and Game was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 6th October, 1887:

*Reported Floating Wreck.*

WITH reference to Notice to Mariners No. 62 of 18th October 1887, the French Mail Steamer *Tibre* reports that on the 16th October at 11-30 P.M., when in latitude 10° 27' N., longitude 80° 35' E. (or about 90 miles south of the assigned position of the wreck), she felt a shock as if the vessel had struck on a sand-bank. At the same time a large number of fish were observed surrounding the ship.

As this may have been the wreck in question, ships passing near this spot should keep a good look-out.

*Changes in positions of Buoys.*

Following information has been received from the Resident at Aden, through Procuder A. Carpenter, R. N., in charge Marine Survey of India.

Bahat Buoy (red with black cage) has been replaced 7 cables N.  $\frac{1}{2}$  E. (True) of its old position on Admiralty Chart No. 919, Obokh, Berbera and Zeila. It now lies in 8 fathoms water.

Channel Reef Buoy (red with black cage) has been replaced one cable N. E.  $\frac{1}{2}$  E., true, of its old position on the same chart. It now lies in 7 fathoms water.

These buoys are exactly alike. It is to be hoped that one will soon be painted another colour, or given a different cage.

Caution is necessary in using the passage between Channel Reef and Shab Filfil, not to pass near the buoy, as the Reef appears to extend more to the southward than shown on the chart. See Admiralty Chart 919.

## BEHAR CIRCLE.

## ENTRANCE EXAMINATION, 1888.

THE attention of those who wish to appear at the Entrance Examination of 1888, teachers or as private students, is called to the following :—

I. By "teacher" is meant one who has been employed as such since 1st January 1887, and is a *bonâ fide* teacher, in receipt of a salary at the time of the examination. Satisfactory evidence of this will be required of those who wish to appear as teachers for the Entrance, F. A., or B. A. examinations.

II. Private students will have to produce evidence that they have not read in any school since May 1887, and send, together with their application, a certificate from the head-master of the last school they read in showing that they have observed the Inter-school Rules.

III. Teachers and private students will have to appear at the test examination of the nearest zillah school and pay a fee of two rupees.

IV. The application forms, when sent for the signature of the undersigned, must be accompanied by a statement signed by the head-master showing that there is a reasonable probability of the applicant's passing.

V. No applications to be allowed to appear at the test examination will be received later than 31st December 1887 from either teachers or private students.

VI. Head-masters of the zillah schools are informed that the standard of marking for the test examination is to be just that of the University. If candidates, whether pupil of the school, teachers or private students, fail to pass in more than two subjects, or fail very badly in two, their marks must be submitted to the undersigned, to decide whether they shall be sent up or not. Care must be taken to submit the marks in time.

Public Instruction to be dealt with in such manner as may be deemed to be expedient.

I have the honour to be,

My Lord,

Your Lordship's most obedient, humble Servant,

CROSS.

No. Jt.P. 1023, dated Holloway College, Mount Lee, Egham, 8th June 1887.

From—HIS ROYAL HIGHNESS THE PRINCE CHRISTIAN OF SCHLESWIG HOLSTEIN, K.G.,  
To—Her Majesty's Secretary of State for India, London.

As Chairman of the House Committee of Governors of this College, which is to open on the 4th October, I have been desired to ask if you would do them the favour to cause to be inserted in your Circulars to the Governors of Provinces a short paragraph inviting their attention to the scope and objects of the College, and to the benefits it will probably confer on many of our brethren in India who may wish to send their daughters for education here.

There are, to begin with, fifteen scholarships to be competed for in August or September, and these will be open to all; and judging by the numbers of applications for information received from abroad, it is evident that the advantages to be offered by the College will be sought for in many distant parts of the Empire, as well as in this country.

If it be in your power to comply with my request, the Secretary of the College will forward to the India Office a parcel of the Prospectuses, a few of which might accompany your Circulars to the Governors of Provinces. Advertisements would then be inserted by us in the papers circulating in those Provinces stating—if you would allow us to add this—that copies of the prospectus can be obtained by applying to the offices of the various Governors.

The Committee are very sensible of the great service which the India Office could render the College, as well as our kinsmen abroad, by allowing information to be disseminated in the manner I have ventured to suggest; and they will be very grateful for any assistance which it may be in your power to offer.

If one of your Under Secretaries would be good enough to make an early appointment with our Secretary, Mr. J. L. Clifford Smith, he would call and receive instructions as to the wording of the advertisements and other necessary matters.

No. J & P. 1023-87, dated India Office, the 29th June 1887.

From—Her Majesty's Secretary of State India,

To—HIS ROYAL HIGHNESS PRINCE CHRISTIAN OF SCHLESWIG HOLSTEIN, K.G., &c.,  
Holloway College, Mount Lee, Egham.

I HAVE the honour to acknowledge the receipt of Your Royal Highness' letter of the 8th instant, requesting that the attention of the Governors of Provinces in India may be called to the scope and objects of the Holloway College.

I shall have much pleasure in transmitting to the Governments of India, Madras and Bombay any copies of the Prospectus of the College which Your Royal Highness may send to me for the purpose. Those Governments will not be able to undertake the general distribution of the Prospectus; but I propose to suggest to them that the copies should be given to the Directors of Public Instruction in India to be used by them in such manner as in their discretion they shall think most likely to advance the objects which the Governors of the Holloway College have in view.

No. J & P. 1023, dated Egham, 1st July 1887.

From J. L. CLIFFORD SMITH, Esq., Secretary, Royal Holloway College,  
To—Her Majesty's Secretary of State for India.

I AM desired by His Royal Highness Prince Christian to acknowledge the receipt of your Lordship's courteous communication of the 29th ultimo, and to thank you on his behalf and on that of the Governors for your Lordship's kind offer to transmit to the Governments of India, Madras and Bombay copies of the Prospectus of this College.

His Royal Highness is very sensible of the value of this attention on the part of the India Office; and I am furthermore to express the Prince's sincere appreciation of your Lordship's proposal to suggest that those Governments should give the copies to the Directors of Public Instruction in India, to be used by them in such manner as in their discretion they may think most likely to advance the objects which the Governors of this College have in view.

I have to-day sent by passenger train a parcel containing some copies of the Prospectus and forms of entry, as also twelve copies of a description of the foundation and opening of the building.

PRINCIPAL—Miss BISHOP.

(*At present Head Mistress of the Oxford High School.*)

The College will open on Tuesday, October 4th, 1887.

The College Session will extend from the beginning of October to the beginning of July, and will be divided into three terms of about eleven weeks each, with about three weeks' vacation at Christmas and at Easter.

The Charge for Board, Lodging, and Tuition will be £30 a term, payable in advance. This charge will include all expenses except Laundress, special Medical Attendance, Fees for University Examinations, and individual lessons in Music, Singing or Painting. Arrangc-

ments will be made to allow Students whose circumstances render it necessary, and who obtain permission from the Principal, to reside in College during the vacations, under proper supervision, at a fixed weekly charge.

The Staff will consist of resident Women Tutors and Lecturers, and of visiting Professors and Lecturers, men and women, from London and elsewhere.

The principal subjects of instruction will be—Divinity, Classics, Mediæval and Modern Languages, Mathematics, Natural Science, History and Political Economy, Mental and Moral Science and Theory of Music.

The Curriculum will be so arranged as to prepare students for the London University Degrees, for the Oxford Honour Examinations, and for such other Examinations as the Governors may hereafter find desirable.

There will be yearly courses of instruction in Hygiene, Ambulance Work, Cookery and Needlework, as well as classes for Gymnastic Exercises, Drawing and Vocal Music, and special lessons in Painting, Instrumental Music and Solo Singing for students who desire them.

Students may select their course of study, subject to the approval of the Principal.

Those who do not wish to study for a University Examination will be admitted, provided they satisfy the Principal that they are *bond fide* Students, with some definite course in view.

No student may enter for less than one year, or reside for more than four years, with out special permission from the Governors. The Principal may require the withdrawal of any student who is not profiting by the education of the College.

Candidates for admission must be over 17 years of age, must furnish to the Principal satisfactory references, and pass an Entrance Examination.

The following examinations will be accepted in place of the Entrance Examination :—

The London Matriculation.

The Oxford Women's First Examination.

The Higher Certificate Examination of the Oxford and Cambridge Board.

The Cambridge Higher Local Examination in any two of the groups A, B and C.

The various Senior Local Examinations of the Universities of England, Scotland, Ireland and the Colonies, provided two Languages, or one Language and Mathematics, are included in the pass.

And such other Examinations as the Governors may from time to time deem equivalent.

An Entrance Examination will be held, for the convenience of students, at Queen's College, 43, Harley Street, London, W., on Thursday and Friday, August 4th and 5th. If any students are unable to attend this Examination, they may be examined at the Royal Holloway College on Thursday and Friday, September 29th and 30. Forms of Entry may be obtained (with further information) from the Secretary, and must be returned to him filled up (if possible) not later than July 15th. The Examination will consist of :—

(1.) Obligatory subjects, viz., Arithmetic, English Essay, and a paper of English History and General Geography.

(2.) Optional subjects, of which not less than two nor more than four may be taken, one, at least, being a language, viz., Latin, Greek, French, German, Algebra, Geometry, Trigonometry.

Each student will have a bed-room and sitting-room to herself, and every provision has been made in the internal arrangements of the College for the health and comfort of its inmates. The building includes Chapel, Dining-hall, Library, Reading-room, Museum, and a Picture Gallery containing a valuable collection of modern British paintings. The grounds and gardens are extensive, and provided with Tennis Courts. There is also a Gymnasium.

No religious test will be imposed as a condition of admission. The domestic life of the College will be that of a Christian household, and Prayers will be said daily by the Principal. Provision will be made for the conduct of Divine Service in the Chapel on Sundays. Students will be allowed, under proper regulations, to attend the Services of any Religious denomination which their parents or guardians may desire.

The Founder has provided that in the third year from the opening of the College and in all future years, twelve Foundation Scholarships shall be awarded.

Fifteen Scholarships of £50 a year each, tenable for three years from the opening of the College, have been provided by the liberality of the following benefactors :—

MISS MARY ANN DRIVER (Six).

HENRY DRIVER-HOLLOWAY, Esq. (Two).

ANTONY GIBB, Esq.,

WALFORD GREENWELL, Esq. (Two).

GEORGE MARTIN-HOLLOWAY, Esq. (Two).

BENJAMIN NEWGASS, Esq.

HENRY TATE, Esq.

The Scholarships will be competed for at the Entrance Examination in August.

All enquiries, and applications for Forms of Entry, and for further information in regard to Scholarships, should be addressed in the first instance to the Secretary, Royal Holloway College.

## NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

*Under-Secy. to the Govt. of Bengal.*

*The 24th November 1886.*

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

### The Indian Law Reports,

*Published under Authority.*

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

*Terms of subscription payable annually in advance.*

For the complete series, including postage, Rs. 22-8.

### STATUTORY CIVIL SERVICE EXAMINATION RULES.

#### RESOLUTION.

#### APPOINTMENT.

*Dated Darjeeling, the 7th November 1887.*

#### READ—

Letter from the Secretary to the Government of India, Home Department, No. 2442, dated the 20th October 1887, calling for the submission, in due course of the names of candidates for appointment under the Rules framed under 33 Vic, Cap. 3, Section 6.

The Government of India have intimated that the number of nominations of Natives of India to offices ordinarily held by members of the Covenanted Civil Service, to be made for 1888 in virtue of the rules framed under Statute 33 Vic., Cap. 3, Section 6, will probable be two for Bengal, and that the Governor-General in Council will be glad to receive, in due course, the names of three selected candidates for each of the said appointments arranged in order of merit.

2. The Government of India have allowed the Government of Bengal to choose its candidates in any manner that may appear to it desirable, special regard being paid (in the case of candidates whose merits and abilities have not been already proved by employment in the public service) to educational attainments and proficiency. It is left open to this Government to select candidates from the Uncovenanted Service or the learned professions, to institute a test of limited competition among nominated candidates, or to follow any other mode of selection that may be thought suitable.

3. The Lieutenant Governor has resolved to select, out of the whole number of applicants, twenty individuals for each appointment that is to be given, and to subject the selected persons to a competitive examination which will be held in January next on dates to be hereafter notified. The choice will be made from—

- Officers in the service of Government who have specially distinguished themselves.
- Persons who have taken the degree of B.A. at the Calcutta University, provided that such persons can produce certificates of their having a thoroughly practical knowledge of the English language, of their being physically fitted for the service of Government, of their moral character being good, and of their possessing active habits, including ability to ride.
- Persons of proved merit and ability in the practice of a learned profession.

No candidate who is not in the service of the Government, who has not been at least five years engaged in the practice of a learned profession, will be selected after he has attained the age of 25 years.

The candidates allowed to appear at the examination will hereafter be informed by the Committee mentioned in the following paragraph, of the place at which the examination will be held, and of any other circumstances necessary for their guidance.

4. For the purpose of conducting the proposed examination, a Committee will be appointed, consisting of the Director of Public Instruction, the Secretary to the Board of Revenue, and the Legal Remembrancer. The examination will extend over four days. On the first day an essay in English, on a subject to be prescribed hereafter, will be written by the candidates; on the second day a general paper of literary, historical, and philosophical questions will be set; on the third day there will be a general paper on mathematics and physical science; the subject of the fourth day's examination will be the Penal and Criminal Procedure Codes and Mr. Field's Introduction to the Bengal Regulations.

5. On the conclusion of the examination, the Lieutenant-Governor will forward, with his recommendation, the names, in order of merit of the first six successful applicants. From them two will be selected by the Government of India.

6. Applications, which must be accompanied by the certificates above mentioned, and, when necessary, by certificates of age, should be made to the Under-Secretary in the Appointment Department by the 15th December next, after which date no applications will be received.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

*Offy. Chief Secy. to the Government of Bengal.*

### EXAMINATION OF CANDIDATES FOR ADMISSION INTO THE OPIUM DEPARTMENT.

Dated Calcutta, the 15th November 1887.

**NOTIFICATION**—By the Government of Bengal, Appointment Department.

In pursuance of the decision contained in this Government's Resolution, dated the 14th July 1884, it is hereby declared that a competitive examination for two appointments in the Opium Department will be held early in 1888. At this examination only such European and Eurasian candidates as have been nominated by His Honour the Lieutenant-Governor will be permitted to present themselves, and it must be clearly understood by intending competitors that those who may be declared successful will not, as far as can be at present foreseen, obtain permanent appointments for some time to come, and can only expect to act in such temporary and officiating vacancies as may from time to time occur in the service. One-fourth of the appointments in the Opium Department is reserved exclusively for "Natives of India" of unmixed descent; but as it has been decided to make these by selection, they are not affected by the rules now issued.

2. A certificate of health and fitness by a covenanted medical officer in the form appended to this notification will be required from each candidate, who should also furnish a copy of his baptismal certificate, in the absence of which sufficient evidence as to age should be forwarded with the application for admission to the examination. No one whose age on the 15th January 1888 exceeds 25 years will be permitted to appear.

3. Applications, accompanied by the necessary certificate and a fee of Rs. 10, must be sent not later than the 15th December next to the Under-Secretary in the Appointment Department.

4. The time and place of examination will be notified to such candidates as are allowed to present themselves at the competition.

5. The examination will be by written questions and answers, and the subject will be as follows:—

**FIRST DAY.**

**Morning.**

A short essay on some easy every day subject to be selected by the Examiners and declared at the time of the examination.

Time allowed—2½ hours.

**SANITATION.**—*The 15th November 1887.*—Assistant Surgeon Kally Prosunno Ghosal, Deputy Sanitary Commissioner, Sonthal Pergunnah Circle, is allowed leave for six months, under section 128, chapter X of the Civil Leave Code, with effect from the date on which he may avail himself of it.

*Reported Floating Wreck.*

With reference to Notice to Mariners No. 62 of 18th October 1887, the French Mail Steamer *Tigre* reports that on the 16th October at 11-30 P.M., when in latitude 16° 27' N., longitude 86° 35' E. (or about 90 miles south of the assigned position of the wreck), she felt a shock as if the vessel had struck on a sand-bank. At the same time a large number of fish were observed surrounding the ship.

As this may have been the wreck in question, ships passing near this spot should keep a good look-out.

## BEHAR CIRCLE.

## ENTRANCE EXAMINATION, 1888.

THE attention of those who wish to appear at the Entrance Examination of 1888, as teachers or as private students, is called to the following :—

I. By "teacher" is meant one who has been employed as such since 1st January 1887, and is a *bona fide* teacher, in receipt of a salary at the time of the examination. Satisfactory evidence of this will be required of those who wish to appear as teachers for the Entrance, F. A., or B. A. examinations.

II. Private students will have to produce evidence that they have not read in any school since May 1887, and send, together with their application, a certificate from the head-master of the last school they read in showing that they have observed the Inter-school Rules.

III. Teachers and private students will have to appear at the test examination of the nearest zillah school and pay a fee of two rupees.

IV. The application forms, which must be signed by the undersigned, must be accompanied by a statement signed by the head-master showing that there is a reasonable probability of the applicant's passing.

V. No applications to be allowed to appear at the test examination will be received later than 31st December 1887 from either teachers or private students.

VI. Head-masters of the zillah schools are informed that the standard of marking for the test examination is to be just that of the University. If candidates, whether pupils of the school, teachers or private students, fail to pass in more than two subjects, or fail very badly in two, their marks must be submitted to the undersigned, to decide whether they shall be sent up or not. Care must be taken to submit the marks in time.

Director of Public Instruction.

Public (Educational).  
No. 89.

INDIA OFFICE,  
London, 28th July 1887.

His Excellency the Right Honourable the Governor-General of India in Council.

My Lord,—I transmit, for the information of your Excellency in Council, copy of letter addressed to me by His Royal Highness Prince Christian of Schleswig Holstein requesting that the attention of the Governors of Provinces in India may be called to the scope and objects of the Royal Holloway College. A copy of my reply is also forwarded, together with a copy of a further letter from the College on the subject.

8th June 1887.

29th June 1887.  
1st July 1887.

2. In accordance with the promise given in my letter to His Royal Highness, I request your Lordship to cause the accompanying packet to be forwarded to the Directors of Public Instruction to be dealt with in such manner as may be deemed to be expedient.

Sent by Book Post.

I have the honour to be,

My Lord,

Your Lordship's most obedient, humble Servant,

CROSS.

No. Jt.P. 1023, dated Holloway College, Mount Lee, Egham, 8th June 1887.

From—His Royal Highness the Prince Christian of Schleswig Holstein, K.G.,  
To—Her Majesty's Secretary of State for India, London.

As Chairman of the House Committee of Governors of this College, which is to open on the 4th October, I have been desired to ask if you would do them the favour to cause to be inserted in your Circulars to the Governors of Provinces a short paragraph inviting their intention to the scope and objects of the College, and to the benefits it will probably confer on many of our brethren in India who may wish to send their daughters for education here.

There are, to begin with, fifteen scholarships to be competed for in August or September, and these will be open to all; and judging by the numbers of applications for information received from abroad, it is evident that the advantages to be offered by the College will be sought for in many distant parts of the Empire, as well as in this country.

If it be in your power to comply with my request, the Secretary of the College will forward to the India Office a parcel of the Prospectuses, a few of which might accompany your Circulars to the Governors of Provinces. Advertisements would then be inserted by us in the papers circulating in those Provinces stating—if you would allow us to add this—that copies of the prospectus can be obtained by applying to the offices of the various Governors.

The Committee are very sensible of the great service which the India Office could render the College, as well as our kinsmen abroad, by allowing information to be disseminated in the manner I have ventured to suggest; and they will be very grateful for any assistance which it may be in your power to offer.

If one of your Under-Secretaries would be good enough to make an early appointment with our Secretary, Mr. J. L. Clifford Smith, he would call and receive instructions as to the wording of the advertisements and other necessary matters.

No. J & P. 1023-87, dated India Office, the 29th June 1887.

From—Her Majesty's Secretary of State India,

To—His Royal Highness Prince Christian of Schleswig Holstein, K.G., &c.,  
Holloway College, Mount Lee, Egham.

I HAVE the honour to acknowledge the receipt of Your Royal Highness' letter of the 8th instant, requesting that the attention of the Governors of Provinces in India may be called to the scope and objects of the Holloway College.

I shall have much pleasure in transmitting to the Governments of India, Madras and Bombay any copies of the Prospectus of the College which Your Royal Highness may send to me for the purpose. Those Governments will not be able to undertake the general distribution of the Prospectus; but I propose to suggest to them that the copies should be given to the Directors of Public Instruction in India to be used by them in such manner as in their discretion they shall think most likely to advance the objects which the Governors of the Holloway College have in view.

No. J. E. P. 1028, dated Egham, 1st July 1887.

From J. LA CARPENTIER SMITH, Esq., Secretary, Royal Holloway College,  
To—Her Majesty's Secretary of State for India.

I AM desired by His Royal Highness Prince Christian to acknowledge the receipt of your Lordship's courteous communication of the 29th ultimo, and to thank you on his behalf and on that of the Governors for your Lordship's kind offer to transmit to the Governments of India, Madras and Bombay copies of the Prospectus of this College.

His Royal Highness is very sensible of the value of this attention on the part of the India Office; and I am furthermore to express the Prince's sincere appreciation of your Lordship's proposal to suggest that those Governments should give the copies to the Directors of Public Instruction in India, to be used by them in such manner as in their discretion they may think most likely to advance the objects which the Governors of this College have in view.

I have to-day sent by passenger train a parcel containing some copies of the Prospectus and forms of entry, as also twelve copies of a description of the foundation and opening of the building.

### PRINCIPAL—Miss Bishop.

(At present Head Mistress of the Oxford High School.)

The College will open on Tuesday, October 4th, 1887.

The College Session will extend from the beginning of October to the beginning of July, and will be divided into three terms of about eleven weeks each, with about three weeks' vacation at Christmas and at Easter.

The Charge for Board, Lodging, and Tuition will be £80 a term, payable in advance. This charge will include all expenses except Laundress, special Medical Attendance, Fees for University Examinations, and individual lessons in Music Singing or Painting. Arrange-

ments will be made to allow Students whose circumstances require it necessary, and who obtain permission from the Principal, to reside in College during the vacations, under proper supervision, at a fixed weekly charge.

The Staff will consist of resident Women Tutors and Lecturers, and of visiting Professors and Lecturers, men and women, from London and elsewhere.

The principal subjects of instruction will be—Divinity, Classics, Mediæval and Modern Languages, Mathematics, Natural Science, History and Political Economy, Mental and Moral Science and Theory of Music.

The Curriculum will be so arranged as to prepare students for the London University Degrees, for the Oxford Honour Examinations, and for such other Examinations as the Governors may hereafter find desirable.

There will be yearly courses of instruction in Hygiene, Ambulance Work, Cookery and Needlework, as well as classes for Gymnastic Exercises, Drawing and Vocal Music, and special lessons in Painting, Instrumental Music and Solo Singing for students who desire them.

Students may select their course of study, subject to the approval of the Principal.

Those who do not wish to study for a University Examination will be admitted, provided they satisfy the Principal that they are *bona fide* Students, with some definite course in view.

No student may enter for less than one year, or reside for more than four years, without special permission from the Governors. The Principal may require the withdrawal of any student who is not profiting by the education of the College.

Candidates for admission must be over 17 years of age, must furnish to the Principal satisfactory references, and pass an Entrance Examination.

The following examinations will be accepted in place of the Entrance Examination:—

The London Matriculation.

The Oxford Women's First Examination.

The Higher Certificate Examination of the Oxford and Cambridge Board.

The Cambridge Higher Local Examination in any two of the groups A, B and C.

The various Senior Local Examinations of the Universities of England, Scotland, Ireland and the Colonies, provided two Languages, or one Language and Mathematics, are included in the pass.

And such other Examinations as the Governors may from time to time deem equivalent.

An Entrance Examination will be held, for the convenience of students, at Queen's College, 48, Harley Street, London, W., on Thursday and Friday, August 4th and 5th. If any students are unable to attend this Examination, they may be examined at the Royal Holloway College on Thursday and Friday, September 29th and 30. Forms of Entry may be obtained (with further information) from the Secretary, and must be returned to him filled up (if possible) not later than July 15th. The Examination will consist of:—

- (1.) Obligatory subjects, viz., Arithmetic, English Essay, and a paper of English History and General Geography.
- (2.) Optional subjects, of which not less than two nor more than four may be taken, one, at least, being a language, viz., Latin, Greek, French, German, Algebra, Geometry, Trigonometry.

Each student will have a bed-room and sitting-room to herself, and every provision has been made in the internal arrangements of the College for the health and comfort of its inmates. The building includes Chapel, Dining-hall, Library, Reading-room, Museum, and a Picture Gallery containing a valuable collection of modern British paintings. The grounds and gardens are extensive, and provided with Tennis Courts. There is also a Gymnasium.

No religious test will be imposed as a condition of admission. The domestic life of the College will be that of a Christian household, and Prayers will be said daily by the Principal. Provision will be made for the conduct of Divine Service in the Chapel on Sundays. Students will be allowed, under proper regulations, to attend the Services of any Religious denomination which their parents or guardians may desire.

The Founder has provided that in the third year from the opening of the College and in all future years, twelve Foundation Scholarships shall be awarded.

Fifteen Scholarships of £50 a year each, tenable for three years from the opening of the College, have been provided by the liberality of the following benefactors:—

MISS MARY ANN DRIVER (Stg.).

HENRY DRIVER-HOLLOWAY, Esq. (Two).

ANTHONY GIBB, Esq.,

WALFORD GREENWELL, Esq. (Two).

GEORGE MARTIN-HOLLOWAY, Esq. (Two).

BENJAMIN NEWASS, Esq.

HENRY TATE, Esq.

The Scholarships will be competed for at the Entrance Examination in August.

All enquiries, and applications for Forms of Entry, and for further information in regard to Scholarships, should be addressed in the first instance to the Secretary, Royal Holloway College.

### Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

### LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Monghyr, will be put up to sale at the Monghyr Collectorate on the 10th January 1888, corresponding with 12th Magh 1295. The purchasers of these estates will be subject to the following conditions of sale:—

#### Conditions of sale.

1. The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.
2. The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
3. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
4. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Monghyr Collectorate, the 1st August 1887.

H. MOSLEY, Collector.

**NOTICE** is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Dacca will be put up to sale at the Dacca Collectorate on the 19th January 1888, corresponding with 29th Poush 1294 B.S.

The purchasers will be subject to the following conditions of sale:—

1st.—The estates to be sold to the highest bidder above the upset price. The purchasers of these estates will be considered as the proprietors of these estates, and the entire proprietary right of Government in such estates will be transferred to them subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estates to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

JOHN ELIOT, M.A., Meteorological Reporter to the Govt. of Bengal.

CALCUTTA, the 26th August 1875.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 20 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 37 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e., from May 15th to November 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 44 observing stations, and of rainfall recorded at 245 sub-divisional stations together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

## NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

*Under-Secy. to the Govt. of Bengal.*

The 24th November 1886.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the Calcutta Gazette of the 9th July 1884:—

### The Indian Law Reports.

*Published under Authority.*

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India, not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1886, the terms of subscription and sale will be as follows:—

*Terms of subscription payable annually in advance.*

For the complete series, including postage, Rs. 22-8.

Without postage. With postage.

For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
" each of the Madras, Bombay, and Allahabad Series ...	6 0	7 0
" a part of the Calcutta Series purchased separately ( <i>inclusive of postage in India</i> ) .....		2 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately ( <i>inclusive of postage in India</i> ) ...		1 0

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.

" Thacker & Co., Bombay.

" Higginbotham & Co., Madras.

The Government Central Book Depot, Bombay.

" Curator of Government Books, North-Western Provinces and Oudh.

" Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1886 should be at once remitted.

## REVISED RULES FOR THE STATUTORY CIVIL SERVICE EXAMINATION.

## RESOLUTION.

## APPOINTMENT.

*Dated Calcutta, the 22nd November 1887.*

## READ—

Letter from the Secretary to the Government of India, Home Department, No. 2442, dated the 20th October 1887, calling for the submission, in due course, of the names of candidates for appointment under the Rules framed under 33 Vic., Cap. 3, Section 6.

The Government of India have intimated that the number of nominations of Natives of India to offices ordinarily held by members of the Covenanted Civil Service, to be made for 1888 in virtue of the rules framed under Statute 33 Vic., Cap. 3, Section 6, will probably be two for Bengal, and that the Governor-General in Council will be glad to receive, in due course, the names of three selected candidates for each of the said appointments arranged in order of merit.

2. The Government of India have allowed the Government of Bengal to choose its candidates in any manner that may appear to it desirable, special regard being paid (in the case of candidates whose merits and abilities have not been already proved by employment in the public service) to educational attainments and proficiency. It is left open to this Government to select candidates from the Uncovenanted Service or the learned professions, to institute a test of limited competition among nominated candidates, or to follow any other mode of selection that may be thought suitable.

3. The Lieutenant-Governor has resolved to select, out of the whole number of applicants, twenty individuals for each appointment that is to be given, and to subject the selected persons to a competitive examination which will be held in January next on dates to be hereafter notified. The choice will be made from—

- (a) Officers in the service of Government who have specially distinguished themselves.
- (b) Persons who have taken the degree of B.A. at the Calcutta University, provided that such persons can produce certificates of their having a thoroughly practical knowledge of the English language, of their being physically fitted for the service of Government, of their moral character being good, and of their possessing active habits, including ability to ride.
- (c) Persons of proved merit and ability in the practice of a learned profession.

No candidate who is not in the service of the Government, or who has not been at least five years engaged in the practice of a learned profession, will be selected after he has attained the age of 25 years.

The candidates allowed to appear at the examination will hereafter be informed by the Committee mentioned in the following paragraph of the place at which the examination will be held, and of any other circumstances necessary for their guidance.

4. For the purpose of conducting the proposed examination, a Committee will be appointed, consisting of the Director of Public Instruction, the Secretary to the Board of Revenue, and the Legal Remembrancer. The examination will extend over four days. On the first day an essay in English, on a subject to be prescribed hereafter, will be written by the candidates; on the second day a general paper of literary, historical, and philosophical questions will be set; on the third day a choice will be offered between (a) a general paper of mathematics and physical science, and (b) a paper on Sanskrit, Arabic, Persian, or Latin; and the subject of the fourth day's examination will be Law, and candidates may select either (a) the Penal Code, the Criminal Procedure Code, and Mr. Field's Introduction to the Bengal Regulations; or (b) Macnaghten's Principles of Hindu and Muhammedan Law, the Civil Procedure Code, the Transfer of Property Act, Act IX of 1872, Act I of 1877, Act III of 1877, Act X of 1865, Act XXI of 1870, Act V of 1881, and Act XXVII of 1860.

5. On the conclusion of the examination, the Lieutenant-Governor will forward, with his recommendation, the names in order of merit of the first six successful applicants. From them two will be selected by the Government of India.

6. Applications, which must be accompanied by the certificates above mentioned, and, when necessary, by certificates of age, should be made to the Under-Secretary in the Appointment Department by the 15th December next, after which date no applications will be received.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

*Chief Secy. to the Government of Bengal.*

## ENTRANCE EXAMINATION, 1888.

THE attention of those who wish to appear at the Entrance Examination of 1888, as teachers or as private students, is called to the following:—

I. By "teacher" is meant, one who has been employed as such since 1st January 1887, and is a *bond fide* teacher, in receipt of a salary at the time of the examination. Satisfactory evidence of this will be required of those who wish to appear as teachers for the Entrance, F. A., or B. A. examinations.

II. Private students will have to produce evidence that they have not read in any school since May 1887, and send, together with their application, a certificate from the head-master of the last school they read in showing that they have observed the Inter-school Rules.

III. Teachers and private students will have to appear at the test examination of the nearest zillah school and pay a fee of two rupees.

IV. The application forms, when sent for the signature of the undersigned, must be accompanied by a statement signed by the head-master showing that there is a reasonable probability of the applicant's passing.

V. No applications to be allowed to appear at the test examination will be received later than 31st December 1887 from either teachers or private students.

VI. Head-masters of the zillah schools are informed that the standard of marking for the test examination is to be just that of the University. If candidates, whether pupils of the school, teachers or private students, fail to pass in more than two subjects, or fail very badly in two, their marks must be submitted to the undersigned, to decide whether they shall be sent up or not. Care must be taken to submit the marks in time.

No. Jt.P. 1023, dated Holloway College, Mount Lee, Egham, 8th June 1887.

From—HIS ROYAL HIGHNESS THE PRINCE CHRISTIAN OF SCHLESWIG HOLSTEIN, K.G.,  
To—Her Majesty's Secretary of State for India, London.

As Chairman of the House Committee of Governors of this College, which is to open on the 4th October, I have been desired to ask if you would do them the favour to cause to be inserted in your Circulars to the Governors of Provinces a short paragraph inviting their intention to the scope and objects of the College, and to the benefits it will probably confer on many of our brethren in India who may wish to send their daughters for education here.

There are, to begin with, fifteen scholarships to be competed for in August or September, and these will be open to all; and judging by the numbers of applications for information received from abroad, it is evident that the advantages to be offered by the College will be sought for in many distant parts of the Empire, as well as in this country.

If it be in your power to comply with my request, the Secretary of the College will forward to the India Office a parcel of the Prospectuses, a few of which might accompany your Circulars to the Governors of Provinces. Advertisements would then be inserted by us in the papers circulating in those Provinces stating—if you would allow us to add this—that copies of the prospectus can be obtained by applying to the offices of the various Governors.

The Committee are very sensible of the great service which the India Office could render the College, as well as our kinsmen abroad, by allowing information to be disseminated in the manner I have ventured to suggest; and they will be very grateful for any assistance which it may be in your power to offer.

If one of your Under Secretaries would be good enough to make an early appointment with our Secretary, Mr. J. L. Clifford Smith, he would call and receive instructions as to the wording of the advertisements and other necessary matters.

No. J & P. 1023-87, dated India Office, the 29th June 1887.

From—Her Majesty's Secretary of State India,

To—HIS ROYAL HIGHNESS PRINCE CHRISTIAN OF SCHLESWIG HOLSTEIN, K.G., &c.,  
Holloway College, Mount Lee, Egham.

I HAVE the honour to acknowledge the receipt of Your Royal Highness' letter of the 8th instant, requesting that the attention of the Governors of Provinces in India may be called to the scope and objects of the Holloway College.

I shall have much pleasure in transmitting to the Governments of India, Madras and Bombay any copies of the Prospectus of the College which Your Royal Highness may send to me for the purpose. Those Governments will not be able to undertake the general distribution of the Prospectus; but I propose to suggest to them that the copies should be given to the Directors of Public Instruction in India to be used by them in such manner as in their discretion they shall think most likely to advance the objects which the Governors of the Holloway College have in view.

No. J & P. 1023, dated Egham, 1st July 1887.

From J. L. CLIFFORD SMITH, Esq., Secretary, Royal Holloway College,  
To—Her Majesty's Secretary of State for India.

I AM desired by His Royal Highness Prince Christian to acknowledge the receipt of your Lordship's courteous communication of the 29th ultimo, and to thank you on his behalf and on that of the Governors for your Lordship's kind offer to transmit to the Governments of India, Madras and Bombay copies of the Prospectus of this College.

His Royal Highness is very sensible of the value of this attention on the part of the India Office; and I am furthermore to express the Prince's sincere appreciation of your Lordship's proposal to suggest that those Governments should give the copies to the Directors of Public Instruction in India, to be used by them in such manner as in their discretion they may think most likely to advance the objects which the Governors of this College have in view.

I have to-day sent by passenger train a parcel containing some copies of the Prospectus and forms of entry, as also twelve copies of a description of the foundation and opening of the building.

(*At present Head Mistress of the Oxford High School.*)

THE College will open on Tuesday, October 4th, 1887.

The College Session will extend from the beginning of October to the beginning of July, and will be divided into three terms of about eleven weeks each, with about three weeks' vacation at Christmas and at Easter.

The Charge for Board, Lodging, and Tuition will be £30 a term, payable in advance. This charge will include all expenses except Laundress, special Medical Attendance, Fees for University Examinations, and individual lessons in Music Singing or Painting. Arrange-

ments will be made to allow Students whose circumstances render it necessary, and who obtain permission from the Principal, to reside in College during the vacations, under proper supervision, at a fixed weekly charge.

The Staff will consist of resident Women Tutors and Lecturers, and of visiting Professors and Lecturers, men and women, from London and elsewhere.

The principal subjects of instruction will be—Divinity, Classics, Mediæval and Modern Languages, Mathematics, Natural Science, History and Political Economy, Mental and Moral Science and Theory of Music.

The Curriculum will be so arranged as to prepare students for the London University Degrees, for the Oxford Honour Examinations, and for such other Examinations as the Governors may hereafter find desirable.

There will be yearly courses of instruction in Hygiene, Ambulance Work, Cookery and Needlework, as well as classes for Gymnastic Exercises, Drawing and Vocal Music, and special lessons in Painting, Instrumental Music and Solo Singing for students who desire them.

Students may select their course of study, subject to the approval of the Principal.

Those who do not wish to study for a University Examination will be admitted, provided they satisfy the Principal that they are *bond fide* Students, with some definite course in view.

No student may enter for less than one year, or reside for more than four years, without special permission from the Governors. The Principal may require the withdrawal of any student who is not profiting by the education of the College.

Candidates for admission must be over 17 years of age, must furnish to the Principal satisfactory references, and pass an Entrance Examination.

The following examinations will be accepted in place of the Entrance Examination :—

The London Matriculation.

The Oxford Women's First Examination.

The Higher Certificate Examination of the Oxford and Cambridge Board.

The Cambridge Higher Local Examination in any two of the groups A, B and C.

The various Senior Local Examinations of the Universities of England, Scotland, Ireland and the Colonies, provided two Languages, or one Language and Mathematics, are included in the pass.

And such other Examinations as the Governors may from time to time deem equivalent.

An Entrance Examination will be held, for the convenience of students, at Queen's College, 43, Hatley Street, London, W., on Thursday and Friday, August 4th and 5th. If any students are unable to attend this Examination, they may be examined at the Royal Holloway College on Thursday and Friday, September 29th and 30. Forms of Entry may be obtained (with further information) from the Secretary, and must be returned to him filled up (if possible) not later than July 15th. The Examination will consist of :—

- (1.) Obligatory subjects, viz., Arithmetic, English Essay, and a paper of English History and General Geography.
- (2.) Optional subjects, of which not less than two nor more than four may be taken, one, at least, being a language, viz., Latin, Greek, French, German, Algebra, Geometry, Trigonometry.

Each student will have a bed-room and sitting-room to herself, and every provision has been made in the internal arrangements of the College for the health and comfort of its inmates. The building includes Chapel, Dining-hall, Library, Reading-room, Museum, and a Picture Gallery containing a valuable collection of modern British paintings. The grounds and gardens are extensive, and provided with Tennis Courts. There is also a Gymnasium.

No religious test will be imposed as a condition of admission. The domestic life of the College will be that of a Christian household, and Prayers will be said daily by the Principal. Provision will be made for the conduct of Divine Service in the Chapel on Sundays. Students will be allowed, under proper regulations, to attend the Services of any Religious denomination which their parents or guardians may desire.

The Founder has provided that in the third year from the opening of the College and in all future years, twelve Foundation Scholarships shall be awarded.

Fifteen Scholarships of £50 a year each, tenable for three years from the opening of the College, have been provided by the liberality of the following benefactors :—

MISS MARY ANN DRIVER (*Sir*).  
 HENRY DRIVER-HOLLOWAY, Esq. (*Two*).  
 ANTONY GIBE, Esq.,  
 WALPORE GREENWELL, Esq. (*Two*).  
 GEORGE MARTIN-HOLLOWAY, Esq. (*Two*).  
 BENJAMIN NEWGASS, Esq.  
 HENRY TATE, Esq.

The Scholarships will be competed for at the Entrance Examination in August.

All enquiries, and applications for Forms of Entry, and for further information in regard to Scholarships, should be addressed in the first instance to the Secretary, Royal Holloway College.

##### DISTRICT ROAD FUND.

NOTIFICATION No. 365.

*The 22nd, November 1887.*

THE following annual accounts and reports of the Road Cess Committees of the districts of Dinagpore, Bogra, Rungpore, Julpigoree and Darjeeling for the half-year ending 31st March 1887, together with the remarks thereon of the Commissioner of the Rajshahye Division, are published for general information.

• W. B. BERTIC,

*Under-Secy. to the Govt. of Bengal, P. W. Dept.*

No. 146R.W., dated Dinagpore, the 5th July 1887.

From—C. R. MARINDIN, Esq., Chairman of the District Board, Dinagpore,  
To—The Commissioner of the Rajshahye Division.

IN accordance with the instructions conveyed in your letter No. 44Cir.Met., dated 2nd May 1887, I have the honour to submit my Annual Report on the administration of the late District Road Cess Committee of this district, for the cess year ending on the 31st March 1887, together with the detailed accounts of receipts and expenditure.

2. *Working of the Committee.*—During the half-year under report there were eight meetings of which three were special and five ordinary. Six of these meetings were presided over by the Chairman and two by the Vice-Chairman. The average attendance of the members was not good, being 4.62 against 4.16 of the corresponding period of the preceding year. It will be observed that the attendance of the mofussil members was, as heretofore, not satisfactory. The mofussil members were conspicuous by their absence, and with the exception of Babu Durga Das Bagchi, did not attend a single meeting. This is especially to be regretted, as the town members who attend, though ready enough to assist in the disposal of business, are necessarily without much knowledge of the requirements of the interior of the district, and unable on that account to give advice upon many questions of local importance.

3. There was no meeting without a quorum. Mr. K. G. Gupta was Chairman from 1st to 27th October 1886, Mr. H. S. Beadon, from 28th October 1886 to 6th February 1887, and myself for the remainder of the half-year.

4. *Working of the Cess Act.*—A report on the working of the Collection Department has been separately submitted to you by the Collector of the district, and so it is needless to give any further details on the subject in this report. The result of the collection was, on the whole, 75.1 on the demand.

5. *Inspection of Offices.*—The accounts of both the offices, namely, of the Committee's office and that of the District Engineer, were monthly scrutinized and audited by a standing Sub-Committee, consisting of the Vice-Chairman and two of the members. The Local Auditor has also inspected the office on the 10th December last.

6. *Original Works.*—The following were the original works taken in hand during the half-year under review :—

- (1). *No. 1, Darjeeling road*—A temporary bridge over the nulla called Ram Dara on the 35th mile of the road was undertaken, but no progress has yet been made beyond the collection of materials. The bridge will be constructed during the course of the current year. It was under contemplation before to throw an embankment on this nulla, and accordingly Rs. 600 was provided for in the budget estimate for the purpose, but as it was afterwards apprehended that this embankment would cost considerably more than the original estimate, and seeing that the surrounding lands are subject to inundation, the proposal was abandoned, and Rs. 880 was sanctioned for a bridge; and with a view to make provision for the excess amount, the reconstruction of Prannagar bungalow, for which Rs. 400 was budgetted for, was postponed for another year.
- (2). *No. 7, Gangarampore road.*—One permanent masonry and timber bridge of three spans of 20 feet over the Champatoli stream has been completed and opened for traffic.
- (3). *No. 14, Ghoraghat to Hilli Road*—It is a feeder road from Hilli on the Northern Bengal State Railway to Ghoraghat, and is the most important in point of cost. A complete survey for the road was undertaken in December last and completed at the close of the half-year. The estimate is in course of preparation, and will be submitted for approval as soon as it is ready. It was intended to manufacture bricks departmentally under the Bull's kiln system, and accordingly arrangement was made for the purpose, but the work could not be carried out for want of workmen. The work will be undertaken during the next cold weather season. A contribution of Rs. 8,000 was promised by the late District Road Cess Committee of Rungpore for the construction of this road, as a portion of it lies in that district.
- (4). *No. 15, Mohadebpore to Sultanpore road.*—The work, as noticed in my report for the previous year, is under progress, and, I hope, will be completed during the current year.

7. *Repairs*—All the roads borne in our list have been maintained and repaired as far as our limited funds permitted. The works undertaken during the year chiefly consisted of surface repairs, filling in gaps, &c. A good deal of filling in of ruts caused by cart traffic had to be done, and the bridges were taken care of.

8. An unusually heavy rain last year, causing damages to several roads and bridges, supplementary estimates were submitted by the District Engineer for their repairs, and they were duly sanctioned by the Committee. The necessary repairs to these flood damages were executed during the half-year under report.

9. It is to be observed that, with a large mileage aggregating about 1,200 miles, and the comparatively small funds at our disposal, it is impossible to keep every road in fair order.

10. At their final meeting the Committee passed the two following resolutions for the guidance of the District Board about to succeed them :—

- (4). "As this is the last meeting of the District Road Cess Committee, the Committee wish to place on record their conviction that the best policy to be followed out in future for the good of the district is to push on the construction of permanent bridges and abandon the repairs and re-construction of bamboo temporary bridges whenever this can be done with due regard to the keeping open of necessary communication during the rains.
- (5). "The Committee are aware that this policy is no new idea, but they think it might be pushed further than is done at present. Hitherto it has been the practice to almost invariably repair a bamboo bridge when it has fallen down. The Committee are convinced that in some cases it might be found feasible to keep the gap open and maintain communications during rains by boat until a permanent bridge can be afforded. Thus they think that the case of every bamboo bridge should be considered on its merits before one is repaired or re-constructed. They are also of opinion that until the district is provided with permanent bridges, the budget for repairs should be cut down to the lowest limit possible.
- (6). "Another matter to which the Committee would call attention for the information of the Board which will succeed them, is the advantages which the district will gain by permanently bridged roads in connection with the railway, and the desirability of enlisting Government support and assistance to projects in this direction."

11. The question is no doubt a difficult one. On the one hand bamboo bridges are unsatisfactory, and though erected at a comparatively small initial cost, they constantly require renewal, and are liable to break down during the rainy season just when they are most needed. During the last month of heavy rains and floods these bamboo bridges have been breaking down all over the district, thereby rendering communication difficult or impossible. Ultimately they prove a source of wasteful expenditure to the Committee, as

large sums have to be appropriated annually for their renewal and repair. On the other hand, the number of roads in the district is so great that it will be a work of years to replace all the present temporary bridges by permanent ones, and no doubt while the district is in a transition state between temporarily and permanently bridged roads, cases of inconvenience will be felt and complaints will probably be made. At the same time, I am convinced that the Committee have in the resolution quoted above, indicated the proper policy to pursue. It may not be practicable to abstain from renewing every bamboo bridge, but the requirements of each case should be separately considered, and if the gap can be left open without much inconvenience to the public, it should be left so until funds permit of the erection of a permanent bridge.

12. During the rains there is not much cart traffic, and it may often be possible to provide a boat to ferry people and even carts across the gaps, and during the cold and dry season the gaps will be fordable, and by sloping down the approaches can be passed by cart and carriage traffic without much difficulty. When the drainage permits of the use of pipe culverts, the gaps can be filled in altogether. In some places it may be possible to make Irish bridges or causeways, and the District Engineer has been asked to report on this suggestion.

13. By proceeding in this way the Board will have every year more money saved from repairs and temporary constructions to apply to the erection of permanent bridges, and in course of time, if this policy is patiently pursued, will succeed in effecting the desired improvement in their communication. Considering the benefit of the railway to the district, and how much of it will be lost until feeder roads in all directions are properly raised and bridged, and produce can be brought safely and expeditiously to the different railway stations from the interior, it is to be hoped that Government may see their way to assist the Board with funds to make such improvements, and considering the value of the traffic to the railway, the question of giving some help to the Board is, I submit, well worth consideration.

14. Difficulty is still felt in getting labourers and piece-workers. The local labourers being mostly of agricultural class, are always reluctant to do road works, especially during sowing and reaping seasons. The few labourers who come from Behar and other up-country districts are the only people to be had for such works. In some cases the works have been executed by contract, and the sums advanced to contractors have been adjusted with a few exceptions.

15. *Village roads.*—The allotment under this head could not be fully utilized. Out of Rs. 4,000, only Rs. 86 were spent during the year. Applications for village roads were received, and in some cases they were attended to. In one case a small contribution was received from villagers for the construction of a road to their village from a main line. These works were generally executed by the District Staff. Under the orders of the Committee, a list of village roads has been prepared, and allotments were made to as many as funds permitted for use during the current year. A sum of Rs. 3,670 was allotted among 18 roads.

16. *Removal of obstruction to drainage*—Rupees 500 were budgetted for under this head, but the allotment could not be worked up to.

17. *Arboriculture.*—No new trees were planted during the year under report, but those planted before were properly maintained, and in many cases fenced in with bamboo enclosures. Rupees 142-6 were spent on account of charges of establishment entertained, as well as other miscellaneous expenditure incurred for maintenance of the trees.

18. The system of planting trees on contract, noticed in the report of the last year, did not prove a success as expected. Some other measures will have to be adopted.

19. The district works were inspected by Mr. T. Beatty, the Divisional Superintendent of District Works, during the months of January, February and March 1887. He also inspected the office of the District Engineer.

20. *Establishment.*—There was formerly one Accountant in charge of the accounts of the Committee's office, and of the District Engineer's; but as this system was found objectionable by the Examiner of Local Accounts, the offices have been separated. This separation has worked well.

21. There was no change in the Subordinate Engineering staff, which consists of one Overseer and six Sub-Overseers.

22. The establishment attached to the Chairman's office consists of one Accountant and a peon. Kumar Girindra Narain Deb, Officiating Joint-Magistrate, having been transferred in the latter part of December last, the office of Vice-Chairman was held by Mr. H. Thompson to the end of the year.

23. The office establishment has worked well, and the Officiating Head Clerk and Accountant, Jadu Nath Nundi is a hard-working and pains-taking officer. Baboo Ram Nath Bhattacharjee was District Engineer throughout the year. He has an intimate knowledge of the district, and is energetic and hard-working. He will prove a most useful officer to the Board. He reports that the subordinates of his department have worked satisfactorily.

24. The annual accounts were examined by the standing Finance Committee, and passed by the District Board at a meeting held on the 30th June 1887.

SITAKANT MOOKERJEE,

*Vice-Chairman.*

*Explanatory memorandum to accompany the accounts for the half of the cess year 1886-87 taken as one year—vide Commissioner's Circular No. 44Mct., dated 2nd May 1887.*

#### RECEIPTS.

Nos. 1 to 5.—These represent the collection for the half-year only, hence the decrease.

#### EXPENDITURE.

##### *Original Works.*

Nos. 1, 4 and 6.—These works were not undertaken, hence nothing was spent.

Nos. 2, 8 and 5.—These works were thought unnecessary, therefore abandoned.

##### *Repairs.*

Nos. 1 to 17.—These works were not undertaken, and nothing was spent.

SITAKANT MOOKERJEE,

*Vice-Chairman.*

No. 180, dated Bogra, the 15th August 1887.

From—J. J. LIVESAY, Esq., Chairman, District Board, Bogra,

To—The Commissioner of the Rajshahye Division.

I HAVE the honour to submit the accounts of income and expenditure of the District Road Fund for the six months from 1st October 1886 to 31st March 1887.

2. The Cess Act worked very smoothly. The people fully appreciate the purposes for which the road cess is levied. To prove this assertion, I beg only to state that numerous applications are every year received from the inhabitants of several villages to improve the condition of their respective village roads. Moreover, the number of carts has of late greatly increased owing to the improved condition of the district roads. The cess collection during the half-year was Rs. 20,292 against the gross half-yearly demand of Rs. 21,765, or 93·2 per cent.

\* \* \* \* \*

4. Under the head of "Original Works" nothing was done that deserves particular comment. At the end of March the Committee received the contribution of Rs. 3,500 from Government for the construction of the Panchbibi-Kamdya Feeder road. The work was promptly taken in hand, and the road is under construction.

5. All the roads in the district received attention, and in order to keep them open for traffic throughout the year, necessary repairs were made. The roads were in general, in satisfactory order during the half-year.

6. A sum of Rs. 1,284 was advanced to private agencies for the construction and repairs of the village communications, besides Rs. 88-4 spent on village roads by the Department itself.

7. No new trees were planted during the half-year under report, it not being the proper season for such work. The old trees are doing all well, and all carefully looked after.

8. During the half-year under review the office was not inspected by the Examiner of Local Accounts or by his Assistants.

9. The accounts of the Committee were audited and passed monthly by the standing Sub-Committee consisting of the Vice-Chairman and two other Members of the Committee.

10. The establishment under the Committee continued to work satisfactorily.

## No. 6.—Part II.

## BOGRA DISTRICT ROAD FUND.

*An explanatory note to accompany the above accounts.***RECEIPTS.**

The sum of Rs. 879-15 is a part contribution from the Jeypore Khas Mehal for the construction of the Panchbibi-Kandia road, vide the Magistrate's No. 906J, dated 15th October 1886, to the address of the Commissioner.

**EXPENDITURE.**

*Establishment and contingencies of the office of collection.*—Rs. 134-4-8 being the balance of outstanding advance on the 31st March 1887, on account of costs of court-fee stamps advanced by the Road Cess Committee for serving notices and executing certificate-decrees for the realization of arrears of cesses, was adjusted, under the instructions of the Accountant-General, Bengal, vide his No. 971L.F., dated 25th March 1887, by debiting to "Provincial rates, establishment and contingencies of the office of collection," and crediting to "Advances."

*Original works.*—The plan and estimate for the construction of the bridge over Jubana have not as yet been prepared. Hence no expenditure was made under this head.

The estimate for the construction of the Sultanpore bungalow was sanctioned by Government in their No. 460C., dated 12th March 1887, communicated with the Commissioner's No. 243P.W., dated 21st March 1887. Hence nothing was expended on this work.

The estimates for the construction of a 60 feet bridge on the Shariakandi road and Panchbibi-Kamdia road were sanctioned by the Commissioner in his Nos. 214P.W., dated 10th February 1887, and 235P.W., dated 14th March 1887, respectively.

The total outlay to end of 31st March 1887 on the Gohail-Durgapore road includes the cost of land, namely, Rs. 4,560-9-3, vide this office No. 75R.F., dated 19th January 1887, paragraph 2, to the address of the Commissioner.

*Repairs.*—The roads Nos. 8, 9, 10, 12, 17, 20 and 30 are in good order. No repairs were necessary during the period under report. The above remark will also apply to the repairs of the Dubchahia bungalow and palkee-bearers' hut at Dubchahia. The following transfers, being of urgent nature, were made under the sanction of the Committee from the saving of other works.

J. J. LIVESAY,  
Chairman.

No. 196, dated Rungpur, the 10th June 1887.

From—F. R. S. Collier, Esq., c.s., Collector, Rungpur,  
To—The Commissioner of the Rajshahye Division.

In accordance with the instructions conveyed in your letter No. 4, Cir., dated 2nd ultimo, I have the honour to submit herewith in duplicate a detailed account of receipts and expenditure of the Rungpur District Road Fund for the six months from 1st October 1886 to 31st March 1887, together with the following brief report on the works of local improvement that were undertaken during that period.

2. *Audit of Accounts.*—The half-yearly accounts now submitted have not been audited by the standing Sub-Committee of audit as the latter body ceased to exist from the 1st April last, consequent on the introduction of the Local Self Government Scheme on that date, but up to that date, however, the Sub-Committee of audit held monthly meetings to audit the accounts previous to their submission to the Accountant-General in accordance with the standing orders of Government, and the result of their audit was satisfactory.

3. *Assessment and Collections.*—The current demand for the six months on account of the cess on lands was Rs. 65,106 and the arrear demand from last year Rs. 6,731, making a gross demand of Rs. 71,837 for realization. A sum of Rs. 53,179 was realized during the half-year leaving a balance of Rs. 18,658 uncollected at the end of the half-year. A detailed report on this head has already been submitted by me.

4. *Working of the Cess Act.*—The people seem now to have become quite reconciled to the levy of the cess, and the majority of them appear to appreciate the benefit it confers by the improvement of district and village communications.

5. *Working of the District and Branch Committees.*—During the half-year under report, five meetings were held by the Sudder Committee, at each of which there was an quorum. The members evinced great interest in all matters brought before them for discussion. There are three branch Committees, one at Gyebanda, one at Kurigram and the other at Nelphamari. Copies of the proceedings of each of the three Branch Committees were regularly received by the District or Sudder Committee. The principal business of the Branch Committees in this district is simply to distribute the funds allotted to them by the District Committee for village roads, and the Chairman of each Branch Committee personally inspects the results obtained during his winter tour. \* \* \*

6. *Working of the Audit Committee.*—The Audit Committee appointed under section 174 of the Cess Act to audit the monthly accounts did not, as reported in previous years, work well, as the monthly accounts had to be examined in almost all cases by the Vice-Chairman alone. The chief difficulty in procuring the attendance of members to sit on the Audit Committee, lies in the fact that the accounts are kept in English and only two of the non-official members are even tolerably acquainted with that language.

7. *Inspection of accounts.*—The accounts of the Committee's office were professionally examined by a Local Auditor in June last, and the result as reported last year was satisfactory. The accounts for the half-year now submitted have not as yet been professionally examined, but they are believed to be in fair order.

8. *How the different establishments worked during the year.*—As I have only lately joined the district I am not in a position to give my opinion on this head. From the annual Report of the cess year 1885-86, so recently submitted by my predecessor, it will be seen that the different establishments employed in the collection of the cess, in the administration of the funds, and in the execution of works have worked satisfactorily.

9. *Original Works.*—A sum of Rs. 15,936 was spent on original works, chiefly in the construction of masonry bridges and culverts on the most important lines of district communications.

10. *Repairs.*—A sum of Rs. 22,595 was spent on repairs: this sum has sufficed to maintain the district thoroughfares in fair order.

11. *Village roads.*—A sum of Rs. 6 000 was allotted for the construction and improvement of village roads, of which only Rs. 2,668 have been expended during the six months. Some money has been advanced to certain respectable gentlemen and to members of the Road Cess Committee for the improvement of village roads, but their accounts have not as yet been received in this office. Several numerous signed applications have been received for the repair of old village roads and the construction of new ones. The funds at the disposal of the Committee are limited, and are quite insufficient to satisfy the wants of the people in this direction. There are many excellent village roads in this district which have never been properly surveyed. Several now fallen into disrepair could be brought into good working order at a small cost. It was proposed to the Committee that a survey should be held of these village roads with this object. This subject will be brought to the early notice of the District Board.

12. *Arboriculture.*—A sum of Rs. 526 was spent during the six months under report for the maintenance of trees planted in previous years on the important district roads. The trees are thriving and are regularly watered, protected, and carefully looked after by the subordinates in charge.

CHARLES H. ALLEN,  
Assistant Collector.

*Explanatory note on the half-yearly accounts for the cess year from 1st October 1886 to 31st March 1887.*

It will appear from the accounts that some of the original works have apparently exceeded the sanctioned estimate; but on a reference to the statement given below, it will be seen that the sanctioned estimates have not really been exceeded in many cases. The apparent excess is owing to the value of surplus materials at site of works which will be adjusted by transfer on the completion of the works.

(a) The accounts are being thoroughly sifted to find wherein the excess lies. A revised statement will be submitted.

No. 62D.B., dated Julpigoree, the 23rd August 1887.

From—C. J. O'DONNELL, Esq., Chairman of the District Board, Julpigoree,  
To—The Commissioner of the Rajshahye Division.

AGREEABLY to your letter No. 4 Cir.—Mot. of 2nd May last, I have the honour to submit herewith in duplicate the accounts of the late Julpigoree District Road Fund for the half-year ending 31st March 1887, and to report as follows.

2. *Committee.*—There were no Branch Committees in this district.

3. *Feeling of the people towards Road Cess.*—The tax is looked upon as a portion of the rent to be paid, and the only way in which any feeling on the subject has manifested itself has been an occasional complaint that the money levied locally is not all spent in the locality, or in other words that some localities are neglected in favour of others although paying an equal or greater amount of tax.

4. *State of roads.*—All the roads under the Road Cess Committee during the period under report were in fair traffic order. Government gave a grant-in-aid of Rs. 25,000 for the Dalimkote and other important roads in the tea districts which were much injured during the last rains. Owing to a great falling off in the labour supply this year as much could not be effected with this grant as was at first hoped, and not much of this was expended before the close of the year. The metalling of the portion south of the Chil river which passes through the Anulchand forest with shingle from the river bed was commenced. Other roads were maintained in passable order throughout the six months under report.

5. *Village Roads.*—A sum of Rs. 274 was spent on repairing the village roads. The repairs were executed by the Committee's establishment. No local influential persons undertook the execution of repairs to such roads. The state of the roads were fair during the period reported.

6. *Tree-Planting.*—No new trees were planted during the period under report. The existing young trees were properly nursed and fenced in.

7. *Work Establishment.*—The establishment on work consisted of one District Engineer, one Overseer, and two Sub-Overseers. They all worked satisfactorily and the District Engineer, is particularly deserving credit for his energy. He is a very smart officer, and never spares himself.

8. *Committee's Establishment.*—The establishment of the Committee consisted of one Accountant and Head Clerk and one assistant clerk. All gave satisfaction in the performance of their duties.

9. *Inspection of Office.*—During December last the office of the Committee was inspected by the Local Auditor under the Examiner of Local Accounts, Bengal, and the accounts for the month of October 1886 only were examined together with those for the year 1885-86.

10. *Audit of Accounts.*—The accounts of the Committee were audited and passed monthly by a Standing Sub-Committee consisting of the Chairman and three other members of the Committee. Accounts for six months ending 31st March 1887, were not passed by the Committee, owing to their abolition on the 1st April 1887.

11. *Work proposed to be done during the following year.*—The following were the principal works proposed to be undertaken during the current financial year:—

(a) Reconstruction of bridges, raising of embankment, and metalling a certain portion of the Julpigoree to Damdim road.

(b) Construction of the Koomlye bridge and raising certain portions of the embankment of the Kyranti to Bataigole road.

(c) Construction of the Koomlye bridge on the Julpigoree to Alipore road.

(d) Reconstruction of some bridges on the Central Emigration road.

(e) Raising a certain portion of the Myuagori to Nagracutta road.

(f) Construction of a portion of the new road from Patgram to Bairagirhat.

12. *Explanations.*—The only excess expenditure of Rs. 164-15 over the budget allotment on the Kyranti to Bataigole road is due to the repairs to the road necessitated by the late floods, and a revised estimate covering the expenditure was submitted to you for sanction. The amounts allotted to the roads Nos. 12, 14, 16, and 17 and to some of the village roads were expended since March 1887.

PRES NATH BANERJEE,  
Vice-Chairman.

No. 128, dated Darjeeling, the 27th May 1887.

From—A. W. PAUL, Esq., c.s., Deputy Commissioner and Chairman, District Road Cess Committee, Darjeeling.

To—The Commissioner of the Rajshahye Division.

With reference to your endorsement No. 82Cir.—M, dated 25th April 1887, forwarding for information and guidance, copy of a circular No. 7, dated 29th March 1887, from the Secretary to the Government of Bengal, Municipal Department, to your address, directing that in view of the difficulties represented by the Board of Revenue, Lower Provinces, arising from the want of uniformity in the cess year, it should be assimilated to the financial year, I have the honour to forward the half-yearly report and accounts of the District Road Fund, Darjeeling, for the year ending 31st March 1887, the last annual report and accounts for the cess year ending 30th September 1886, having been submitted with my predecessor's letter No. 56, dated 13th January 1887.

2. The balance at credit of the fund on 1st October 1886 was Rs. 19,040-9-9, and the receipts under the several heads during the half-year ending 31st March 1887, made up a total of Rs. 14,257-4-8. The total expenditure during this period was Rs. 10,641-5-11, leaving a balance of Rs. 22,656-8-6 available for the current year.

3. During the half-year under report, out of the current demand of Rs. 14,532, Rs. 791 were realized in advance during the previous year, and Rs. 13,696 collected to the end of 31st March 1887. Only Rs. 45 remained unrealized at the close of the past official year. A further sum of Rs. 91 (leaving out Rs. 1 on account of remission) on account of arrears outstanding at the close of the past cess year, plus Rs. 776 collected in advance, made up a total collection of Rs. 14,562. Of this amount Rs. 12,712-15-3 only were credited in

the Road Fund account owing to an error which crept into the treasury accounts, where, by a mistake, the balance of the collection was credited to Public Works cess. The necessary transfer and adjustment are, however, now being made.

4. The number of meetings of the District Committee held during the half-year ending 31st March 1887, was three. The average attendance was two out of eight officials, and four out of 14 non-official members. There was only one meeting of the Terai Branch Committee held at Silligoree.

5. The planter members, as heretofore, have rendered every possible assistance to the Committee in carrying out the expenditure of grants made to them for repairs to roads in the neighbourhood of their gardens.

6. With the exception of the addition of the road from Badamtom to Barnesbeg, there has been no alteration in the list of district roads mentioned in the last report.

7. The work of construction of the two suspension bridges over the Little Rungit and Kohel rivers at Poolbazar and Kohel has been started, and the masonry work is in a fair way of progress. The completion of the bridges is awaiting the receipt of the iron work ordered from Glasgow, which has been communicated by the Agents of Messrs. A. J. Main and Company, has since arrived in Calcutta, and arrangements are being made for bringing up the materials to the sites of the bridges in question. It is anticipated that both the bridges will be completed by the end of ensuing June.

The commencement of the suspension bridge over the Rongbong river at Surmah, which has been sanctioned by Government, is delayed pending the inspection of the site by the Superintending and Executive Engineers. The Superintending Engineer, Eastern Circle, who has been communicated with on the subject, will be up here shortly, when it is expected the bridge site will be inspected in company with the Executive Engineer, and after it has been inspected and approved of, work will be started.

The project for a similar bridge over the Balasun river at Namsu is still before the Government of Bengal.

8. Rupees 1,084-4-8 were spent on hill roads and Rs. 531-6-5 on the Terai roads, making-up a total of Rs. 1,615-11-1.

Besides the above, a further sum of Rs. 837-6-3 was spent on village roads in the Terai.

It may be here remarked that in the majority of cases, advances on account of half the grants for expenditure on repairs to roads made to the planting gentlemen have not been adjusted yet, owing to non-receipt of detailed accounts of expenditure, which, if received in time, would have increased the expenditure on roads.

9. The Cess Act worked smoothly during the half-year under review, the total collection being 100·2 against 101·7 of last year's report. The decrease in the rate of percentage, compared with that of the previous cess year, is slight and calls for no remarks.

10. The District Engineer has been invaluable, and the establishment generally seemed to have worked well.

11. The Road Fund office was inspected by the Examiner of Local Accounts in October last. The defects in the system of keeping accounts noticed by the Examiner, have all been remedied.

A. W. PAUL, *Chairman.*

*\* Explanatory memorandum accompanying the half-yearly account.*

In the column for amount of budget estimate, the entire grant for the whole year instead of half the amount for the half-year has been quoted, as the transactions were not executed with regard to a half-yearly grant—*vide* the several items of expenditure.

A. W. PAUL,  
*Chairman.*

No. 87P.W., dated Rampore Beaulah, the 10th September 1887.

From—E. E. Lewis, Esq., Commissioner of the Rajshahye Division,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to forward herewith in original the reports and accounts of the Road Cess Committees of the districts noted in the margin, in which the Local Self-Government Act III of 1885 did not come into operation for the six months from 1st October 1886 to 31st March 1887.

2. *Receipts and Expenditure.*—Rupees 1,20,072 were in the hands of the Committees as balance on October 1st 1886, and the net receipts during the half-year, exclusive of deposits and advances, amounted to Rs. 1,78,143. The actual expenditure during the period was Rs. 1,41,888, leaving a balance of Rs. 1,51,751 on 31st March 1887.

Thirty-one per cent. of the estimated amount on works for the cess year 1886-87 could only be expended during the half-year under report.

3. No original works of importance specially deserving of notice were executed during the period under report.

The roads in the list of the Committees were repaired and maintained so far as could be done within the time and with the funds at the disposal of the Committees.

4. *Establishment.*—The aggregate cost of establishment of the five District Road Cess Committees, exclusive of that of the Divisional Superintendent of Works, was Rs. 38,721, being 21·7 per cent. of the net receipts of the half-year.

The expenditure on account of the Divisional Superintendent of Works was Rs. 9,197, or 5·6 per cent. of the net receipts of the Road Cess Committees of Dinagepore, Bogra, Rungpore, and Julpigoree, which contributed towards the charges of the Divisional Superintendent for the period under report.

## LAND SALE NOTICES.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Nuddea will be put up for sale at the Collector's office of that district on 29th December 1887, for arrears of revenue and other demands which, by the Regulations and Acts in force, are directed to be realised in the same manner as arrears of revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

S. J. DOUGLAS, Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Monghyr, will be put up to sale at the Monghyr Collectorate on the 10th January 1888, corresponding with 12th Magh 1295. The purchasers of these estates will be subject to the following conditions of sale :—

## Conditions of sale.

1. The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.
2. The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
3. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
4. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Monghyr Collectorate, the 1st August 1887.

H. MOSLEY, Collector.

**NOTICE** is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Dacca will be put up to sale at the Dacca Collectorate on the 12th January 1888, corresponding with 29th Poush 1294 B.S.

The purchasers will be subject to the following conditions of sale:—

1st.—The estates to be sold to the highest bidder above the upset price. The purchasers of these estates will be considered as the proprietors of these estates, and the entire proprietary right of Government in such estates will be transferred to them subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estates to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

## NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

*Under-Secy. to the Govt. of Bengal.*

The 24th November 1886.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the Calcutta Gazette of the 9th July 1884:—

### The Indian Law Reports,

*Published under Authority.*

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

*Terms of subscription payable annually in advance.*

#### NOTICE.

A TEST-EXAMINATION of private students for admission to the ensuing University Entrance Examination will be held at the Office of the Inspector of Schools, Presidency Circle, 4, Dalhousie Square, on Tuesday and Wednesday, the 3rd and 4th January 1888. Only candidates from the districts of the Presidency and Chota Nagpore Divisions shall be admitted to the examination.

2. Candidates who have not read in any school since 1st November 1887 will be recognised as private students. They are required to furnish satisfactory evidence showing (1) that they have not read in any institution since 1st November 1887, and (2) that their conduct and progress in the last school they read in were satisfactory. Teachers employed in the Presidency Circle, who may appear at the examination, shall produce a certificate from the Managers of the Schools in which they are employed.

3. Candidates must send in applications at least ten days before the date fixed for the examination, stating the following particulars:—(1) age, (2) residence, (3) father's name,

(4) second language besides English, (5) whether he appeared at any previous Entrance Examination.

4. The admission fee for the examination is Rs. 4 each, to be forwarded along with the application, which shall otherwise not be entertained.

5. Candidates selected by this Office must one and all appear at the Calcutta centre.

*Presidency Circle.*

4, DALHOUSIE SQUARE, CALCUTTA, the 16th November 1887.

### BEHAR CIRCLE.

#### ENTRANCE EXAMINATION, 1888.

THE attention of those who wish to appear at the Entrance Examination of 1888, as teachers or as private students, is called to the following:—

I. By "teacher" is meant one who has been employed as such since 1st January 1887, and is a *bonâ fide* teacher, in receipt of a salary at the time of the examination. Satisfactory evidence of this will be required of those who wish to appear as teachers for the Entrance, F. A., or B. A. examinations.

II. By "private students" is meant those who do not appear from any school, or who have been transferred since November 1st, 1887, without the consent of a Circle Inspector. Private students, if they have read in any school between the 15th June and the 31st of December will be requested to send, together with their application, a certificate from the head-master of the last school in which they read, showing that they have observed the Inter-school Rules.

III. Teachers and private students will have to appear at the test examination of the nearest zillah school and pay a fee of two rupees.

IV. The application forms, when sent for the signature of the undersigned, must be accompanied by a statement signed by the head-master showing that there is a reasonable probability of the applicant's passing.

V. No applications to be allowed to appear at the test examination will be received later than 31st December 1887 from either teachers or private students.

VI. Head-masters of the zillah schools are informed that the standard of marking for the test examination is to be just that of the University. If candidates, whether pupils of the school, teachers or private students, fail to pass in more than two subjects, or fail very badly in two; their marks must be submitted to the undersigned, to decide whether they shall be sent up or not. Care must be taken to submit the marks in time.

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin,

**DEPOSIT.**  
When the amount bid is less than Rs. 1,200 per chest, Rs. 900 per chest.  
On bids of Rs. 1,200 and upwards, but less than Rs. 1,800 per chest, Rs. 300 per chest.  
On bids of Rs. 1,800 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.  
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be

borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazepore Factory for the year 1886-87, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed

quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazee-pore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L.P.,

K. G. GUPTA,

*Offg. Secretary.*

## NOTICE BY THE ACCOUNTANT-GENERAL, BENGAL.

## SUPPLY BILLS.

NOTICE is hereby given that supply bills for sums of Rs. 500 and above in even rupees are usually obtainable on the treasuries named below at the rates of premium shewn.

Any person desiring to obtain a supply bill should send to the Bank of Bengal, Calcutta, a written application containing the following information—(1) his own name and address; (2) the name of the person to whom payment is to be made; (3) the treasury on which the bill is to be granted; and (4) the amount for which the bill is to be granted. With this application the cost of the bill (the amount plus the premium) should be paid into the Bank. If payment by telegram is desired (but this is admissible only in cases in which the name of the payee has been previously registered in the Accountant-General's office), the fact should be stated in the application, and an additional rupee paid with the cost.

The Bank of Bengal will, if the amount is available at the treasury named, receive the money tendered, and grant a receipt, returning the application therewith. The receipt and the application should then be sent to the Accountant-General's office, by which the bill will be granted.

The Bank of Bengal will be advised by the Accountant-General on the 1st and 16th of each month of the amounts available at the several treasuries, and will receive the amounts tendered by the first comers till those amounts are exhausted.

If the Bank refuses to receive any sum tendered owing to the amount not being available at the treasury, the application will be retained by the Bank and forwarded by it to the Accountant-General, who will advise the Bank and the applicant if the amount can be made available.

H. A. D. PHILLIPS,

*Under-Secy. to the Govt. of Bengal.*

The 24th November 1886.

The following revised advertisement is published in substitution for that which appeared at page 1084, Part II of the Calcutta Gazette of the 9th July 1884:—

### The Indian Law Reports,

*Published under Authority.*

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

*Terms of subscription payable annually in advance.*

**RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE INCOME-TAX IN BENGAL FOR THE YEAR 1886-87.**

FINANCIAL DEPARTMENT—INCOME-TAX.

*Darjeeling, the 22nd October 1887.*

RESOLUTION.

READ—

Report of the Board of Revenue on the financial results of the Income-tax Administration for 1886-87.

Read also—

The Rules sanctioned by Government under clause 17 of the Rules prescribed by the Governor-General in Council under Act II of 1886.

Like the Annual Reports on the License-tax Administration, the present Report deals with all operations undertaken under Act II of 1886 up to 30th June 1887, the latest date on which proceedings could be legally commenced for the recovery of sums due under the Act in respect of the past financial year.

2. The change in the law, by which the Bengal License tax Act II (B.C.) of 1880 was repealed, and the Income-tax Act II of 1886 substituted, necessitated many changes of administration. It was found desirable, owing to the

novel character and wider scope of the new Act, to adopt the suggestion contained in paragraph 3 of the Government of India circular letter No. 595, dated 5th February, that an officer of experience should be placed on special duty to supervise the work during the year, and for this purpose Mr. W. H. Grimley was appointed Commissioner of Income-tax on 1st March, one month before the Act received the assent of the Governor-General in Council. The Board had commenced the issue of instructions to District Officers in January, in anticipation of the passing of the Act, and this work was now carried on under their supervision by Mr. Grimley, who also visited many of the districts in person, and became the constituted channel of reference to Government, and the adviser of the Board in all questions relating to the administration of the tax. During the year, Mr. Grimley reported on the progress of collections; but although the practical working of the Act was under the constant attention of the Lieutenant-Governor, the results achieved have not before now been the subject of a complete retrospective review by this Government.

3. *Results of the tax.*—It appears from the Board's report that the total demand under all parts of the tax amounted to Rs. 39,36,958, and the total collections to Rs. 38,60,658. After deduction of the unrecovered balance (Rs. 76,300), and charges amounting to Rs. 2,84,219, the net revenue from the tax is seen to be Rs. 35,76,439. The Accountant-General, Bengal, in October last estimated the probable yield of the tax for the whole year at Rs. 36,18,059; but as this was calculated on the gross receipts, the results have justified the more sanguine forecast of the Commissioner of Income-tax, who, on the same premises, estimated the probable receipts at Rs. 35,00,438.

The percentage of collections to demand, excluding from consideration the tax on official salaries, &c., and deductions on account of interest on Government securities, is 98·5. Of the balance of Rs. 76,300 outstanding on the 30th June, Rs. 9,867 has since been collected, bringing the percentage to nearly 99; and this figure, since the remainder of the balance is regarded as almost entirely irrecoverable, may be taken as finally correct. It compares very favourably with corresponding figures under the License-tax Acts. In the first year of the introduction of the License-tax Act I (B.C.) of 1878, the percentage of collections to demand was only 44; and although this was calculated on the original demand from which there were enormous remissions, still there remained an outstanding balance of over 6 lakhs when 26½ lakhs had been collected. So in 1880-81, with collections amounting to less than 15 lakhs, the unrecovered balance exceeded Rs. 80,000. In recent years the working of the late License Act has been so well understood that there has been little difficulty in collecting almost the entire demand; but the comparison with years in which a new system has been introduced is a fair one, and the Lieutenant-Governor considers that the results may be held to be satisfactory.

4. *Petitions of objection.*—But although some indication is thus afforded of the thoroughness with which the tax has been levied, a more efficacious test of the smoothness of its working lies in the number of petitions of objection presented; and the subject is one which deserves especial consideration in this the first year of the introduction of the Act. Out of 106,936 original assessments, objections were preferred in 29,413 cases, i.e., 27·5 assesses in every hundred objected. In Chittagong, Gya and Angul this percentage rose to 50·9, 54·3 and 71·9 respectively. The large number of objections in Chittagong has been sufficiently explained in the Board's report, but the reasons given in this case show the necessity for explanation in the other two cases also. In 1878-79, a year which has been already selected as suitable for comparison, the proportion of objections to assessments was about 33 per cent.; in 1880-81, 62 per cent.; and in 1885-86, when the Act of 1880 had been in force for six years without change, as much as 24·7. On these figures, and considering the difficulty of obtaining reliable information, as well as the far wider scope for objection afforded by the present Act, the Lieutenant-Governor agrees with the Board in thinking that the assessments have on the whole been carefully and judiciously made. It is, moreover, to be inferred from the large percentage (48) of successful objections, i.e., objections which were partially or wholly allowed, that the petitioners were treated with consideration, and that there was no unwillingness to modify assessments. This applies particularly to Calcutta and Darjeeling, where the percentage of successful objections rose as high as 78·4 and 73·3 respectively.

although the rate of objections to assessments was 27·8 per cent. and 3·2 per cent only. The number of applications to the Commissioner for revision, including cases called for by that officer of his own motion, was 1,289, or a percentage of 4·3 on the number of objections preferred, and if the cases contributed by Chittagong (344), Calcutta (265) and Dacca (118 are deducted, the total is reduced to 562. These three districts, moreover, show no less than 266 out of 342 cases in which the tax was reduced or entirely remitted. In all the other districts the orders were modified in only 76 cases out of 433 disposed of. These figures indicate that the orders passed on petitions of objection on the whole gave satisfaction.

Nevertheless remissions were by no means large. The percentage of remission on original demand was highest in the districts of Singbhoon and Chittagong, where it rose to 26·6 and 26·5 respectively; but for the whole Province, although the remissions granted by Collectors included a large number of cases in which no objections were preferred, but in which the assessees were found to have died or left the district, or given up the business for which originally assessed, they yet gave the comparatively small percentage on the demand of 17·6, and those granted by Commissioners a percentage of 4 only. The total amount remitted was Rs. 7,53,292 as against Rs. 14,39,635 of license-tax demand in 1878-79, and Rs. 11,87,920 in 1880-81.

5. *Mode of assessments.*—The mode of assessment is described in paragraphs 6 to 9 of the Report. The total number of assessors employed during the year was 82, and their average length of service a little under nine months. Out of 249,412 villages shown in the last census, the assessors visited 87,019, or an average of 1,061 each. The total number of assessees was 1,05,611. It is said that in many of the districts the greater portion of the villages not visited contained no assessees; but it nevertheless appears to the Lieutenant-Governor quite possible that neither the number of persons liable to the tax, nor the real assessable income of these persons, have been exhaustively registered. It is hoped that the instructions now issued by the Board will help to elucidate this point; but in the meantime Sir Steuart Bayley would hesitate to endorse, in regard to the coming year, the conclusions drawn by the Board from the very instructive table given in paragraph 41 of their report. The natural inference to be drawn from the progressive decrease of productiveness in successive years of the existence of previous income-tax Acts is that the assessing establishment grew careless and supervision was not kept up to the mark. It is to be hoped that better results will attend the efforts made by the Board on this occasion to introduce a fairly paid and efficient assessing staff, and to subject their work to a careful supervision. Of course there are in every district a great number of villages which to visit would be waste of time; but district officers cannot give a too careful attention to the judicious direction of the movements of assessors, and to the prevention of needless omission of villages in their tours. After allowance made for local peculiarities in regard to size of villages, the figures appear to show that in some districts during the past year the local enquiries were unduly restricted. Champarun shows only 734 villages visited out of 7,766, Mymensingh 1,598 out of 12,619, Midnapore 1,936 out of 13,875, Pooree 727 out of 5,166, Manbhoom 770 out of 6,147, and Shahabad 839 out of 5,641. And it is noteworthy that these districts show a proportion of assessees to population which is smaller than the average. Thus, Shahabad and Chumparun have 1 in 1,597 and 1 in 1,291 respectively, against a divisional average of 1 in 1,012; Pooree has 1 in 1,712 against 1 in 1,466; Manbhoom 1 in 1,263 against 1 in 1,129; Midnapore 1 in 999 against 1 in 940; and Mymensingh 1 in 857 against 1 in 816. These differences will no doubt receive the attention of the Board. It may be observed that the Dacca return, which shows every one of the 6,422 villages in the district as visited, must be incorrect.

6. *Incidence of the tax.*—The average incidence of the tax to the whole population of the Province, as given in the last census, was Re. 1 to every 19 persons. This high figure is chiefly due to the inclusion of Calcutta, where the incidence of the tax was as much as Rs. 2½ to every person. Without Calcutta, the average incidence for the Province was Re. 1 to every 39 persons, as against 64 under the late License-tax Act. The proportion between the number of assessees and the total population was 1 to 677. In 1878-79, when

the minimum income taxable was Rs. 100, this proportion was 1 to 71; in 1879-80, when the minimum income taxable was raised to Rs. 250, it was 1 to 480; in 1880-81, the first year of the late License-tax Act, it was 1 to 921. According to this ratio as calculated for each division, Orissa and Chota Nagpore appear, as was generally the case in the days of the license-tax, at the bottom of the list, and, Calcutta being omitted from consideration, Rajshahye appears at the top. Orissa, owing perhaps to its large agricultural population, has nearly always held the lowest place, though in 1878-79 Patna and Chittagong (which has now risen high in the scale) were both lower than Orissa. In that year the Government of Bengal had occasion to notice the great diversity of assessment which was shown by this table of proportion to have occurred in different districts; but the Lieutenant-Governor is pleased, in the case of the present income-tax, to observe, as a rule, a commendable equality in the returns for each district. This difference between the first year of the license-tax of 1878-79 and the first year of the present tax can of course be explained to some extent by the difference in the minimum income liable to taxation; but the Lieutenant-Governor is disposed to attribute it in part to the uniformity of system introduced by Mr. Grimley, and to the care and attention given by Collectors to the instructions issued to them, and he is glad, on the latter point, to be able to endorse the favourable testimony borne by Mr. Grimley, in his Resolution dated 13th April 1887, to the willing and intelligent assistance accorded him by District Officers.

7 *Coercive measures.*—Extreme coercive measures were very seldom resorted to. The percentage of sales after distress to the total number of final assessments was .8 only. In every 100 assessments, warrants were issued in 12 cases, and property was distrained in 6.8; but if Calcutta be excluded, where the issue of distress warrants was disproportionately large, these figures are reduced to 9.5 and 5.1 respectively. It appears that the number of sales was largest in the district of Rungpore (186), and next came Dinagepore with 106. Where, as in the case of Rungpore, there is also a large unrealized balance, the Board rightly infer that too great severity has been exercised in assessment. The districts of Mozufferpore and Singbhoom are open to the same criticism. Rungpore and Mozufferpore are both in the first division into which the districts were classified for purposes of assessment, and they therefore had three assessors at work. When this is the case, there are opportunities for comparison of which the Collector of the district should not lose advantage. The statistics of objections show that the assessments in both these districts were unduly high. Rungpore shows 850 objections, of which 135 resulted in reduction and 260 in total remission. Mozufferpore shows 1,728 objections with 347 reductions and 672 total remissions. More than one-tenth of the total remissions in the Province was granted in this district alone. In these circumstances it especially behoved the Collectors to guard against the harsh employment of coercive process, and it is unsatisfactory that both districts show a larger number of warrants issued than any other district except Calcutta, and at the same time a considerably larger balance outstanding.

In Calcutta, there were no sales in execution of warrants of distress, but the issue of process was resorted to with great freedom. A percentage of 21 on the total number of persons finally assessed is abnormally high, and the Lieutenant-Governor cannot think that sufficient circumspection was exercised in granting issue of warrants. In fact, this has been evidenced in the case of Mr. Daniell, in which the orders of the Lieutenant-Governor were separately conveyed to the Collector; and the comparatively enormous costs incurred on account of additional establishment entertained in serving distress warrants, &c., is a further indication of the same fact.

8. *Expenditure.*—The percentage of total expenditure to collections in Calcutta is, however, very small—only 2.6—and the Lieutenant-Governor is glad to find that the Board have recently expressed an opinion that the administration of the tax in Calcutta has been on the whole successful. In respects other than the issue of process, he is inclined to concur in the Board's view.

The expenditure throughout the Province was of course heavy in the first year of the new tax, establishments being necessarily large. In the Lieutenant-Governor's opinion it was a wise policy to expend money in getting the assessments made as fairly and completely as possible in the first instance. Turning

again, however, to the figures of 1878-79, the comparison is certainly favourable, as will be seen from the following table :—

	Total expenditure. Rs.	Percentage of costs to collec- tions for whole Province.	Percentage of costs to collec- tions for Calcutta.
1878-79 ... ..	3,34,069	12.1	6.7
1887-88 ... ..	2,41,766	7	2.6

As a very large majority of the assessors had completed their term of service before the end of June, and as the appointments were in no case for a longer period than 12 months, there is every reason to believe that the percentage will be considerably lower next year. This is the natural sequence of events in the second year of a tax. In 1879-80 the expenditure fell to Rs. 1,47,785 and the percentage to 7.4.

9. Paragraphs 38-40 and 45-50 of the Board's report, and the connected statements, give details in regard to the levy of the tax under the different parts of the Act and in the different districts of the Province. The only figures that call for notice are those regarding employes of companies, local authorities, associations and private individuals and employes of Government, respectively. In the former class 12,294 persons paid Rs. 4,58,687. In the latter 7,310 persons paid Rs. 4,21,379.

10. *Classification of incomes.*—Statement XIV, showing the amount collected from different classes of people under different classes of income, is an interesting table. The largest contribution, Rs. 6,03,898, was from class I (incomes between Rs. 500 and Rs. 750). The next highest, Rs. 4,98,512, was from class VIII (incomes between Rs. 2,500 and Rs. 5,000), which was followed closely by class XV (incomes of Rs. 1,00,000 and over), with Rs. 4,87,438. The largest amount of tax, according to the prescribed classification of assesses, was paid by money-lenders and changers, and, as was to be expected, the contributions generally were largest from the commercial and mercantile communities, and after these by the professional (including official) classes. During the year a proposal was made by the Commissioner of Income-tax to make use of the services of assessors of income-tax in future census operations, by assimilating the income-tax classification to that adopted in the census tables. The suggestion was not supported by the Lieutenant-Governor, as it was apprehended that the measure would be liable to misconstruction by the less educated; but it may perhaps be possible to draw without prejudice a rough comparison between the figures for the mercantile and professional classes, as gathered from the existing systems of classification. The total of order VI in class III (commercial class) of table XII of the census tables (statement showing the occupations of the male population by locality) gives a total commercial population for the whole Province of 608,072. To obtain roughly the total corresponding number of commercial assesses, the total of items 50, 51, 52, 53, and 64 to 73 may be added together; the result being 44,574. Similarly the total of items 1, 4, 7 to 11, 35 to 49, and 53a may be roughly compared with the total of class I (professional class) in the same census table. This gives 33,630 professional assesses to a total professional population of 572,967. It would thus appear that 1 in every 13 or 14 of the commercial community, and 1 in every 17 of the professional classes, has been assessed to income-tax, as against 1 in every 677 of the whole population.

11. *Miscellaneous.*—Embezzlements of money paid as income-tax was only reported from one district. It is hoped that the prohibition, issued by the Income-tax Department against cash transactions, will entirely check misappropriation in future. The question of the extension of the money-order system to income-tax payments has been referred to the Postmaster-General, Bengal, whose reply is still awaited.

12. *Popular feeling.*—The Board have expressed no opinion on the state of popular feeling in regard to the tax, but have contented themselves with supplying extracts from the reports of Commissioners. The burden of these is that the tax is extremely unpopular with those who have to pay it, and a matter of indifference with those who have not. The Commissioner of Patna remarks: "I believe the dislike to the tax is simply dislike to pay money. I do not think there is anything approaching to intelligent criticism of the tax anywhere, except amongst us who collect it. This is no doubt a true description

of the attitude of the people at large. They pay indirect taxes without murmur because they hardly know what they pay. But a demand for payment of a direct tax is a tangible hardship, which they resent and seek by all means to avoid." Mr. Boxwell continues: "Vakeels and pleaders of reputation are quite content to ask me in appeal to knock off something from the assessment without any attempt at showing what the proper assessment is. A man will consent to pay Rs. 20 on a declared income of Rs. 200 because he was originally assessed at Rs. 40. They show in this way that they do not even pretend to believe what they tell the hakims." That the tax is unpopular with the more intelligent classes, who were exempted from the previous license-tax is undoubted; but this is not the place to discuss the propriety of the measure under which they have been taxed. Among the people generally there is no apparent ground for believing that the unpopularity of the Income-tax Act is greater than that of the License-tax Acts, when first introduced. The proportion of objections preferred was not so large, although, as has been already remarked, there was a wider door open to objection, and although in the rural districts the desire among the less educated to prove artificially small incomes must frequently have been strong enough to overcome their imperfect understanding of the law. The unpopularity of a direct tax may be greatly enhanced by injudicious administration; but the Lieutenant-Governor is glad to be able to record his belief that in the present year the dislike to the tax has not been seriously aggravated by errors in its working.

13. The thanks of Government are due to the Board and to the Income-tax Commissioner, Mr. Grimley, for the efficient administration of this department during the year. The names of the officers, specially mentioned by the Board as having done good service in the operations under the Act, will be noted in the Appointment Department.

By order of the Lieutenant-Governor of Bengal.

COLMAN MACAULAY,

*Secretary to the Government of Bengal.*

**RESOLUTION ON THE REPORT OF THE SANITARY COMMISSIONER  
FOR BENGAL FOR THE YEAR 1886, INCLUDING THE  
REPORT ON VACCINATION IN BENGAL FOR  
THE YEAR 1886-87.**

POLITICAL DEPARTMENT—SANITATION.

*Darjeeling, the 29th October 1887.*

**RESOLUTION.**

**READ—**

The Report of the Sanitary Commissioner for Bengal for the year 1886, including the Report on Vaccination in Bengal for the year 1886-87.

**Read also—**

The Report for the previous year and the Resolution recorded upon it.

The remarks of the Bengal Government on the length of the Sanitary Commissioner's report for 1884 had the desired effect of reducing to some extent the size of the volume for 1885. The Government of India, in reviewing the Report and Resolution for the latter year, called particular attention to this fact, and remarked that the report appeared to be capable of still further abridgment, and that the statistics of the province of Bengal, in their present state of imperfection, hardly called for such exhaustive criticism as they had received at the hands of Dr. Lidderdale. Notwithstanding the fact that Dr. Lidderdale's attention was specially directed to these remarks, the Lieutenant-Governor regrets to observe that the report for 1886 contains 163 pages, being indeed very little shorter than the report for 1884, the "inordinate length" of which was condemned by the Government of India. Sixty-eight pages of the report are devoted to the personal proceedings of the Sanitary Commissioner and his subordinates—no doubt a useful record, but containing much which need not be embodied in an annual report. Sir Stuart Bayley

is of opinion that the results of the year's administration can well be placed before Government in a report of 50 or 60 pages, and he trusts that the Sanitary Commissioner will aim at reducing the report of 1887 to some such dimensions.

2. *Registration of Births.*—Births were registered in 45 towns against 46 in the preceding year, showing a ratio of only 21·04 per 1,000 against 24·71 in the previous year. As the work of registration in those municipalities in which Act IV (B.C.) of 1873 is in force has passed from the Police to the Municipal Commissioners, Sir Stuart Bayley hopes to see some improvement on these "radically defective figures;" but to accomplish this end the close and sustained attention of the Commissioners will be necessary.

3. *Registration of deaths.*—The ratio of deaths to population was 21·99 per 1,000 of the population against 22·74 in 1885, the ratio varying from only 13·24 in Mezufferpore to 36·17 in Shahabad. As the year was a healthy one, it is not necessary to infer any retrogression in registration, the number of deaths from cholera alone having decreased by 55,399. Much seems to depend on the individual interest taken in the matter by different Magistrates and police officers. A copy of paragraph 4 of the report will be sent to all Commissioners and to the Inspector-General of Police for communication to Magistrates and District Superintendents of Police. It will also be sent to the Municipal Commissioners of towns in which the Compulsory Registration Act is in force. The provisions of this law were extended during the year to 31 towns, making a total at the close of the year of 148 towns and one rural area in Darjeeling.

4. *Causes of mortality.*—The following table shows the death-rate from various causes during 1886, 1885, and the quinquennial period 1881-85:—

	PROPORTION OF DEATHS PER 1,000 OF POPULATION.								
	In 1886.			In 1885.			In 1881-85.		
	Urban.	Rural.	Province.	Urban.	Rural.	Province.	Urban.	Rural.	Province.
Cholera ... ..	4·13	1·70	1·78	5·33	2·53	2·02	4·08	1·91	1·69
Small-pox ... ..	·08	·06	·06	·38	·14	·14	·53	·21	·35
Fever ... ..	12·29	16·11	15·97	14·40	15·79	15·75	15·08	14·48	14·48
Bowel-complaints ... ..	3·77	·75	·84	4·32	·85	·90	3·79	·78	·89
Injury ... ..	·50	·43	·43	·50	·43	·43	·42	·36	·36
Other causes ... ..	6·51	2·74	2·88	7·02	2·66	2·81	6·13	2·24	2·38
ALL CAUSES ... ..	27·29	21·79	181·99	31·03	23·42	22·74	30·07	19·98	20·35

The death-rate in rural circles was 21·79 per 1,000, and in urban circles 27·29. The figures from 1881 to 1886 tend to show that urban circles are more unhealthy than the rural areas, and that better registration in the former cannot alone account for the widely divergent ratios. With reference to Dr. Lidderdale's remarks regarding the mortality among European seamen and the native floating population, the insanitary condition of the river and its causes have been noticed in paragraph 7 of the Resolution on the Report of the Health Officer for 1886, and the necessary orders have been passed. The opinion of the majority of local officers is that the year 1886 has been healthier than the preceding year. This opinion is endorsed by the Sanitary Commissioner, who attributes it principally to a decrease of cholera and small-pox, and a reduction in the price of food-grains owing to a good harvest.

5. *Cholera.*—The recorded deaths from cholera were 118,368, or a ratio of 1·78 per thousand, against 173,767, or a ratio of 2·62 in 1885. The disease attacked 21,567 villages, or 9·33 per cent. of the total number of villages in the Province, against 29,239, or 12·61 per cent. in 1885. In paragraph 35 a table is given showing the meteorological peculiarities which obtained during different periods of cholera outbreak in certain tracts, but the Sanitary Commissioner expresses an opinion that this method of enquiry is not likely to throw much light upon the causes of the disease. Meanwhile, as he remarks, the conditions which foster the disease are well known, and what the Sanitary Department require is more power and more money to remove them. In this connection

he has given interesting details regarding the outbreak and prevalence of cholera in different districts, and some of the instances cited by him show conclusively that even the educated portion of the community have not yet universally realised the necessity for general sanitation, and especially for a pure water-supply. The Commissioners of Baraset, when advised to set aside certain tanks for drinking water, urged that bathing was as necessary as drinking. The Commissioners of Baduria declined to interfere with the "time-honoured custom" by which Mahomedans bury their dead within their homesteads. Sir Steuart Bayley was under the impression that this custom had been to a great extent given up, but is surprised to hear of its continuance even in municipalities. The remarks of the Sanitary Commissioner on this head will be communicated to, and considered in, the Municipal Department. In other instances the outbreak of cholera is clearly traced to the use of impure water for drinking or culinary purposes. The details given in one or two cases show that the water used was unfit to be drunk even by cattle. Wherever there was a severe outbreak of the disease, all or almost all the usual insanitary conditions were found to exist, namely, filth, foul air, impure water, ill-constructed or ill-ventilated homesteads, and unwholesome or insufficient diet.

6. *Small-pox*.—The recorded number of the deaths from small-pox, which had decreased from 18,533 in 1884 to 9,563 in 1885, showed a still further fall to 4,049. This is the smallest number yet recorded, the mean average of the decade 1876-85 being 15,317. It was, moreover, reported by several medical officers that many of the cases returned as small-pox were really cases of measles, eruptive fevers, or pulmonary complaints. The great immunity from the disease enjoyed during the year under report is doubtless due to the extension of vaccination during recent years. Fifty-five per cent. of the total mortality occurred in the seven districts of the Patna Division, to only two of which has vaccination yet been extended; 31 per cent. of this mortality occurred in the district of Chumparun alone. Statistics have for several years shown that 75 per cent. of the mortality from this disease occurs among infants and children.

7. *Fever*.—The recorded mortality from fevers was 1,057,296, or a ratio of 15·97 per thousand of the population under registration, against 1,012,142, or a ratio of 15·75 in 1885. The mean death-rate of the decade 1876-85 was 12·27. It is noticeable that during the previous decade the urban population suffered from fever considerably more than the rural; but during the year under report the ratio of mortality was only 12·29 in urban circles, while it was 16·11 per 1,000 in rural circles. The death-rate exceeded 20 per thousand in ten districts, the worst districts being Julpigoree (31·01), Shahabad (29·20), Pubna (27·68), and Rungpur (27·12). Burdwan and Beerbhoom do not figure among these districts, but Nuddea stands ninth on the list. The district reports repeat the same melancholy story of weakness, anæmia, enlarged spleen and liver, debilitated constitutions, pulmonary and enteric complications, and other sequelæ; and among the causes assigned are dense jungle, imperfect drainage, rank vegetation, bad water-supply, silting up of *bils* and tanks, water-logged soil, burial of dead within homesteads, vicissitudes of temperature, general uncleanness, insufficient clothing, poor food, damp and improperly-constructed houses. In Khulna an extremely virulent type of fever occurred. Assistant Surgeon Umesh Chunder Ghose, Deputy Superintendent of Vaccination, found that 79 per cent. of the children examined by him in the Satkhira thana had enlargement of the spleen; in several villages in thana Magoora the disease was present in every house; and in thana Kalarooa, which suffered much, the water of the river Betna was found to be so bad as to kill the fish in it. The District Magistrate will be asked to inquire further during the ensuing cold weather into the causes of this outbreak.

8. *Mortality from other causes*.—The mortality from "bowel-complaints," "injury," and "other causes" during the year amounted to 55,693, 29,081, and 190,818 respectively. The corresponding figures for 1885 were 63,808, 28,956, and 186,209. In connection with the first of the above heads, it is a noteworthy fact that hill diarrhoea "now occurs in Darjeeling with seasonal regularity during the early months of the rainy season, when not a house-

hold escapes it, although in former years it was one of the advantages claimed for Darjeeling as a sanitarium that it was free from this plague of other hill stations." The causes of the disease are probably increase of population and overcrowding.

9. *Vaccination operations.*—The particulars given in the report regarding vaccination are for the official year 1886-87. As regards this portion of the report, which covers 30 pages, Sir Steuart Bayley would remark that the minute details given no doubt find a fitting place in reports submitted by subordinates to the head of a department; but they are quite inappropriate in a report submitted to Government by the head of a department. Such a report should summarize the results of the year's administration, and deal with matters of importance and salient features in such a way that they can be readily seen and reviewed by Government. Extremely minute details are given regarding the sources and character of the lymph employed during the year, the production and employment of bovine lymph, operations performed, local opinion on the value of bovine lymph, &c.; while several paragraphs are taken up with a full account of the results of certain experiments. These would be appropriate in a special report submitted with a view to some special action being taken, or to some change in a policy hitherto followed; but they are unnecessary in an annual administration report.

The following table shows the total number of vaccination operations performed during the year under report and the previous year:—

<i>Total number of Vaccinations performed.</i>

Every circle contributed to the increase except Calcutta, where there was a diminution of 1,802 operations, said to be chiefly due to the smaller number of unprotected children. A proposal came up during the year for the employment of women in the Vaccination Department. The Sanitary Commissioner was not in favour of the proposal on the grounds that vaccination is freely accepted from the present agency, and that no difficulties in this respect arise from the zenana system; whereas operations may be retarded and complicated by the introduction of a new element, difficult to control and not easily moved about. Sir Steuart Bayley did not think it necessary to take any further action on the proposal, though he is by no means sure that Dr. Lidderdale's objections are conclusive. As regards the work performed by the licensed and Government agencies, it is only natural that the former should have actually accomplished more, as the number of licensed operators is 1,811, while there are only 285 Government operators; but the total number of vaccinations performed by each class shows that each Government vaccinator performed on an average 1,443 operations, while the number performed by each licensed vaccinator was only 613.

The total expenditure on vaccination during the year amounted to Rs. 1,54,084-5-8, of which Rs. 67,980-7-8 was the cost of maintaining the Government agency, and Rs. 74,093-10-6 the cost of supervising the licensed agency, while Rs. 12,010-3-6 was paid by municipalities. The licensed vaccination system was considerably extended during the year.

Revised rules were sanctioned, and it is hoped that they may put a stop to some of the irregularities and abuses which have been brought to notice. It is gratifying to observe that the opposition to vaccination is gradually giving way before the perseverance and persistency of the Vaccination Department; in some districts it is willingly accepted, and in others eagerly sought for.

10. *The Compulsory Vaccination Acts.*—The Compulsory Vaccination Act V (B.C.) of 1880 is now in force in 114 towns, four cantonments and nine rural areas, having been extended to ten towns during the year under report and to 19 others on the 1st April last. The amending Act II (B.C.) of 1887 was passed just after the close of the year. It would appear from the Sanitary Commissioner's report that the extension of the Act has done no good in many cases, the requirements of the law not having been carried out. The attention of the Magistrates concerned will be drawn to paragraph 155 of Dr. Lidderdale's report.

Act IV (B.C.) of 1865, prohibiting inoculation, is now in force everywhere with the exception of seven districts and certain thanas of three other districts.

11. *Village Sanitation.*—In a memorandum, dated the 25th February 1887, reviewing the Bengal Sanitary Report for 1885, the Army Sanitary Commission proposed a scheme of organised sanitary reform which, if carried out on the scale which they appear to contemplate, would undoubtedly lead to a marked improvement in the health of the people of Bengal. After commenting on the highly unwholesome conditions prevailing in most of the villages inspected by the Sanitary Commissioner and his assistants, and noticing the vast numerical preponderance of dwellers in villages over dwellers in towns, the Commission repeat the opinion expressed by them in former years that "the most important sanitary problems in Bengal are those connected with the population of villages." Owing to "the apathy or indifference displayed by the people to the simplest elements of sanitation" and their "long-continued filthy habits," the Commission regard these problems as hopeless "unless some more effectual method be adopted for overcoming apathy and substituting active and efficient work for it." The method advocated in the memorandum is of a simple and searching character. It consists in calling in the aid of an experienced Sanitary Engineering Department to apply its principles and experience to each case as it arises." Where the soil of a village has become polluted by persistent neglect of sanitary precautions, "the alternative at once suggests itself of selecting new sites for such villages, placing the sites in good sanitary state, laying down an authoritative code of village sanitary law, with means of execution and inspection, and then removing the village by degrees. The vacated sites would have some value as manured land." The duty of carrying out these extensive reforms, and of seeing that the people, when settled in their new homes, do not revert to their former habits of life, would, it is understood, be entrusted to the Sanitary Engineering Department which the Commission proposes to constitute.

12. There can be little doubt that the internal arrangements of most villages in Bengal go far to bear out the strictures of the Army Sanitary Commission. Out of 5,206 villages inspected in 1885, the period dealt with in the memorandum, nearly all were conspicuous for sanitary defects, amply sufficient, if regarded solely from the scientific point of view, to justify the introduction of the sweeping reforms suggested by the Commission. A considerable amelioration of the public health would probably result from the adoption of these measures, which embody the latest ideas of hygienic experts, and appear, were they only practicable, admirably adapted to attain the ends for which they are designed. The history of the Mohammedan dynasties no doubt furnishes us with instances (not always successful) of the entire population of large cities being forcibly removed to new sites; but neither the legal powers nor the financial resources at the disposal of the Lieutenant-Governor are such as to enable him to hold out any prospect of being able to adopt the measures which have the advocacy of the Army Sanitary Commission. Projects of material improvement necessarily involve some consideration of ways and means; and in this case it may be feared that even if the wishes of the people concerned could be entirely disregarded, still the value which (as the Commission point out) the abandoned village sites would possess "as manured land" would hardly suffice to meet the cost of demolishing the existing

houses, acquiring new sites, and in fact removing and rebuilding the greater number of the villages in Bengal. For the present, then, Sir Steuart Bayley regrets that he cannot see his way to giving effect to the views of the Commission, and meanwhile we must be content with the humbler task of doing all that our resources will allow to improve existing conditions.

13. *Expenditure on Sanitation.*—With reference to the concluding remark of the preceding paragraph, it is not satisfactory to observe that, though there was an increase of municipal income, the amount expended on sanitation by municipalities was somewhat curtailed. The Sanitary Commissioner complains that nothing is done towards the removal of grave sanitary defects, while plenty of money is forthcoming for lighting, watering roads, and education. Dr. Lidderdale cites some instances in which either nothing was spent on sanitation proper, or in which the amounts allotted were clearly inadequate; but Sir Steuart Bayley is unable to agree that education can properly be described as a secondary requirement. Again, the Inspector-General of Police annually complains of the inadequate sums spent on lighting; and no doubt good lighting goes a long way towards putting a stop to the commission of theft and house-breaking at night. Although, however, the Lieutenant-Governor is unable fully to accept Dr. Lidderdale's views on these points, he is satisfied that, in some municipalities, the allotments made for sanitation are small in comparison with the amounts devoted to other objects.

14. *Sanitary works.*—In the town of Darjeeling the water-works scheme was extended, while a scheme for supplying Jamalpore was brought into operation during the year. The Bhagulpore scheme is not yet complete. A scheme for supplying Puri with good drinking-water is now under the consideration of Government. The question of a filtered water-supply for Howrah is not being pushed forward with that energy and determination which so important a matter calls for. The orders passed by Government in 1883 and 1885 distinctly stated that the condition on which Government undertook, under section 7 of Act IV (B.C.) of 1884, to relieve the municipality of two-thirds of its police charges, was that a satisfactory scheme for the supply of filtered water to the town would be adopted within a reasonable time. The Lieutenant-Governor has already had occasion to intimate that, if the scheme be not pushed forward in earnest, he may have to reconsider this engagement. The question of drainage is beginning to attract more attention, and during the year some satisfactory progress was made in this direction.

15. *Legislation.*—Act VI (B.C.) of 1886 was passed during the year under report. It provides for the voluntary registration of births, deaths, and marriages among persons to whom the provisions of the Indian Succession Act, the Indian Christian Marriage Act, and the Parsee Marriage and Divorce Act apply. It has been decided in the General (Ecclesiastical) Department of this Government that the Inspector-General of Registration is to be appointed Registrar-General under this Act, and that his department must be largely used in working its provisions. He has accordingly been asked to submit detailed proposals for submission to the Government of India. The Bill to amend the Vaccination Act was passed as Act II (B.C.) of 1887 after the close of the year. This Act gives larger powers of vaccination and inspection, and its working should be briefly noticed in the report for the present year. Act III (B.C.) of 1886 (known as the Ghee Act) was passed during the year. It is now under the consideration of Government whether any further legislation is required regarding the adulteration of ghee. The Local Self-Government Act III (B.C.) of 1885 was introduced during the year into all the districts in the province, except the Chota Nagpore Division, and the districts of Darjeeling, the Sonthal Pergunnahs, and the Chittagong Hill Tracts. It will be considered in the Municipal Department whether sections 87 to 91, relating to sanitation, and sections 92 to 96, relating to vaccination, should be introduced into these districts.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Offg. Chief Secy. to the Govt. of Bengal.

CALCUTTA, the 1st November 1887.

**SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS  
TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS  
TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 28TH OF  
OCTOBER 1887.**

At the close of the previous week the meteorological conditions were decidedly those which usually usher in the north-east monsoon or the cold weather season in Bengal. Winds were, however, rather light and irregular in direction, though cloud proportion and humidity were low, and temperature was distinctly falling. On the 22nd winds became decidedly more northerly than they had been, and except at the western stations in Behar, where winds were westerly, light northerly and north-easterly winds prevailed over the whole province. The westerly element in the wind directions strengthened on the 23rd, and temperature began to fall rather rapidly, so that the mean temperature of this day, as shewn in the report of the 24th, was at some of the western stations  $4^{\circ}$  and  $5^{\circ}$  below the normal. On the 24th, also, winds became somewhat southerly at some of the central stations in the province, but on the 25th the southerly winds had almost disappeared, and for the remainder of the week winds were northerly over the whole province. A further rather rapid fall of temperature took place later on, and in the observations reported on Thursday, the 27th, the mean temperature of the previous day was shown to be no less than  $9.8^{\circ}$  in defect of the normal at Berhampore and  $8.8^{\circ}$  below it at Ranegunge. The defect exceeded  $7^{\circ}$  at Rampore Bauleah; at Burdwan, Dinapore and Dhubri the defects exceeded  $6^{\circ}$ , and at Furreedpore and Rungpore they exceeded  $5^{\circ}$ . At the same time also humidity became decidedly low, and at 10 A.M. of the 25th, at Ranchi, the saturation of the air with moisture was only 23 per cent. and at Hazaribagh only 24 per cent. of the possible amount. The sky also became practically cloudless over the greater part of the province, except on the 26th, when it clouded over locally in parts of South-West and North Bengal, and a few local showers were reported on this day from the Burdwan, Bankoora, Beerbhoom, Moorshedabad, Rajshahye, Dinapore and Rungpore districts. With the exception of these light local showers, the whole province has been practically rainless throughout the week. The principal features during the week have therefore been the gradual establishment of the north-east monsoon conditions over the greater part of Bengal, accompanied by the continuance of comparatively high pressure, and with a decidedly rapid reduction of temperature; skies have also cleared, humidity has decreased, and rainfall has been almost entirely absent. But while these conditions have gradually become established in Bengal, in the south of the Bay the south-west monsoon has still continued to blow; rather heavy rain has been received along the Madras coast, and strong winds and rather squally weather have generally prevailed, and at the close of the week it was evident that a decided barometric depression or feeble cyclonic storm was forming in the south-west of the Bay.

**Pressure.**—The pressure variations which have occurred during the present week have only been such as usually occur during fine settled weather, and they have been of slight oscillatory character only. The tendency of the oscillations has, however, been distinctly towards increased pressure, as is normal at this season; and the excess pressure which has been a marked feature in the meteorology of the last two weeks has been maintained. Taking into consideration only those stations from which observations have been received for a number of years, the mean pressure of the whole of Bengal for the week has been 0.065 inch in excess of the normal. This excess pressure has been fairly evenly distributed, though in North Behar at Purneah the excess has been only 0.043 inch. In Assam the excess pressure has varied between 0.03 inch and 0.04 inch.

**Temperature.**—In the previous portion of this summary, it has been noticed that temperature fell rapidly during a part of the week, and thus the mean temperature for this period has been very decidedly below the normal. For the whole province the mean temperature for the week has been  $1.7^{\circ}$  below the normal. The defects have generally been largest in South-West Bengal, North Behar and South Behar, where they vary from  $2^{\circ}$  upwards. The reduction in the temperature has apparently taken place most rapidly in the night or minimum temperature, for while at many stations the mean maximum or day temperatures have been nearly equal to the normal, the night temperatures have been much more largely in defect. This is shown in the following table, where the mean maximum and minimum temperatures for the week at nine typical stations in different districts of the province are given, compared with the normal for the period; and thus while the mean day temperature of these nine stations has been less than half a degree below the normal only, the defect in the night temperatures has averaged more than two and a half degrees, and at such stations as Calcutta, Burdwan and Purneah the defects have averaged nearly four degrees.

In Assam the mean temperature for the week has been 0.8° above the normal.

**Rainfall.**—The rainfall of the week has been of so slight a character that it has been almost practically absent from the province. As stated previously, light falls have occurred in a few districts in South-West and North Bengal, but the only districts in which the average falls have exceeded a tenth of an inch have been Bankoora (0.18 inch), Moorshedabad (0.17 inch), Rungpore (0.10 inch), Darjeeling (0.20 inch), and Chyebassa (0.13 inch).

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 28th of October 1887:—

The average fall of the corresponding period for 24 years, S. G.'s Office ...

The mean pressure, temperature, &amp;c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

**MEMORANDUM \***

The principal Municipalities in Bengal returned, during the week ending 1st October 1887, the birth and death-rates of 15.6 and 22.9 per 1,000 of population, respectively, as opposed to 18.6 and 23.0 per 1,000, respectively, in the preceding week ending 24th September, indicating a considerable falling off in the registration of births.

2. The highest proportions of births and deaths were returned from the following Municipalities:—

<i>Births.</i>				<i>Deaths.</i>			
			Ratio per mille.				Ratio per mille.
Monghyr	...	...	30.7	Gya	...	...	45.8
Gya	...	...	28.7	Suburbs of Calcutta	...	...	43.4
Durbhanga	...	...	28.3	Beaulah	...	...	42.0
				Puri	...	...	42.0
				Monghyr	...	...	39.8
				Serampore	...	...	35.3
				Kishnaghur	...	...	32.2

3. The mortality from the principal death-causes was as follows, in comparison with that in the preceding week:—

				Ratio per mille during the weeks ending—	
				1st October 1887.	24th September 1887.
Cholera	...	...	...	1.2	1.5
Small-pox	...	...	...	...	...
Fever	...	...	...	10.4	9.3
Bowel-complaints	...	...	...	4.1	3.9
Injury	...	...	...	.4	.4
Other causes	...	...	...	6.8	7.9

The above figures denote chiefly that there was a noticeable enhancement in the death-rate from fever with a sensible diminution in that from the diseases coming under the head of "Other causes."

4. Of the diseases above named, eliminating small-pox, from which no death was reported, injury, the casualties from which were nowhere large, and bowel complaints, which proved conspicuously fatal only in the Puri town, viz. at the rate of 12.6 per 1,000 of population, cholera, fever, and "other causes" caused the highest mortality in the following Municipalities:—

<i>Cholera.</i>			<i>Fever.</i>			<i>Other Causes.</i>		
		Ratio per mille.			Ratio per mille.			Ratio per mille.
Monghyr	...	7.2	Beaulah	...	31.5	Gya	...	19.8

			Purneah	...	24.3	Suburbs of Calcutta	...	13.6
						Puri	...	12.6

5. The mortality referable to *Sex, Class and Age* stood as follows:—

<i>According to Sex.</i>			<i>According to Class.</i>			<i>According to Age.</i>		
		Ratio per mille.			Ratio per mille.			Ratio per mille.
Males	...	24.2	Christians	...	34.8	Under 1 year	...	202.4

\* A special census of the Europeans in the Darling Municipality was recently taken, as the census of this section of the Community taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "Age," the ratios under which have been omitted, inasmuch as the census of the Europeans is attributed to census of the population as a basis of calculation owing to the results of this head not having been recorded under the authorized form of age classification.

## RESOLUTION ON THE ADMINISTRATION REPORT OF THE ORISSA DIVISION FOR THE YEAR 1886-87.

### GENERAL DEPARTMENT—MISCELLANEOUS.

*Calcutta, the 15th September 1887.*

#### RESOLUTION.

#### READ—

The General Administration Report of the Orissa Division for the year 1886-87.

The Commissioner Mr. C. T. Metcalfe, C.S.I., who submits the report for the year 1886-87, has been in charge of the Division since the end of 1884, but the changes among the district officers were unusually numerous in the year, in Cuttack five and in Pooree three changes of Collectors having occurred. Mr. R. Porch, Collector of Pooree, died early in the year.

2. *Annual tours.*—Mr. Metcalfe was absent from head-quarters for 130 days, a large number of which were spent in the Tributary States and the Khondmals. In Cuttack the tour of the District Officer fell short of the prescribed period by eight days, and this is excused by the frequent changes in the office of Collector. In Balasore also there was a deficiency of 15 days, for which Mr. Grant, who showed a decided want of activity, spending only 48 days in the interior during the ten months of his charge, must be held responsible. In Pooree Mr. Porch and Mr. Savage were in camp for 122 days. All the Sub-divisional Officers, except the Sub-divisional Officer of Jajpur, whose deficiency was due to illness, were on tour for 120 days or more. Mr. Davidson's tour in Bhuddruck was apparently particularly complete and well-planned.

3. *Weather and crops.*—During the year under report the rainfall was more copious and the outturn of crops larger in all three districts of the Division than in the preceding year. In Cuttack the outturn of the rice crop is said to have been larger than in any season during the last eight or ten years, but the *rabi* crops were damaged by untimely rain; in Pooree fair average crops are reported, and in Balasore the crops are said to have been very good. Estimates of the crops in annas are given for sub-divisions in the report, but the system of computation prescribed in the orders of the Government of India of 1885 does not appear to have been followed, and the attention of the Commissioner and of District Officers of this Division is drawn to those orders.

4. *Public health.*—There was a slight increase in the mortality reported in Balasore and Pooree, but a decrease in Cuttack; in the lastnamed district there was a marked decrease in the number of deaths from cholera. In Pooree public health was fair, and the increase in registered deaths is attributed to improved registration. In Balasore the prevalence of fever in the Bhuddruck sub-division, and an outbreak of cholera at Chandbally, account for the higher death-rate. The importance of taking steps towards improvement in sanitation at Chandbally and at Bhuddruck and Dharamsala and along the Grand Trunk Road is urged by the Commissioner, and the Lieutenant-Governor will be glad to receive definite proposals on the subject. The town of Pooree, in the sanitary conditions of which, to quote Mr. Metcalfe, the whole of Hindustan is interested, is at present particularly unhealthy both to natives and Europeans, and the first necessary step towards improvement appears to be to obtain for the town a better supply of pure water.

Vaccination operations were carried on extensively and with fair success in Cuttack, but in Pooree half of the small number of vaccinations were unsuccessful. In Balasore vaccination was confined to the municipality.

5. *Material condition of the people.*—On this subject Mr. Metcalfe writes as follows :—

“The material condition of the people was generally good throughout the Division, except a small portion of the districts of Cuttack and Balasore, which had been swept over by the sea-wave of September 1885. The calamity that befell the people who live on the sea coast was so great, and the damage suffered by them so serious, that it would be impossible to expect them to recover fully from the effect of it within the course of a year, but I may notice that the prompt measures taken to replace what they had lost were so well-planned and effective that the people have nearly got over all their difficulties and are now recovering their former condition rapidly.”

The price of common rice was lower than in the preceding year, averaging 17 seers, 20 seers, and 24 seers per rupee, respectively, in the head-quarter stations of Cuttack, Pooree, and Balasore. The rate of wages remained stationary, except in Balasore, where the wages of skilled carpenters, blacksmiths, and tailors appear to have fallen.

6. *Manufactures, Trade, and Commerce.*—Under the head of manufactures there is nothing worthy of note except the salt industry, and this the returns show to be in a declining state, the total quantity of locally manufactured salt sold on which duty was paid falling from 4,77,094 maunds to 2,35,657 maunds. This decrease is due to more strict supervision of the local manufacture on the transfer of the Salt Department to the management of the Madras authorities; the improvements introduced affected the prospects of making illicit profit at the expense of the Government revenue, and many of the manufacturers accordingly resigned their licenses. The Commissioner thinks that there is no reason why the manufacture should not revive on a sounder footing, but in the meantime a great impetus has been given to import of salt from Ganjam and Liverpool. In Balasore the imports of Liverpool salt during the year amounted to 1,43,397 maunds, or three times the quantity imported in the preceding year.

The aggregate value of the trade of the Orissa ports fell from Rs. 1,80,20,315 in 1885-86 to Rs. 1,52,50,814 in the year under review, or by 15.36 per cent. In the years 1883-85, there was an unusual advance caused by exceptional circumstances in sea-borne trade at all the ports, and although this has not been maintained, the figures for the present year for the Balasore ports, to which the trade of Cuttack has been diverted, compare favourably with those of earlier years. The passenger traffic at every port shows a steady increase since

1882-83, and owing to the increase in the number of steamers which ply between Calcutta and Chandbally, and to the keen competition for passengers, pilgrims were sometimes able to obtain passages last year at the rate of 8 annas per head only.

Regarding internal trade no statistics are available (except of the Orissa canals traffic which the Commissioner does not mention), but considerable development of this trade is noticed.

7. *Public feeling*.—Of local matters, the Pooree temple suit and questions of canal irrigation appear to have excited most general interest. On the former subject the Collector of Pooree writes that public opinion on the spot was to the effect that Government was fully justified in the course adopted. The assessment and collection of water-rates continued to cause considerable discontent in Cuttack, and this was aggravated during the year by the insufficient supply of canal water. The Jubilee of the Queen-Empress was celebrated in all the districts with much enthusiasm.

8. *Police and Crime*.—The conduct of the regular police, as shown by the decrease in the number of punishments, departmental and judicial, was good, but the actual results of their working were not very successful. The total number of cognizable and non-cognizable cases decreased from 12,738 to 11,783, but the percentage of convictions to arrest was under 60 per cent. in all the districts. In the Sessions Court the results of the Pooree district were worst, only 38 per cent. of the cases tried having resulted in convictions.

The condition of the rural police of this Division, who are still appointed and maintained under the old Regulation XX of 1817, is under the consideration of Government.

9. *Civil Justice*.—The figures under this head show very slight fluctuation in litigation for money, moveables, and titles. An improvement in the relations between landlord and tenant is argued from the very considerable decrease from 9,114 in 1885-86 to 7,516 during the past year in the number of rent suits. This decrease was general in every district, and in every class of rent proceedings, except execution cases in Cuttack, where an increase under this head is said by the Collector to have been probably caused by the lower selling price of rice on account of which the ryots had difficulty in satisfying decrees out of Court.

10. *Employment of Muhammadans*.—The information called for by Government on this subject was not fully supplied from any of the districts of the Division. The Commissioner thinks that in inferior service the number of Muhammadans is sufficient, but that more Muhammadans should be appointed on the occurrence of vacancies in superior service when qualified men are available. It is noticed that the percentage of Muhammadans at school as compared with Hindus continues to be greater in this Division than the population percentage, and that Muhammadans hold their own with Hindus in the departmental examinations. This is encouraging evidence of the gradual removal of what has always been considered to be the chief obstacle in the way of the advancement of Muhammadans in the service of Government.

11. *Land Revenue and Administration*.—The land revenue administration of the year was satisfactory. The percentage of total collections on the gross demand rose from 87·8 to 95·8, the balance at the close of the year was reduced from Rs. 2,12,240 to Rs. 70,696, and the results of khas tehsil were very much better than in the preceding year. Land registration, however, is still in arrear in Cuttack, and the disposal of partition cases did not, in any district of the Division, keep pace with institutions.

The forest revenue in Khoorda increased from Rs. 19,450 in 1885-86 to Rs. 20,424-1-6 in 1886-87, while the expenditure, it is satisfactory to observe, fell from Rs. 9,158 to Rs. 6,687-7-1.

12. *Stamps, Excise, and Income-tax*.—All the districts show an increase in the revenue from stamps, the divisional aggregate being Rs. 32,950 in advance of the results of the preceding year. The comparatively high average amount of fine imposed on convictions under the stamp law, viz. Rs. 28, appears to show that offences of this nature are properly dealt with. The total receipts from Excise advanced from Rs. 5,16,224 to Rs. 5,29,512, the increase being chiefly under the heads tari, opium, and ganja, while the revenue from

country spirits decreased. The income-tax collections amounted to Rs. 51,901 as against Rs. 36,581 realised in the preceding year from the license-tax.

13. *Irrigation*.—The state of the collections from irrigation works in Cuttack and Balasore requires the closest attention. Only 51 per cent. of the total demand was realised, and the following are the reasons stated by the Deputy Superintendent and quoted by the Commissioner for these unsatisfactory results :—

- (1) The want of power to enforce assessments ;
- (2) The leniency with which the certificate law was applied ; and
- (3) The unwillingness of lessees to pay assessment on unirrigated areas, and on areas on which the supply was deemed insufficient.

This subject will be separately considered in the Irrigation Department.

14. *Monetary arrangements*.—There was a considerable decrease in both the receipts and issues of currency notes in all the districts of the Division, and attention is called to an order, passed by the Accountant-General, which put a temporary stoppage to the encashment of notes at the Pooree Treasury. Enquiry will be made on this subject by the Financial Department.

The increase in the number and value both of money-orders issued and paid is ascribed to the facilities afforded by the Postal Department, and also to the introduction of the rules permitting payment of revenue by money-orders to the amount of Rs. 50.

15. *Roads and communications*.—No new roads were undertaken. In Cuttack and Pooree due attention appears to have been paid to repairs, but in Balasore more money is much wanted for the improvement of village communications.

The Commissioner's remarks with regard to the unpunctual running of the postal mails will be brought to the notice of the Postmaster-General.

16. *Education*.—The number of pupils in schools of all classes under the cognizance of the Department fell from 127,750 to 122,660, the loss being mainly confined to unaided pathsalas. The results of the University and departmental examinations were on the whole good. The Commissioner remarks that the increase of 6 girls' schools and 17 pupils indicates a hopelessly slow rate of progress in female education ; it is, however, so far satisfactory in that it shows no retrograde movement such as has occurred in other divisions.

17. *Local Committees and Conduct of Zemindars*.—Municipal Committees appear in Orissa, as in other divisions, to have had the largest share of success. Of the District Road Cess Committees, the best account is from Pooree, while the account from Cuttack is disappointing.

18. The Commissioner speaks favourably of the conduct of the zemindars of the Division, and makes special mention of acts of public liberality on the part of Raja Syamananda De Bahadoor, Baboo Rajaram Das, and Baboo Gobind Bullav Roy Mohasoy in Balasore in commemoration of Her Majesty's Jubilee, and of the general liberality of the Raja of Parikud in Pooree and of Rai Badyanath Pundit Bahadoor in Cuttack.

## RESOLUTION ON THE REPORT ON THE CHARITABLE DISPENSARIES IN BENGAL FOR THE YEAR 1886-87.

*Dated Darjeeling, the 1st November 1887.*

The Report for 1885 and the Resolution recorded thereon.

There does not appear to be any feature of particular importance in the administration of charitable dispensaries in Bengal during the year 1886. Perhaps the principal question which has presented itself for the consideration

of Government has been in connection with the method of recruitment of Assistant Surgeons for the Provincial establishment. Hitherto this has been done by transfers from the Imperial list, but the Lieutenant-Governor understands that the officers in the large supernumerary list which resulted from the old system under which, previous to 1883, Government undertook to provide for all passed candidates have now been absorbed; and the time has apparently arrived when recruitment should, as in case of Civil Hospital Assistants, be made locally from licentiates of the Medical Schools. Another question of considerable importance was alluded to in last year's Resolution, on perusal of Dr. Cowie's expression of opinion that the time had come when those desirous of studying medicine should be required to contribute more largely towards their education than is the rule at present. The Inspector-General of Civil Hospitals was invited to express more fully, and at an early date, his views regarding the propriety of increasing the fees paid by the recipients of Medical education in this province; but as the report was not submitted by him until the end of August, and as there is a considerable diversity of opinion among the officers consulted, it is impossible to refer further to the matter at present.

2. On the 31st December 1885 there were 233 dispensaries under Government supervision, and another was opened at Daudnugger, in the district of Gya, during the year under review. It is reported that only one dispensary has been transferred to municipal management, and that no institution has been abolished throughout 1886.

3. The following table compares the work done in dispensaries during the last two years:—

	IN-DOOR.										OUT-DOOR.									
	Under 25.	25 to 50.	50 to 75.	75 to 100.	100 to 250.	250 to 500.	500 to 750.	750 to 1,000.	Upwards of 1,000.	Total.	Under 250.	250 to 500.	500 to 750.	750 to 1,000.	1,000 to 2,500.	2,500 to 5,000.	5,000 to 7,500.	7,500 to 10,000.	Upwards of 10,000.	Total.

The total number of dispensaries which received in-door patients was 131 against 136 in the previous year, and there was a falling off in house-practice to the extent of 946 patients, while the ratio of mortality was 14'48 against 15'59 in 1885. The number of out-patients treated is, on the other hand, larger than that recorded in any year during the previous decade. There was also a large increase of 46,127 patients apparent in the returns of most districts in the total number of in-door and out-door cases treated at all the public charities in Bengal; but the figures continue to show that these institutions are not, as a rule, resorted to by the people as largely as might be wished; that the proportion of the population having recourse to them is still exceedingly low, and that the attendance at all but a few hospitals bears no relation to the presence or absence of epidemic disease in the different districts of the province. It is, however, gratifying to learn that in Dr. Cowie's opinion these charities are gaining in popularity, that there are apparently signs that the value of European medical science is being appreciated, and that more satisfactory work is being on the whole done.

4. Fair attention seems to have been paid to inspection by Civil Surgeons, and it is said that the reports submitted were carefully prepared and sufficiently searching. Six dispensaries were not inspected at all. This is an improvement on last year's return, but the Lieutenant-Governor trusts that in future all dispensaries in the province may be inspected. Supervision of the work done should in no case be limited to a perusal of the returns submitted by Civil Hospital Assistants, and regular inspection, a part of the duty of Civil Surgeons, which is clearly defined by the rules, ought invariably to be insisted upon. It is observed that, in spite of the remark made incidentally in paragraph 4 of last year's Resolution, the Inspector-General has again omitted to state how many institutions were inspected by himself during the year.

5. The total income and expenditure of the dispensaries during the year are shown below :—

Total expenditure			4,14,932	10	6
Cash balance on 31st December 1886	...	...	29,925	12	4

The opening balance on 1st January 1886, as shown above, is less by Rs. 2,728 than the closing balance of 1885 as given in that year's report. The explanation is somewhat confused, but the gist of it appears to be that an actual deficit was shown by six dispensaries.

6. The total receipts from Government amounted to Rs. 20,806 against Rs. 18,659 in the preceding year, Rs. 6,783 of the amount having been contributed to municipal dispensaries. After deduction, however, of the cost of registers and forms and diet of police cases, the contribution which Government makes to institutions that are now considered to be municipal is Rs. 4,164 in 1886 against Rs. 2,570 in 1885. The Government contribution towards the remaining dispensaries was Rs. 14,023, or Rs. 407 more than in the previous year.

7. The receipts from local sources amounted to Rs. 54,823 against Rs. 1,18,685 in 1885, the large decrease being due to the fact that last year the Monghyr dispensary alone received Rs. 68,000 as sale proceeds of house property belonging to that institution. Subscriptions to municipal institutions show a very large falling off, while those towards other institutions rose considerably, although not to the same extent. The amount received by the sale of securities and withdrawal of deposits was Rs. 23,542 against Rs. 25,389 in 1885, the interest on the investments reached the sum of Rs. 32,423 against Rs. 30,890, and municipalities contributed Rs. 1,58,492 against Rs. 1,43,574 in the preceding year.

8. The gross expenditure on dispensaries, exclusive of the amounts invested, was Rs. 3,85,575, showing a total decrease of Rs. 999, there being a rise under three heads and a falling off under the remaining three. Rupees 29,357 were invested during the year under review.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Offg. Chief Secy. to the Govt. of Bengal.

# RESOLUTION ON THE ADMINISTRATION REPORT OF THE REGISTRATION DEPARTMENT FOR THE YEAR 1886-87.

## RESOLUTION.

### REGISTRATION.

*Darjeeling, the 3rd November 1887.*

READ—

The Report on the Administration of the Registration Department for the year 1886-87.

Read also—

The Reports for the years 1884-85 and 1885-86, and the orders of Government recorded thereon.

Under the instructions contained in the Resolution of the Government of India, dated 15th July 1887, the Registration Report will not again be prepared in full until the year 1890, statistical returns and brief commentaries in the shape of notes being submitted in the intermediate years. The report now submitted is a practical illustration of the fact that it is not necessary every year to make detailed comments regarding minute variations in the numbers of different sorts of documents registered. The present report, however, is longer than that for last year, as the Inspector-General has fully considered the general effect of the Bengal Tenancy Act on registration.

The following table shows the number of registrations, receipts, expenditure, and number of registration offices during the years since 1880-81:—

YEARS.	NUMBER OF REGISTRATIONS.				Total receipts.	Total expenditure.	Surplus.	Number of registration offices.
	Affecting immoveable property.		Other registrations.	Total.				
	Compulsory.	Optional.						
1880-81	317,877	133,800	104,467	556,233	Rs. 9,16,681	Rs. 5,21,209	Rs. 3,95,472	207

Decrease	9,134	18,886	.....	25,362	56,692	4,091	52,601	.....

\* These figures include some deeds the registration of which has now become compulsory under the Bengal Tenancy Act.

There has thus been a decrease in operations and receipts, half the decrease in receipts being due to the High Court having cancelled, from the 1st October 1886, their rules requiring a search to be made before an application is filed for the sale of immoveable property under attachment in execution of a decree, with a view to ascertain whether the property is subject to any encumbrances.

2. *Registrations of all classes.*—The following table shows the registrations of different classes during the year as compared with 1885-86:—

	(A)—Compulsory.		1885-86.	1886-87.

(D).						
Number of wills registered					1,749	1,886
Ditto of written authorities					37	46
Grand Total of all Registrations					723,901	698,539

81·8 per cent. of the total registrations related to immoveable property against 82·52 in the previous year. The effect of section 54 of the Transfer of Property Act, 1882, and of sections 12 and 18 of the Bengal Tenancy Act, in making certain registrations compulsory was noticed last year. As the Government of India have only recently sanctioned the proposed alterations in statistical statements II and IV, the Inspector-General has continued to show such registrations as optional.

3. *Registration of leases.*—The total number of leases registered during the year under report and three previous years has been as follows:—

CLASS OF LEASE.	1885-86.	1884-85.	1885-86.	1886-87.
Perpetual leases (compulsory)	75,552	85,519	87,236	78,766
Leases for terms of years (compulsory)	154,571	175,045	180,939	180,840
Leases for one year or less (optional)	4,952	5,363	6,100	6,423

The decrease in perpetual leases is worthy of notice. As many as 61,982 were registered in the seven districts of Chittagong (20,437), Backergunge (10,438), Furreedpore (8,038), 24-Pergunnahs (6,727), Jessore (6,207), Noakhally (5,759), and Khulna (4,376). The reasons given for variations in different districts are inconsistent and contradictory. For instance, if landlords, as is stated to be the case in the 24-Pergunnahs, have generally accepted the position in which the Tenancy Act has placed them in regard to "settled" ryots, this fact would operate everywhere towards an increase of perpetual leases. The decrease is fully accounted for by the returns of three districts, viz, Chittagong, Noakhally and Jessore, in which the practice of subinfeudation has been carried to a great extent. It is partly nominal, owing to a change introduced in Jessore in the system of classifying leases for indefinite periods. So far as the decrease is real, it is attributed by two out of the three Registrars concerned, among other causes, to the operation of section 85 (2) of the Bengal Tenancy Act, which debars occupancy ryots from granting perpetual leases. The Inspector-General considers that even under the former law occupancy ryots had not the right to sublet in perpetuity; but he does not contradict the statement of the Registrar of Chittagong that, as a matter of fact, they did execute leases of this character in great numbers; and the registration returns would not be affected by any question as to the validity of the documents.

The number of term leases has remained almost stationary. The only fluctuation that deserves particular notice occurred in Chota Nagpore, where the number of such leases rose from 4,553 to 11,065, an increase of 143·02 per cent. This increase was due to the registration of 6,732 leases granted by the Court of Wards to the ryots of the Chota Nagpore Estate. The Inspector-General gives the explanations of Registrars regarding district variations, but he makes scarcely any comments on these explanations; and the same remark applies to the statistics given regarding the value of leases. Practically very little change has taken place in the proportion of leases to counterparts.

4. *Registered sales of estates, tenures, and ryotti holdings.*—Statement XII shows the number of estates and tenures transferred by registered deeds, and the classes of persons by whom they were purchased. Statement XIII gives similar information regarding ryotti holdings. The figures given in the report are unaccompanied by any comment, and no reason is assigned for the large decreases in the number of sales of revenue-free properties, and of intermediate tenures of all kinds. In the former case the numbers fell from 27,177 to 23,905, and in the latter from 29,885 to 26,336. The following statement

shows the number and classes of purchasers of ryotti holdings at fixed rates during the past two years:—

YEAR.	Trans- actions.	PURCHASERS.					Total purchasers.
		Mahajans, traders, or money- lenders.	Landlords of holdings transferred.	Other landlords.	Ryots.	Others.	
1885-86 ... ..	26,479	4,886	843	2,424	14,083	6,240	28,975
1886-87 ... ..	24,721	3,791	784	2,564	13,900	7,515	27,354

The Inspector-General does not attempt to assign any cause for the large decrease Ryots continued to be the principal purchasers, being 48·3 per cent. of the whole number. The total purchase-money shows an average 11·6 years' purchase against ten years' purchase in the previous year. The purchasers of ryotti holdings with rights of occupancy were as follows:—

	1885-86.	1886-87.
1. Mahajans, traders, or money-lenders ...	6,725	6,458
2. Landlords of the holdings transferred ...	1,186	1,060
3. Other landlords ... ..	3,155	3,315
4. Ryots ... ..	38,919	37,662
5. Others, including those unspecified ...	8,802	8,079
	<u>58,787</u>	<u>56,564</u>

No reason is assigned for the decrease.

5. *Deeds affecting immoveable property of less than Rs. 100 in value.*—Under this head there has been a decrease of 9·46 per cent. in deeds of sale, and of 6·8 per cent. in instruments of mortgage. An increase in Mymensingh and Chittagong is said to be due to the prevailing impression that, since the Tenancy Act came into force, no deed of sale is valid unless registered. The District Registrar of Chittagong further adds that it is very easy to get an unregistered deed set aside by the courts in favour of a deed subsequently executed and registered. These are causes from which one would be led to expect a general increase. The real reasons for a general decrease appear to be the increased solvency of the ryots, and the additional expense entailed by the Tenancy Act on account of landlord's fees and process fees.

6. *Effect of the Tenancy Act on registration.*—It is remarkable that the provisions of section 29 of the Bengal Tenancy Act, which require that contracts by which rents are enhanced must be in writing and registered, have not produced any appreciable effect on the returns. But perhaps it would have been unreasonable to have expected that any effect which the Act may produce in altering the rooted custom in this respect should be immediate. The Inspector-General considers that the restriction placed on sub-leasing by section 85 has reduced the number of registrations of such transactions, and this seems most probable. In requiring the registering officers to take the landlord's fees from persons registering documents by which sub-tenures are transferred, and to transmit these sums to District Collectors for the zemindars, the Act has imposed a novel and irksome duty on the department, not unattended with expense. The Registrars report unfavourably of the working of this provision, which they consider to be unpopular both with landlords and tenants. A similar representation has been received from the Board of Revenue. This portion of the law was framed mainly in the interests of the zemindars; and although there is some reason to believe that they are not altogether satisfied with its practical effect, they have not as yet intimated any desire for its repeal, a measure advocated by some officers of Government. This, however, is a matter that more nearly concerns the Revenue Department, and a copy of paragraphs 54-56 of the Inspector-General's Report will be communicated to that department.

7. *Bonds.*—Out of 125,188 instruments relating to moveable property. 89,795, or 71·72 per cent., were money bonds. As many as 29,314, or 32·64 of the whole, were registered in Jessore alone, the 24-Pergunnahs coming next with 8,612.

8. *Refusals to register, prosecutions, &c.*—There were 3,555 refusals to register against 3,689 in the previous year. There were only 370 appeals against these refusals, and registration was ordered in 215 cases. There were 58 prosecutions against 78 in the preceding year: of these, 39 were for making false statements and 23 for false personation: 1,974 deeds were impounded as compared with 2,192 in 1885-86. Stamps were adjudged insufficient in 1,526, correct in 298 cases, and 150 cases were pending at the close of the year. It is not stated if any prosecutions were instituted under the Stamp Act. Seventy-six deeds were discredited by Civil Courts, of which 32 were discredited on grounds connected with registration.

9. *Registration operations in different divisions.*—The following table shows the number of registrations and the fees realized in each of the different divisions of the Province:—

Division.				Registration.	Total fees realized.	Percentage of registrations on the whole.
					Rs.	
Presidency	...	...	...	164,210	2,51,081	23.51

Total				698,539	10,27,093*	100.00

\* Exclusive of the receipts and expenditure of the Registrar of Joint-Stock Companies and the Office of the Inspector-General of Registration. The total expenditure was Rs. 5,02,874.

As compared with last year, there was a decrease in the number of registrations in every division with the exception of the Rajshahye and the Chota Nagpore Divisions, and, as has been stated above, the increase in Chota Nagpore was due to an abnormal cause. The total expenditure during the year under report was Rs. 5,64,274 as compared with Rs. 5,68,365 in the preceding year.

10. *Registration offices and inspections.*—There were 300 offices open at the close of the year as compared with 292 at its commencement. Twelve sub-divisional sub-registry offices were converted into rural offices during the year, and a saving will be thereby caused to Government. The number of inspections was sufficient. It is not necessary to consider the remarks made as to the additional work thrown on registration offices by the Bengal Tenancy Act, as the Inspector-General is about to address Government separately on this matter. The proposal to levy registration fees by means of stamps is still under consideration.

11. *Operations under the Mahomedan Marriage Registration Act.*—The following table illustrates the working of the Act since its introduction:—

Years.	Number of districts in which the Act was in force.	Number of offices open on the 31st March last.	Number of marriages registered.	Number of divorces other than kholas registered.	Number of kholas registered.	Total number of ceremonies registered.

1884-85	14	112	3,913	2,540	957	7,410
1885-86	14	112	3,993	2,422	1,109	7,524
1886-87	14	112	3,926	2,179	1,147	7,252

The total number of ceremonies registered fell from 7,524 in 1885-86 to 7,252 in the year under review, the latter being the smallest number recorded since the introduction of the Act. In only four districts out of the fourteen in which the Act was in force was there an increase. Chittagong continues to head the list with 2,811 ceremonials registered; in two other districts the number exceeded 700; in one it exceeded 650, and in a fifth 500; while in none of the remaining five did the number amount to 400. In Nuddea the Act may be said to be all but inoperative, only six ceremonials (three marriages and three ordinary divorces) having been registered during the year. The decrease was in the number both of marriages and of ordinary divorces registered; whilst there was a small increase of 38 in the number of *kholas* registered. With three exceptions, the Registrars of the districts in which the Act is in operation agree that the measure is not popular, and that the village headmen and mollahs, and even the zemindars themselves, are opposed to it; even in Backergunge, where it is said to be popular, the latter classes are reported to be "passive, neither being in favour of the Act nor opposing it." It is stated that the people do not attach much importance to the system, and do not place much confidence in it; that well-to-do Mahomedans think it derogatory to resort to this method of registration; and that the system involves considerable trouble and expense to the parties, who consequently prefer to register their marriage deeds in the ordinary Registration Offices, more especially since *kabinnamahs* have been exempted from the payment of stamp duty. The want of local influence on the part of the persons who have been appointed to the office of Kazi is also mentioned as one of the causes of the unpopularity of the system. In this connection, it may be noted that one of the Marriage Registrars, who is a local Talukdar and Honorary Magistrate, and who consequently possesses some local influence, appears to have registered an unusually large number of ceremonials. Looking to these facts and figures, the Inspector-General of Registration is of opinion that, so long as the registration of Mahomedan marriages and divorces remains voluntary, the working of the Act will not be more satisfactory than it is at present unless, as in the case just cited, the Marriage Registrar happens to be a man of local influence. He thinks it would be advisable now to try, in some districts, the effect of making the Act compulsory. "This," Mr. Blyth observes, "would bring the fact of the existence of the Act more prominently before the people, and would compel them to accept the advantages which at present they do not care for or understand, while the expense on their part which would be involved would add but very little in the first instance to the sums which they at present waste on their ceremonials, and would ultimately save much money which would be otherwise spent in criminal cases, in connection with marriages or divorces." This matter has recently been under the consideration of Government in connection with a similar proposal submitted by Nawab Meer Mahomed Ali of Furreedpore. The Lieutenant-Governor then decided not to go back from the decision of his predecessor to give the revised rules a five years' trial, and that he could not propose compulsory legislation unless he found that there was a really unanimous call for it on the part of all sections of the Mahomedan community. Sir Steuart Bayley sees no reason to modify this decision.

12. Mr. Bourdillon was in charge of the Department in April and May, but, owing to ill-health, was not able to make any inspections. Mr. Collier was in charge for a short time. From the 19th July 1886 to the 25th February 1887 Mr. Blyth was in charge, and Mr. Bourdillon again for the remainder of the year. The number of inspections made by Mr Blyth (23) is perhaps hardly adequate; but it is an improvement on the number (21) made by his predecessor. Mr. Bourdillon was in charge for 11 months out of 1885-86, but Mr. Blyth has been in charge for only seven months of the year under report. The names of the officers specially noticed by the Inspector-General will be noted in the Appointment Department.

**RESOLUTION ON THE REPORT OF THE COMMITTEE FOR THE  
MANAGEMENT OF THE CALCUTTA ZOOLOGICAL GARDENS  
FOR THE YEAR 1886-87.**

REVENUE DEPARTMENT—MISCELLANEOUS (F).

*Calcutta, the 8th November 1887.*

READ—

The Report of the Committee for the Management of the Calcutta Zoological Gardens for the year 1886-87.

THE total income of the Gardens from all sources during 1886-87, including the Government grant of Rs. 20,000 and the opening balance of Rs. 6,938, amounted to Rs. 47,541 against Rs. 46,338 in the preceding year. The income from donations and subscriptions was Rs. 5,989, and entrance fees amounted to Rs. 7,141, against Rs. 2,946 and Rs. 7,664 respectively in the previous year: the receipts derived from the Fête and Fancy Fair were considerably less than were obtained under the same heads in 1885-86. The generous donation of Rs. 5,000 made to the Gardens by the Nawab Bahadur of Moorshedabad is especially to be noticed.

The expenditure for the year amounted to Rs. 40,650 against Rs. 39,406 in 1885-86. Establishment cost Rs. 9,148, food of animals Rs. 8,339, purchase of animals Rs. 1,550, transport of animals Rs. 2,616 (including Rs. 869, cost of sending a rhinoceros to the London Zoological Gardens), and construction and repair of buildings and roads Rs. 14,003. The opening balance of the year was Rs. 6,938. The closing balance was Rs. 6,891, but from this balance, the Committee had to meet liabilities to the extent of Rs. 5,622 on account of works undertaken in the latter part of the year. The necessity for strict economy of management therefore continues to exist.

The principal works undertaken during 1886-87 were the construction of an enclosure at a cost of Rs. 2,480 for a young hippopotamus, which was presented to the Gardens; the draining of the tank in the Buckland enclosure; the construction of a wooden bungalow for the Superintendent of the Gardens, and the reconstruction or improvement of servants' houses.

The number of visitors to the Gardens who paid entrance fees was 97,099, which was the lowest on record. The total for the preceding year was 108,944, and the average for the past six years has been 127,313. Besides the paying visitors, however, pupils from schools were admitted into the Gardens free of charge on many days, and on the 16th February 1887, the day of celebration of the Jubilee of the Queen-Empress, more than 5,000 children, with their teachers, from the various educational institutions of Calcutta and its Suburbs were admitted into the Gardens without charge.

The most important additions made to the menagerie were a Malayan tiger, an American bison, two lionesses, a pair of young lions, an ant-eater (South American), and an orang-outang (since dead). The list of animals presented during the year shows that the public continue to take interest in the Gardens. Several valuable animals died during the year; the principal losses being the young hippopotamus and the giraffe.

The Committee express regret that the funds at their disposal are inadequate for the maintenance of the Gardens in as satisfactory a condition as could be desired. In recent years the Committee's invested securities have been reduced from Rs. 20,000 to Rs. 4,800, and it is evident that the finances of the Gardens have to be carefully managed, and that all the pecuniary support which the public can give will be exceedingly welcome.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

RESOLUTION ON THE GENERAL ADMINISTRATION REPORT OF THE  
CHITTAGONG DIVISION FOR THE YEAR 1886-87.

GENERAL DEPARTMENT—MISCELLANEOUS.

Calcutta, the 8th November 1887.

RESOLUTION.

READ—

The General Administration Report of the Chittagong Division for the year 1886-87.

The Report is submitted by Mr. D. R. Lyall, who officiated as Commissioner throughout the year, with the exception of three months preceding the cold weather, when he was on privilege leave, and Mr. A. Manson acted for him.

2. Mr. Lyall and Mr. Manson were on tour for 81 days, and visited

Tours.

all the head-quarters and sub-divisional stations; 43 days were spent in the Hill Tracts. The District Officers' tours were sufficient, with the exception of that of the Collector of Noakholly, in whose case the deficiency appears to have been due to a change of officers during the camping season. The amount of touring done by the sub-divisional officers was also generally satisfactory, and some days were spent in camp by the Joint and Assistant Magistrates in Chittagong and Tipperah.

3. The rainfall was ample everywhere, and generally above the average.

Weather and crops and public health.

Tipperah suffered severely from floods, due more to the heavy rainfall in Cachar, Sylhet and Hill Tipperah and the consequent overflowing of the Megna, than to the fall in the district itself. In Brahmanbariah and the northern thanas of the Sudder sub-division part of the *aus* crop was totally destroyed, and the *amun* and jute also suffered to some extent. In Noakholly, Chittagong and the Hill Tracts crops generally were very good. The outturn of the division as a whole was, in the Officiating Commissioner's opinion, certainly an average one, if not rather above the average, and but for the floods in Tipperah, and for the ravages of rats in parts of the Hill Tracts, there would have been a bumper yield. The year is said to have been decidedly healthy in Chittagong, fairly healthy in the Hill Tracts, and normally healthy in Noakholly; in Tipperah an increase in the death-rate is ascribed to the long-continued floods. Chittagong was remarkably free from cholera, and the deaths registered from this disease in Noakholly were less numerous than in the preceding year; but in Tipperah the deaths from cholera increased. Mortality from small-pox was very small in this division, as in the preceding year; in the Chittagong district, which is as yet unprotected by vaccination, only one death was registered under this head.

4. The ordinary condition of the people of this division compares favour-

Material condition of the people.

ably with that of the inhabitants of other parts of these provinces, and the year under review was one of agricultural prosperity, except in the northern parts of the Tipperah district. The partial loss of the crops in the northern portion of Tipperah has been noticed above. This part of the district had suffered from deficient harvests in recent years, and since the beginning of the year the condition of the people has been carefully watched by the local officers. Charitable relief on a small scale was administered by the Government officers before the *amun* harvest of 1886 was reaped, and at the end of October the Commissioner visited the affected tracts. Mr. Lyall found that, while there were cases of individual distress, nothing like famine or even high prices was to be feared, and that labourers could not be got to work on the roads. Accounts of distress in parts of the district having been published in some of the newspapers, careful house-to-house enquiries were made by the Collector in May last, and he was able to report that no ground existed for serious anxiety. A full *boro* harvest was reaped: the *aus* crop harvested in July last was also very good. Throughout the division wages of labour continued to be high during the year. The price of common rice was lower than in the preceding year in Noakholly and in South

Tipperah, but was dearer in Chittagong and the Hill Tracts, and in the Brahmanbariah sub-division. In Brahmanbariah common rice was dearest in October, when it was sold at 14 seers 10 chuttacks, and cheapest in January, when it was sold at 19 seers 7 chuttacks per rupee.

Under the head of immigration and emigration, it is reported that 200 families of Ramburia Mughas sold their property in Arracan, and emigrated to Backergunge, travelling through Chittagong; the emigrants said that they were leaving Arracan on account of repeated failure of their crops caused by salt water. Emigration to the Hill Tracts is due to the efforts made to put down *jooming* in the Chittagong district, and Mr. Lyall, in describing the movement as being of considerable importance, says:—

“Three hundred and eighty-five persons (consisting of 91 Mughas, 138 Tipperahs, 66 Riangs, and 90 Chakmas) came from Hill Tipperah, and 123 (consisting of 7 Mughas, 46 Tipperahs, 2 Riangs and 68 Chakmas) went to that place. Twenty-three Mughas are also said to have gone to Chittagong. Many of the men who have come from Hill Tipperah left the Hill Tracts some seven years ago without notice, and are under the rules liable for joom-tax for the period of their absence. In some cases this has been realized in full, and in others in part; so it is quite clear they have strong reasons for wishing to come back.

“The facility men have for going to Hill Tipperah and *vice versa*, and thus eluding taxation in both countries, has my attention, and proposals will shortly be submitted on the subject. The usual cause of emigration is disputes with headmen and indebtedness.”

5. The total value of the trade of the Chittagong port rose from Manufacture, Trade and Com- Rs. 2,15,47,444 in 1884-85 and Rs. 2,08,11,093 merce. in 1885-86, to Rs. 2,30,73,318. The increase is entirely due to the jute trade, which was to some extent diverted to Calcutta in the previous year, by the temporary lowering of freights between Naraingunge and the metropolis, owing to the competition of the steamer companies. Mr. Lyall states that the battle between Calcutta and Chittagong for the Naraingunge jute trade has been now decided in favour of the latter; but he considers the freight to Chittagong too low, and mentions that it hardly pays the working expenses of the brig owners, so that a sufficient number of these vessels are not being built to replace those lost on the dangerous voyage. The export of tea increased in quantity from 956,732lbs. in 1885-86 to 1,034,995lbs., but the Custom-house valuation fell from Rs. 6,83,722 to Rs. 5,84,307. Nearly all the tea was dispatched to Calcutta, the direct exports to England amounting to 3,154lbs. only. The value of rice exported was Rs. 11,46,314, against Rs. 42,06,016 in the previous year. Several causes are given for the decline, but it seems superfluous to go beyond the statement that, owing to the loss of crops by the flood of the Megna, rice could be exported at a cheaper rate from other Indian ports. The chief exports—jute, tea, and rice—are balanced only to a small extent by the imports of salt, oil and piece-goods. The imports of salt seem irregular: they amounted to 22,153 tons in 1884-85, to 9,878 tons in 1885-86, and to 12,884 in 1886-87. The value of the oil imported from foreign ports was Rs. 2,36,139: it was nearly all kerosine, was entirely disposed of, and the trade is in a flourishing state. In the piece-good imports there was a decrease as shown in the following statement:—

				1885-86.	1886-87.	Decrease.
				Rs.	Rs.	Rs.
Yarn twist	...	...	...	1,93,532	1,84,537	8,995
Piece-goods	...	...	...	18,02,775	15,80,408	2,16,367

Mr. Lyall's review of the trade is valuable, but would be more useful if the facts had been brought together in a figured statement, showing the quantity and value of exports and imports of different staples.

6. The Jubilee of the Queen-Empress was celebrated with enthusiasm in every district. In regard to other matters there was no display of public feeling in Noakholly or the Hill Tracts; but in the Chittagong and Tipperah districts some interest in the Tenancy Act, amounting, however, only to a state of expectancy, and in Tipperah some stir in connection with Local Self-Government,

are noticed by the Commissioner. In the last-named district men's minds were chiefly occupied with the subject of the floods.

7. The Chittagong Division continues to be comparatively free from serious crime except arson, and the bulk of the criminal work consists of non-cognizable cases, which increased largely in number in Chittagong district on account of the misinterpretation by the Joint-Magistrate of orders of the Sessions Judge directing further enquiries into a number of cases which had been rejected, as equivalent to orders to issue process on every petition. There was an increase under the head of dacoities, which, however, are described as technical and not organised. Close attention should be paid by the Police and Magistrates to cases of fire-raising and threats of fire-raising which always present serious difficulties, and are not at present successfully dealt with in this division. The conduct of the regular police was, on the whole, good; but, as usual, little detective ability was displayed. The working of the Chowkidari Act was hindered by the want of a sufficient number of Magistrates.

8. Civil suits were more numerous than during the previous year in Chittagong and Noakholly, but fewer were instituted in Tipperah. In Chittagong a large proportion of the increase was due to suits of the Small Cause Court type in matters connected with trade. The number of rent-suits has risen in Chittagong by 9·6 per cent., in Noakholly by 78 per cent., and fallen in Tipperah by 5·8 per cent. The increase under this head in Chittagong, and the falling off in Tipperah, are alike ascribed to the effects of the Bengal Tenancy Act; but the Commissioner finds a more probable explanation of the decrease of litigation in Tipperah in the floods, which gave the people other things to think of, and on account of which landlords forbore to press their ryots. After all, the variations are in each case so slight as scarcely to require explanation, and the increase in the one district, as well as the falling off in the other, is not confined to rent suits, but extends to litigation of every class.

9. The current demand of Land Revenue for the division rose from Rs. 25,38,555 to Rs. 25,57,112, chiefly on account of re-settlements, and the percentage of collections improved, except in Tipperah, where there was a slight falling off, due to the heavy floods and the consequently impoverished state of the ryots; there was also a general improvement in arrear collections. The Lieutenant-Governor notices with much satisfaction the further improvement in the khas management of the Government mehals in Chittagong, the credit of which is due to Mr. Manson, who is successfully accomplishing what was at one time declared by Sir Henry Ricketts to be a hopeless task.

10. The total Excise Revenue of the division shows a falling off of Rs. 43,191, due, in Chittagong, where it is largest, to the decreased sale of opium in Cox's Bazar, the result of the decision of Government to place a limit on the sales in the sub-division, with a view to prevent smuggling into Arracan. From Stamps the revenue realized was Rs. 13,357 in advance of the preceding year. With regard to prosecutions for evasion of the Stamp Law, Mr. Lyall remarks that many officers, to judge from the wording of their decisions and the sentences inflicted, seem to think that the offender is worthy of sympathy, and that it is a hardship that he should be prosecuted at all. Sir Stuart Bayley trusts that such an error of judgment is not really very common among magisterial officers: in so far as it may be prevalent, the facts should be brought to the notice of Government in specific cases. The Income-tax demand for the division, as finally assessed, amounted to Rs. 88,773, as against Rs. 54,155 assessed under the License-tax Act in the preceding year. The unusual number of objections in the Chittagong district, and the considerable reductions in the original assessments both there and in Tipperah, are unsatisfactory. There was a large increase of revenue from the salt duty on account of larger imports to replenish stocks.

11. Roads are reported to be in good order in Noakholly, but to be exceedingly bad in Chittagong. In Tipperah the chief road of the district, which runs from Daudkandi to Comillah, suffered much from the floods. Mr. Lyall recurs throughout

his report to the advantages to be gained in the opening up of the division by construction of a railway. He thinks that such a project would readily be taken up by English capitalists if it had the recommendations of the Government of India. The project is at present the subject of correspondence between the Government of India and the Lieutenant-Governor of Bengal.

12. The returns of the Education Department show a very large increase in the numbers of schools and pupils in Chittagong, a considerable increase in Noakholly, and a considerable decrease in Tipperah. The increase in Chittagong is attributed to better supervision by a strengthened staff of Sub-Inspectors, and the decrease in Tipperah to the exclusion from the returns of schools not rewarded, and also to pupils being kept away from school by the floods. Mr. Lyall's remarks, to the effect that more distinct rules appear to be required with regard to inclusion of primary schools in the returns, will be brought to the notice of the Director of Public Instruction. As Mr. Lyall points out, the practice as to including or excluding primary schools which do not come up to a certain standard has varied in recent years, and this renders it difficult to test by the returns the progress made in this most important branch of education. Mr. Lyall considers that the returns should show all schools known to exist, those of an inferior class being distinguished, but not ignored. The remarks made in the report as to the doubts entertained as to the character of the returns of female education will be communicated for enquiry to the Director of Public Instruction.

13. Under the head of Committees, Mr. Lyall notices only Municipal Committees, and gives credit to the Municipal Commissioners generally for taking an interest in their duties, but, on the other hand he expresses an opinion that the conservancy of the town of Chittagong is not so well looked after as before the new Municipal Commissioners came into office.

The important zemindars of the division are for the most part non-resident, and nothing new is reported with regard to them. The public spirit and liberality of Faizunnissa Chowdhurani and her husband, and of the Nawab of Dacca, are favourably mentioned.

The statement of the number of Muhammadans employed in Government service shows that the orders of Government have received proper attention in this division, and it is satisfactory to learn that an increased determination on the part of Muhammadans not to linger behind their contemporaries is observed.

14. The Lieutenant-Governor thanks Mr. Lyall for his excellent report, which shows a thorough grasp of administrative questions, while it is at the same time concise. The remarks as to the conduct of officers will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

*Secretary to the Government of Bengal.*

# RESOLUTION ON THE BOARD'S REPORT ON THE LAND REVENUE ADMINISTRATION OF THE LOWER PROVINCES OF BENGAL FOR 1886-87.

## REVENUE DEPARTMENT—LAND REVENUE.

*Darjeeling, the November 1887.*

### RESOLUTION.

#### READ—

The Board's Report on the Land Revenue Administration of the Lower Provinces of Bengal for 1886-87.

The Report is submitted under the orders of Mr. Halliday, who, however, was in charge only for a short part of the period to which it refers. The Land Revenue Department of the Board was administered by Mr. Reynolds during the year, and the Land Acquisition and Partition Departments by Mr. Cockerell, with intervals in each case of absence on leave of no great length.

#### Land Revenue Demand.

2. The current demand on account of the four classes into which estates are divided is shown below—

CLASS OF ESTATE.	CURRENT DEMAND.	
	1885-86.	1886-87.
	Ra.	Ra.
Permanently settled estates	3,22,99,680	3,22,97,484
Temporarily ditto	27,14,912	27,26,304
Government estates	21,97,439	22,36,201
Ryotwari tracts	8,21,318	8,35,309
Total	3,80,33,379	3,80,95,298
Increase during the year	Rs. 61,919	

It was noticed in the Resolution on the Report of the previous year that there was a diminution in the rate of development of the land revenue, owing to the greater moderation now exercised in enhancing rents, and the greater readiness to reduce them when they are found to be excessive. This tendency continued to be felt during 1886-87, the increment being less than half that which was annually gained on the average of the years before 1884-85. It is, however, somewhat in excess of the increase during the last two years; and in future it is probable that the elasticity of this branch of the revenue will be maintained by the more active policy which it is proposed to adopt in the matter of surveys and re-settlements. To the current demand of Rs. 3,80,95,298 must be added an arrear of Rs. 25,13,482, making the total demand Rs. 4,06,08,780.

3. The remissions, which amounted to Rs. 1,77,733, or '43 on the demand, include corrections in the accounts made by cancelling double assessments on the same lands, and similar alterations having the effect of excluding sums never due, but which were entered by mistake. Under orders recently issued by Government, these changes will not hereafter be shown as remissions. The remissions made by Government voluntarily, classified as "of grace," amounted to Rs. 83,390, as against Rs. 38,072 in 1884-85, and Rs. 56,458 in 1885-86. In so far as the increased remissions are due to concessions granted to ryots on account of poverty, or exceptional misfortunes, such as the destruction of crops in low lands by salt water from the Satpukuria khal, in the 24-Pergunnahs, they command the entire approval of the Lieutenant-Governor. Indeed discriminating and prompt remissions in such cases are not only of the greatest service to the ryots, but are also in the long run advantageous to the revenue. But it would seem that even in this class of remissions are included some items which should more properly appear under other heads in the account. Further information will be requested as to the sum of Rs. 6,668 said to have been remitted in Midnapore on account of Barua allowance, of the five per cent. remissions to the mundals of estate Boita, and of the annual remission of Rs. 1,478 "on account of over-assessment of certain

tenants of the Cuttack khas mehal." Payments to mundals and others should not ordinarily be entered as remissions, and a remission made every year on account of original over-assessment seems to imply the necessity of reducing the demand.

4. In the Resolution on last year's Report the Lieutenant-Governor was compelled to notice a general falling off in the work of revenue collections, which was not satisfactorily explained; and certain instances of apparent remissness were indicated. Attention was subsequently drawn by the Government of India to the expediency of making the collections during the year 1886-87 as complete as possible. Sir Stuart Bayley is glad to observe that the instructions issued have been followed by a general improvement in the results obtained. The receipts during the year amounted to Rs. 3,84,07,773, and thus compares favourably with the current demand of Rs. 3,80,95,298. There has been, therefore, a considerable decrease in the outstanding balances, as appears from the following statement:—

CLASS OF ESTATE.	Current demand of 1886-87. Rs.	BALANCES.	
		1885-86. Rs.	1886-87. Rs.
Permanently settled estates...	3,22,97,484	9,03,603	7,87,572
Temporarily ditto ...	27,26,304	5,10,711	4,97,438
Government estates ..	22,36,201	9,59,385	6,50,442
Ryotwari tracts ...	8,35,309	82,187	87,822
Total ...	3,80,95,298	24,55,886	20,23,274

Diminution of balances during 1886-87 ... Rs. 4 32,612

The Board attribute the improvement to the greater attention paid by revenue officers to this part of their work under the stimulus of the instructions of Government. This is eminently satisfactory, and the acknowledgments of the Lieutenant-Governor are due to the officers to whose exertions the change is due. But it is to be observed that the improvement has not been universal, and that, if it is to be maintained, adequate notice must be taken of cases in which failure has occurred, and no satisfactory explanation is forthcoming. Sir Stuart Bayley entirely agrees with the Board that the explanation of the Collector of Patna is not to the point, and will be glad to receive in due course a full statement of the reasons why, in that district, collections amounted only to 88 per cent. of the gross demand, and the balances have increased from Rs. 1,44,022 to Rs. 1,92,340. In some other instances, also, the explanations submitted are imperfect, and indicate that the arrangements for collection were not made with due care and forethought. Thus, it is said that in Lohardugga the work was unfavourably affected by the fact of there having been no tehsildar for five months of the year, and that in Furreedpore the short collection is due to the settlement of estates with retrospective effect—statements which only throw the necessity for explanation one step further back, by suggesting that those responsible for the revenue did not take proper measures to secure the appointment of a tehsildar, and to make the settlement of estates in proper time. The interval between the close of the financial year and the date of the submission of the annual report is sufficient to enable the Board to clear up such matters in most cases, and the Lieutenant-Governor hopes that in future the explanations given will be of such a character as to indicate whether blame does or does not attach to the officers concerned.

5. Taking the results obtained on estates of different classes separately, it may be remarked that the power of revenue officers to expedite collections on permanently-settled estates is almost confined to those under the management of the Court of Wards, and on these the outstanding balance has decreased from Rs. 1,52,659 at the end of 1885-86 to Rs. 1,12,803—an improvement attributed by the Board to the orders issued on the subject by Government. This matter was commented on in last year's Resolution, and will be referred to again in the review of the Court of Wards' report; but the Lieutenant-Governor cannot accept the degree of progress made during the year as altogether satisfactory. On temporarily-settled estates there has been a considerable improvement with regard to those held by farmers, and the disappointing

results on those managed direct owing to the recusancy of proprietors, are in great part attributable to the large reductions made by orders of Government on the Majnunutta and Jellamutta estates. These reductions, however, should have taken place from the 16th September 1885, under the orders contained in Government letter No. 1874T—R, dated 12th October 1885, and it is not understood why they had not been effected up to the end of the year 1886-87. The reduction of balances has been most marked on Government estates, the outstandings on which have been reduced from Rs. 9,51,385 to Rs. 6,50,442, the collections being 102·6 per cent. on the current demand. But, on the other hand, the balances have slightly increased on ryotwari tracts, owing to a falling off in the collections in two districts, Julpigoree and Lohardugga, very inadequately explained.

6. The realizations of road cess were also in excess of the current demand, and there has been a diminution of Rs. 77,219 in the outstanding balances. Similar results were obtained in Midnapore and Shahabad in regard to water-rates, and it seems probable that collections were everywhere facilitated by the favourable agricultural results of the year, although this is not stated by the Board. In Sarun, where the demand is very small, and in Orissa, the water-rate collections were bad owing to special causes.

7. The financial results of the direct management of Government and other estates during the year must be pronounced satisfactory. The annual rental shows an increase of over one lakh and a quarter: it now amounts to Rs. 28,98,803, and the collections were in excess of this sum, being Rs. 29,63,798. The percentage of collections to rental during the last ten years has been on the average 99·5 per cent.; so that, although there has always been an outstanding balance of considerable amount, the actual income has during the period been very little less than the demand. The cost of management during the year was 7·3 per cent. on the demand, against 7·1 per cent. in the previous year. The large number of these estates (they amount to 1,617), and the fact that many of them have become Government property because they were in so declining a state as to be unable to pay the revenue assessed, renders it most difficult to introduce generally a system of management which can be considered satisfactory in every respect, and the Lieutenant-Governor hopes that all revenue officers will interest themselves in securing the best results obtainable under the circumstances by making such ameliorations as it may be within their power to carry out. The sum available for improvements, roads, and education being small (it was this year Rs. 58,174), there is the more reason to see that it is economically and judiciously spent. The Board's report gives some account of the distribution of the funds assigned for these purposes, but does not afford the information necessary for forming any opinion as to whether the best use has been made of the money. The agency of the Director of Agriculture may in future be used for the supervision of such expenditure, as also for considering and summarising reports as to the results of agricultural experiments tried on Government estates.

8. The Lieutenant-Governor notices with pleasure that the experimental Payment of land revenue by money-orders. measure of permitting in two divisions the payment of small demands on account of land revenue by postal money-orders has proved a success, and he has lately authorized its extension to the province generally. The system is convenient to those who live at a distance from the district head-quarters, or who have reason to dread any exaction or detention at the treasury. Its operation should be attentively watched with a view to the introduction of any improvement in detail which experience may indicate as desirable. It is noticed that out of 6,682 money-orders received during the year, 111 were rejected as not giving full particulars, or as out of time; and in the necessity for making such rejections may possibly be found the chief obstacle to the working of the system. Every effort should be made to prevent such an incident as the sale of an estate for arrears of revenue in consequence of the rejection of a money-order on technical grounds. The Bengal Tenancy Act empowers the Local Government to make rules, either generally or for any specified local area, authorizing tenants to send

tenants of the Cuttack khas mehal." Payments to mundals and others should not ordinarily be entered as remissions, and a remission made every year on account of original over-assessment seems to imply the necessity of reducing the demand.

4. In the Resolution on last year's Report the Lieutenant-Governor was compelled to notice a general falling off in the work of revenue collections, which was not satisfactorily explained; and certain instances of apparent remissness were indicated. Attention was subsequently drawn by the Government of India to the expediency of making the collections during the year 1886-87 as complete as possible. Sir Steuart Bayley is glad to observe that the instructions issued have been followed by a general improvement in the results obtained. The receipts during the year amounted to Rs. 3,84,07,773, and thus compares favourably with the current demand of Rs. 3,80,95,298. There has been, therefore, a considerable decrease in the outstanding balances, as appears from the following statement :—

CLASS OF ESTATE.	Current demand of 1886-87. Rs.	BALANCES.	
		1885-86. Rs.	1886-87. Rs.

Diminution of balances during 1886-87 ... Rs. 4 32,612

The Board attribute the improvement to the greater attention paid by revenue officers to this part of their work under the stimulus of the instructions of Government. This is eminently satisfactory, and the acknowledgments of the Lieutenant-Governor are due to the officers to whose exertions the change is due. But it is to be observed that the improvement has not been universal, and that, if it is to be maintained, adequate notice must be taken of cases in which failure has occurred, and no satisfactory explanation is forthcoming. Sir Steuart Bayley entirely agrees with the Board that the explanation of the Collector of Patna is not to the point, and will be glad to receive in due course a full statement of the reasons why, in that district, collections amounted only to 58 per cent. of the gross demand, and the balances have increased from Rs. 1,44,022 to Rs. 1,92,340. In some other instances, also, the explanations submitted are imperfect, and indicate that the arrangements for collection were not made with due care and forethought. Thus, it is said that in Lohardugga the work was unfavourably affected by the fact of there having been no tehsildar for five months of the year, and that in Furreedpore the short collection is due to the settlement of estates with retrospective effect—statements which only throw the necessity for explanation one step further back, by suggesting that those responsible for the revenue did not take proper measures to secure the appointment of a tehsildar, and to make the settlement of estates in proper time. The interval between the close of the financial year and the date of the submission of the annual report is sufficient to enable the Board to clear up such matters in most cases, and the Lieutenant-Governor hopes that in future the explanations given will be of such a character as to indicate whether blame does or does not attach to the officers concerned.

5. Taking the results obtained on estates of different classes separately, it may be remarked that the power of revenue officers to expedite collections on permanently-settled estates is almost confined to those under the management of the Court of Wards, and on these the outstanding balance has decreased from Rs. 1,52,659 at the end of 1885-86 to Rs. 1,12,803—an improvement attributed by the Board to the orders issued on the subject by Government. This matter was commented on in last year's Resolution, and will be referred to again in the review of the Court of Wards' report; but the Lieutenant-Governor cannot accept the degree of progress made during the year as altogether satisfactory. On temporarily-settled estates there has been a considerable improvement with regard to those held by farmers, and the disappointing

results on those managed direct owing to the recusancy of proprietors, are in great part attributable to the large reductions made by orders of Government on the Majumutta and Jellamutta estates. These reductions, however, should have taken place from the 16th September 1885, under the orders contained in Government letter No. 1874T.—R, dated 12th October 1885, and it is not understood why they had not been effected up to the end of the year 1886-87. The reduction of balances has been most marked on Government estates, the outstandings on which have been reduced from Rs. 9,51,385 to Rs. 6,50,442, the collections being 102·6 per cent. on the current demand. But, on the other hand, the balances have slightly increased on ryotwari tracts, owing to a falling off in the collections in two districts, Julpigoree and Lohardugga, very inadequately explained.

6. The realizations of road cess were also in excess of the current demand, and there has been a diminution of Rs. 77,219 in the outstanding balances. Similar results were obtained in Midnapore and Shahabad in regard to water-rates, and it seems probable that collections were everywhere facilitated by the favourable agricultural results of the year, although this is not stated by the Board. In Sarun, where the demand is very small, and in Orissa, the water-rate collections were bad owing to special causes.

7. The financial results of the direct management of Government and other estates during the year must be pronounced satisfactory. The annual rental shows an increase of over one lakh and a quarter: it now amounts to Rs. 28,58,803, and the collections were in excess of this sum, being Rs. 29,63,798. The percentage of collections to rental during the last ten years has been on the average 99·5 per cent.; so that, although there has always been an outstanding balance of considerable amount, the actual income has during the period been very little less than the demand. The cost of management during the year was 7·3 per cent. on the demand, against 7·1 per cent. in the previous year. The large number of these estates (they amount to 1,617), and the fact that many of them have become Government property because they were in so declining a state as to be unable to pay the revenue assessed, renders it most difficult to introduce generally a system of management which can be considered satisfactory in every respect, and the Lieutenant-Governor hopes that all revenue officers will interest themselves in securing the best results obtainable under the circumstances by making such ameliorations as it may be within their power to carry out. The sum available for improvements, roads, and education being small (it was this year Rs. 58,174), there is the more reason to see that it is economically and judiciously spent. The Board's report gives some account of the distribution of the funds assigned for these purposes, but does not afford the information necessary for forming any opinion as to whether the best use has been made of the money. The agency of the Director of Agriculture may in future be used for the supervision of such expenditure, as also for considering and summarising reports as to the results of agricultural experiments tried on Government estates.

8. The Lieutenant-Governor notices with pleasure that the experimental Payment of land revenue by money-orders. measure of permitting in two divisions the payment of small demands on account of land revenue by postal money-orders has proved a success, and he has lately authorized its extension to the province generally. The system is convenient to those who live at a distance from the district head-quarters, or who have reason to dread any exaction or detention at the treasury. Its operation should be attentively watched with a view to the introduction of any improvement in detail which experience may indicate as desirable. It is noticed that out of 6,682 money-orders received during the year, 111 were rejected as not giving full particulars, or as out of time; and in the necessity for making such rejections may possibly be found the chief obstacle to the working of the system. Every effort should be made to prevent such an incident as the sale of an estate for arrears of revenue in consequence of the rejection of a money-order on technical grounds. The Bengal Tenancy Act empowers the Local Government to make rules, either generally or for any specified local area, authorizing tenants to send

their rent by postal money-orders, and the Lieutenant-Governor proposes to consider the advisability of exercising this power as soon as the working of the system on the wider scale now sanctioned in regard to revenue has been ascertained. In observing and regulating the payment of revenue by postal money-orders, Collectors should not overlook its bearing on this important proposal.

9 The revision of the survey in Midnapore, completed during the year at a cost of Rs. 5,20,351, forcibly indicates the necessity of doing such work in the first instance through a competent department in such a manner as to avoid these costly and unsatisfactory revisions. The money has been in great part spent in correcting errors and omissions which should never have occurred in the original survey and settlement proceedings.

10. The report of the Board does not indicate whether work of this class is promptly and efficiently dealt with, but there seems to be reason for believing that there is considerable room for improvement. From Appendix V of last year's report it appears that 1,535 cases remained for disposal at the end of 1885-86, and the corresponding table in the present report shows only 812 as disposed of during 1886-87. Of the settlements effected, 191 were summary and on these there has been little or no increase of revenue, while 1,215 cases are entered as pending at the end of the year. The failure to complete the work was not due to want of funds, as it is stated that out of Rs. 1,17,380 assigned in the budget for settlements, only Rs. 58,027 were spent. In the absence of explanation, these figures would seem to indicate, what the Lieutenant-Governor understands to be in many instances the fact, that timely arrangements are not systematically made before the expiration of current settlements for their renewal, with the result that summary settlements have to be effected while measurement work is in progress, and sometimes even retrospective settlements. One instance is given in the Board's report of a settlement made with five years' retrospective effect, and it is added that, as might have been expected, the ryots ask for remission on the ground of limitation. The Lieutenant-Governor would be glad to receive a special report showing the present practice in this respect; and in particular indicating with regard to the 463 re-settlements effected in 1886-87 in what number of cases any interval occurred between the expiry of the last regular engagement (as distinguished from mere summary settlements) and the execution of that at present in force, with any suggestion that the Board may wish to offer for effecting an improvement in this respect. It is obvious that if as the figures would seem to indicate, the majority of re-settlements are not arranged for beforehand, but remain pending even after the year in which they expire, there must be a considerable sacrifice of revenue during the interval.

11. The work of initial registration under Act VII (B.C.) of 1876 which remained to be done at the end of the previous year in certain districts was so small, and it has been pending so long, that it is not clear why it was not finished during 1886-87. It is hoped that it will be finally disposed of during the current year. These remarks do not apply to the Cuttack district, as to the large amount of cases still pending in which special orders will shortly issue. The number of applications for changes in the register on account of successions by inheritance is very small when compared with that of entries, and cannot be reconciled with the average death-rate. Thus in the Presidency Division there were only 621 successions out of 62,724 interests registered, or less than one per cent. Rules designed to secure more complete registration have been drafted and are still under consideration; but in order to secure the advantage of a complete record of proprietary titles, it may ultimately be necessary to have recourse to legislation.

12. The number of estates which became liable to sale during the year for arrears of revenue was 14,456, of which 1,859 were in fact sold, against 1,770 in the preceding year. The Board consider that the law has been worked with moderation, if anything with too great leniency, and quote the opinions of the Collectors of

Midnapore and Backergunge, to the effect that too great indulgence has been exercised. The law and the Government orders in force on the subject leave to Collectors a discretion in the matter which the Lieutenant-Governor expects them to exercise with care and discrimination, and he certainly is not disposed to approve any recurrence to the practice condemned by his predecessors and by the Board, of selling estates for very trifling or for obviously accidental arrears. A reference to these orders will, however, show that they by no means compel a Collector to accept all arrears tendered after the latest day fixed by law for payment. The Board may with advantage enquire as to the statement of the Collector of Shahabad that sales in his district are in part attributable to the unsuitability of the dates fixed for the payment of revenue, although it does not appear how the 28th March, almost at the end of the financial year, can be an inconvenient period for paying a public demand.

13. The report of the Board shows that 7,364 acres were acquired for public purposes during the year at a cost of Rs. 4,99,888, or about Rs. 68 an acre. This is a branch of the administration which requires very careful supervision to prevent undue delay, particularly where extra establishments are employed, and the payment of excessive prices. The report does not indicate how far the Board has been successful in these respects.

14. The number of certificates filed during the year was 177,618 against 199,262 in 1885-86, and the disposals exceeded the institutions, so that the balance pending was less at the end of the year than at its commencement. So far the working of this department was satisfactory; but, on the other hand, the number of cases in which it was necessary to proceed to the actual sale of property increased from 6,284 to 9,112. Sir Stuart Bayley was struck during his tour by the great and unexplained variations between the numbers of certificates filed in different districts. No department of the administration needs more careful supervision than this, to prevent on the one hand the loss of Government dues by the failure to file necessary certificates, and on the other harsh and careless proceedings, in which legal steps are taken at great cost to the defendants for the recovery of small dues which could have been obtained on demand judicially made, or after a short delay.

15. The Board properly observe that the time which has elapsed since the Bengal Tenancy Act came into operation in November 1885 has not been sufficiently long to admit of a decided expression of opinion as to the working of a measure of such importance, and add that "it is doubtful whether its provisions are as yet sufficiently appreciated either by the zemindars or the ryots; even where they are understood, there is, as might be expected, a feeling of hesitation on either side to have free recourse to them." The effects of the Act on its first introduction are not, however, without importance, even if they afford a very uncertain indication of its ultimate success, and the Lieutenant-Governor is glad to learn that the local officers, whose opinions on the subject were originally very diverse, are now for the most part unanimous in accepting the measure as an improvement. The only exception to this view of the general operation of the Act mentioned by the Board concerns Chittagong, a district in which special conditions prevail. Even in this instance the objection to the working of the Act is not supported by the Board, and does not appear to be founded on actual experience of its operation. Applications have been received from the Collector of Balasore in Cuttack, and the Deputy Commissioner of Lohardugga in Chota Nagpore, for the extension of the Act to these districts, and the latter was supported by the Commissioner, and by a petition signed by persons of position. Sir Stuart Bayley has, however, no present intention of introducing the Act in Orissa, and intends to await further reports as to its working before taking any final action on the communication from Lohardugga. The views of the Board on the working of the measure are expressed in very guarded language, which would be applicable to most laws, as to the policy of enacting which there has been much discussion. "It may be said generally," the Board remark, "that if the fears of its opponents

have not been realized, neither, on the other hand, has it proved an immediate panacea for all the difficulties which surround the relations between landlord and tenant." It is stated in the report that, generally speaking, existing relations between landlord and tenant have improved during the year; and though many cases are specified in which there have been serious differences, these do not alter the opinion expressed by the Board as to the direction in which events have on the whole tended. Some of the worst disputes have occurred in the Chota Nagpore Division, where the Act is not in force

16. The introduction of a new form of receipt, in which the landlord is bound to specify the area and annual rental of the holding, if he is in a position to do so, is the part of the Act which has produced the most immediate and striking impression. Its ultimate object is of very great importance, being no less than the removal of the principal grievance of the ryots, and the main difficulty of courts in deciding suits for arrears, namely, the uncertainty which almost everywhere exists as to the rents which are actually in force. That this object cannot be easily attained is proved by the failure of successive enactments on the subject for the best part of a century; and there was considerable apprehension that the somewhat drastic provisions of the new law might lead at their first introduction to very serious complications. At one time it seemed as if this fear might be in some measure realized; and, as noticed in the Resolution on last year's report, the Lieutenant-Governor found it necessary to direct the Board to issue a circular to Collectors calling on them to explain to the ryots the real significance of the Act in this respect. The Board state that misunderstandings and complaints on the subject have since subsided, and this is evidently the fact, taking the province as a whole; but the Collector of Backergunge thinks that there is still some difficulty in making the ryots understand the point, and recommends a verbal change in the form of receipt in order to make it more clear to them. A further report will be required on this subject.

17. With regard to the extent to which the new receipt forms have been introduced, it is observed that over four and a half million were sold by Government during the year, and that as private presses sell at cheaper rates, they have presumably done a much larger business. Manuscript forms are, moreover, as valid in law as those printed, and must be frequently used. It seems, therefore, that very considerable progress has been made; and perhaps this is as much as could have been fairly expected under all the circumstances of the case. The Collector of Dinagapore states that the knowledge that the ryot is bound to pay nothing but what is entered on the receipt is now generally widespread; the Collector of Furreedpore that the printed forms have done much to prevent fraud; the Collector of Mymensing that they are making their way, but slowly; the Collector of Bhagulpore that "the operation of the Act in its most important provision, namely, the issue of proper receipts, has been more extensive than I could have hoped for at this time last year." Even the statement of the Joint-Magistrate of Mozufferpore, that complaints are frequent that the landlords do not give receipts for rent, is in one respect hopeful, as if this old abuse has now become a subject of general complaint, it is the more likely to be remedied. On the other hand, it is equally evident from the reports that the use of the receipts is by no means universal. Probably they are not as yet given in the majority of cases. It is possible that as the novelty of the Act wears off they may fall into disuse, and that further remedial measures may be necessary; but the weight of opinion seems to be on the side of those who anticipate that the forms will by degrees receive the sanction of general custom. As to the statement made in the Mozufferpore report, that receipt forms for rent have in some cases been used as a lever of enhancement, by inducing the ryots to accept a document upon which an enhanced rental has been entered, it is observed that the forms were not expected to prevent enhancement with the consent of the tenants, nor could they do so in the nature of things; and that under the old law an enhanced rent would with equal or greater facility have been entered on any receipts which the ryots might have been willing to accept. This statement is, however, made not as an objection to the law as to receipts, but as an argument in favour of supplementing its provisions by a record of rights.

18. The following table has been prepared by the Board to show the working of certain sections of the Act which immediately concern revenue officers:—

1	2	3	4	5	6	7	8	9	10	11	12

The Hon'ble Judges of the High Court have consented to supply Collectors with returns of the litigation under the Act in Civil Courts, and these should be embodied in future reports. The most numerous transactions were the issue of notices, and payments of landlords' fees in respect to the transfers of tenures, under which heading is also included transfers of ryots' holdings at fixed rates, and it is doubtful how far the result of this provision of the law has been advantageous. At first some administrative difficulties were felt in carrying out the prescribed procedure, but these have since been surmounted. It is said that there is a general feeling of repugnance on the part of landlords to accept the fees, and should this continue it will constitute a more serious objection to the continuance of a provision of the law to which no importance is attached in the interests of the ryots.

19. The Commissioner of the Presidency Division supports a proposal that in future price-lists of staples, prepared with a view to the future determination of rent-rates, shall be prepared monthly instead of fortnightly. The opinion of the Board will be solicited on this suggestion, which receives some countenance from the fact that no one has hitherto shown a practical interest in these lists, when locally published as required by the Act, by lodging an objection under section 39(3). It is of course possible that the subject may excite more attention hereafter as the important, though remote, consequences of inaccuracies in these statements come to be more fully understood.

20. The Lieutenant-Governor attaches much importance to prompt compliance with reasonable applications from landlords or tenants for surveys and the preparation of records of right. It is not stated why three such applications made in the Presidency Division were refused, and it does not appear that the work has been commenced in any case, except in one in which the Board were themselves the applicants in their capacity as the Court of Wards. This affords a sufficient explanation of the fact that only 25 cases were instituted during the year, and it seems unnecessary to assume, as the Board do, that landlords have been deterred from making more numerous applications by the elaborate and expensive character of a procedure which is certainly more summary and cheap than any process of ascertaining and fixing rents which has hitherto been in force in Bengal. Indeed it is somewhat remarkable that under the circumstances twenty-five such applications should have been received. During the winter which has now commenced several surveys of this kind will be taken in hand, notably that of the Srinagar and Banaili Raj estates, which extend over an area of half a million acres. No suitable opportunity should be lost of complying with the applications of those interested in land for surveys to be made at their expense. It is only after those concerned have observed the effects of such operations that any general recourse can be expected to the means afforded by the new law for securing a settlement of all agrarian disputes.

21. The report of this interesting survey has not as yet been received by the Government of Bengal, and detailed comments seem unnecessary on the abstract given by the Board. It is stated that, without the help of the Bengal Tenancy Act, a very large proportion of the Behar ryots would not have been able to prove the possession of occupancy rights, and it follows that in litigation they could have derived no advantage from any claim they might advance to such rights. Before the Settlement Officer more than 90 per cent. of the cultivators established their claim to that position, or to one superior. This indicates an effect of the Act which, though it cannot be felt immediately, must have the greatest ultimate importance, namely, the establishment of the great body of the ryots in full legal possession of a privileged position, to which they had formerly a moral and customary claim, without being able to prove their title before a Court.

22. The Lieutenant-Governor cannot consider as satisfactory the account given of the extent to which the junior members of the Civil Service were instructed in survey work. It is by no means sufficient to make over to such an officer cases which may include measurement byamins: he should, where it can be arranged, have the advantage of the teaching of an expert in the field. Still less can the experience acquired during the year by an officer of over fourteen years' standing be accepted as an illustration of the training of a junior. The surveys which will during the ensuing cold season be carried out under the supervision of the Director of the Agricultural Department will afford the means of giving such training, and the Board will be requested to report how these opportunities can best be utilized.

23. The Lieutenant-Governor has much pleasure in acknowledging the valuable services rendered during the year by the Hon'ble Mr. Reynolds, C.S.I., Mr. Cockerell, C.S.I., and Mr. Halliday, as Members of the Board. The remarks of the Board as to the good conduct of certain revenue officers will be communicated to the Appointment Department.

## ANNUAL REPORT ON THE WORKING OF THE JUTE WAREHOUSE AND FIRE-BRIGADE ACT IN THE HOWRAH MUNICIPALITY DURING THE YEAR 1886-87.

The following is published for general information.

COLMAN MACAULAY,  
*Secretary to the Govt. of Bengal.*

No. 11T, dated Burdwan, the 15th October 1887.

From—E. V. WESTMACOTT, Esq., Offg. Commissioner of the Burdwan Division,  
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit a printed copy of the Annual Report on the working of the Jute Warehouse and Fire-Brigade Act within the Howrah Municipality during the year 1886-87.

2. The Municipal Commissioners have paid Rs. 4,320 to the Commissioner of Police, Calcutta. Of this sum, Rs. 200 were due as the outstanding balance of the year 1885-86, and the remaining Rs. 4,120 represent 80 per cent. of the fees realized during the year under report. But as Rs. 20 were realized by the Municipal Commissioners as fines, 80 per cent. of that amount, equivalent to Rs. 16, should also be paid to the Commissioner of Police under section 17 of the Act.

### THE JUTE WAREHOUSE AND FIRE-BRIGADE ACT. ANNUAL REPORT FOR 1886-87.

I HAVE the honour to report on the working of the Licensed Warehouse and Fire-Brigade Act in this Municipality for the official year ending 31st March 1887.

There were 21 jute warehouses licensed during the year, showing a decrease of three warehouses which were petty ones, and the owners did not use them. There was, however, a large screw-house and warehouses established belonging to Messrs. Guzdar & Co., which only worked during the latter months of the year.

A classed list of warehouses which were licensed during the year is given in Appendix I.

The total receipts amounted to Rs. 5,150, as in last year, from license fees only, and from prosecutions Rs. 20, which is given in Appendix II. The above figures show no falling off.

The following is the expenditure in the inspection of warehouses during the year:—

## Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 5th November 1887.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.</b>			
<i>Western Districts.</i>			
<b>BURDWAN DIV.</b>	1 Burdwan, Nov. 5, '87	Nil	Weather—cloudy for the greater part of week, now bright and cool. <i>Amun</i> rice prospects improved by rain in Cutwa, where they have hitherto been worst. Prospects fair elsewhere, but more rain wanted. Price of rice slightly higher in Kaneeunge, stationary in Culna, and lower elsewhere. Fever prevalent.
	Culna ...	0.09	
	Cutwa ...	0.90	
	Kaneeunge ...	Nil	
	2 Bankoora „ 5, '87	Nil	Cold weather has set in. Prospects of winter crops continue unfavourable. <i>Rabbi</i> sowings are nearly finished. Prices continue stationary. Public health good.
<b>PRESIDENCY DIV.</b>	3 Beerbhoom „ 5, '87	Nil	Weather—days clear, nights cool. Harvest of winter rice has commenced. Upland rice is being irrigated where possible. There will be a poor outturn where irrigation is not possible for the high lands. There is much low fever in the district. Prices are stationary and not high.
	4 Midnapur „ 5, '87	0.14	Weather—dull and heavy. Crops good. Some fever in Ghatal.
	5 Hooghly „ 5, „	Nil	Weather—seasonable. In the Jehanabad sub-division and in two thanas of Serampore winter rice requires more rain to mature. The crop will be below the average in this district. Other crops are doing well. Public health good for the time of the year.
	Howrah „ 7, '87	0.07	Cold weather has fairly set in. <i>Rabbi</i> sowings in progress. Sugarcane and <i>amun</i> rice good. More rain wanted on high lands in thana Juggutbullupur. Public health fair.
	<i>Central Districts.</i>		
<b>PRESIDENCY DIV.</b>	6 24-Perghs. Nov. 8, '87	0.31	Weather—clear and cool. A slight fall of rain this week. <i>Amun</i> expected to be a 12-anna crop for the district. Lands being ploughed for cold-weather crops. Public health generally good.
	7 Nuddea „ 5, „	Nil	Weather—seasonable, but cloudy and at times sultry. Prospects of <i>amun</i> and sugarcane continue good. Tillage for winter crops in good progress. Fever continues prevalent, but abating in parts; in other respects general health good.
	8 Khoolna „ 5, '87	0.31	Weather windy with rain in the first part of week: since then fine. <i>Amun</i> crop suffered a little from the wind, but generally it is in good condition. Sowing of winter crops continues. Public health good.
	9 Jessore „ 5, „	0.13	Weather—cool and cloudy. <i>Amun</i> being harvested in some places. Prospects good. Sowing of winter crops going on. Fever still continues in the Jhenidah sub-division and cholera reported from the Magurah station.

CHITTAGONG DIVN.	22 Chittagong, Nov. 8, '87	4.29	Weather—seasonable. Prospects of crops fair. Cholera still reported; public health otherwise good. Prices stationary.
	23 Noakholly „ 4, „	5.15	Weather—rainy. This week's rainfall will do much good to <i>amun</i> crop. Public health fair.
	24 Feni „ „	2.74	Weather—getting cool and seasonable. Prospects of crops satisfactory. Some rain has fallen and has done much good to paddy on high lands.
	25 Tipperah „ 3, „	0.85	Weather—cloudy with drizzling rain in the latter part of the week. Rain has damaged cotton to some extent, but has improved the condition of plough-paddy and other cold-weather crops.
	Chittagong Hill Tracts „ 1, „	0.50	Weather—getting cold. Prospects of rice crop improved by rain. Cotton crop ripening; sufficient return expected. Sugarcane doing well. Public health good.
<b>BEHAR.</b>			
PATNA DIVN.	26 Patna „ 5, '87	Nil	Weather—clear and cool. Sowing of <i>rabbi</i> still going on. <i>Rahar</i> , cotton, wheat, barley and gram doing well. Poppy sowing also progressing. Public health good.
	27 Gya „ 5, „	Nil	Weather—fair. Paddy has suffered to a large extent for want of rain. <i>Rabbi</i> is still being sown. Sowing of poppy has just commenced. Fever is still reported. Cholera reported from one or two thanas only.
	28 Shahabad „ 5, „	Nil	Weather—seasonable. Paddy crop doing well; in places it is coming into ear. <i>Rabbi</i> is still being sown. Prospects continue satisfactory. Public health generally good; some cholera reported from Sasseram.
	29 Darbhunga „ 5, „	Nil	Weather—getting cool. Prospects of <i>aghani</i> rice continue very favourable. <i>Rabbi</i> sowings are in progress. Tobacco looks promising. Prices remain stationary. Public health generally good.
	3 Mozufferpur „ 5, „	Nil	Weather—fine and rainless. Much of the rice has come into ear. <i>Rabbi</i> crops are mostly above ground. Prospects good. Fever rather prevalent.
	3 Samaul „ 5, „	Nil	Weather—fair. Mornings and evenings cool, days still warm for the time of the year. <i>Aghani</i> paddy in ear. <i>Rabbi</i> sowings almost completed; early sowings coming on well. Poppy sowings going on. Prospects of crops continue favourable. Public health on the whole good.
BAGULPORE DIVN.	32 Chumparun „ 5, „	Nil	Weather—mornings and evenings pleasantly cool. Prospects of crops favourable. Sowing of <i>rabbi</i> crops is being pushed on. Paddy in ear. Fever prevalent to a small extent; public health otherwise good.
	33 Monghyr „ 5, „	Nil	Weather—fine and seasonable. <i>Rabbi</i> sowings still going on, and whatever has germinated looks well. Prospects of winter rice continue favourable. Public health generally good. Prices stationary.
	34 Bagulpur „ 5, „	Nil	Weather—seasonable. <i>Rabbi</i> sowings going on steadily. Prospects of late rice very fair generally. About two annas of the crop in the Banka sub-division have suffered from a disease called <i>chickori</i> .
	35 Purneah „ 5, „	Nil	Weather—cool. Prospects of crops good.
	36 Maidah „ 5, „	Nil	Weather—seasonable. Prospects of crops favourable. Fever still prevalent. Common rice selling at an average of 23 seers per rupee.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore .003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0.8° lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

# SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATION TAKEN IN BEHAR, AND OF THE METEOROLOGICAL OBSERVATION TAKEN IN ASSAM, FOR THE MONTH OF OCTOBER 1887.

OCTOBER is the month in which, as a rule, the south-west monsoon entirely retreats from the province of Bengal, and its place is taken by the north-east monsoon, which slowly and gradually establishes itself over the province. The south-west monsoon, in its gradual retreat southwards, is followed by the northerly wind current, and over the area of interaction light and variable winds prevail. As this interaction in normal years takes place for a portion of the month over Bengal, winds over the province are usually light and variable; but as the south-west monsoon retreats over the Bay, conditions become favourable for the formation of cyclonic storms, and it is in October that the largest and the most cyclones are formed; for during this month most of the conditions are favourable for the production of an extensive scale. These storms differ widely in different years in their nature and in their line of march, and they sometimes travel towards Bengal, and in some cases they cross the peninsula and pass into the Arabian Sea.

The general rainfall, due to the continuance of the south-west monsoon over Bengal, usually ceases during the first and second weeks in October, but even after this time local showers may fall. After the second week of October any rainfall which is brought to Bengal is usually due to the formation and movement of cyclonic storms in the Bay, and it will evidently depend on the direction of their march and on the nature of such storms whether any rain at all is received in the latter half of October; and if any is received, the amounts will vary with the nature of the storm.

The rainfall of October in normal years is consequently due to two distinct causes, and as the second is, from its nature, an extremely variable and uncertain one, the average distribution of rainfall in October is decidedly more irregular than in the previous monsoon months, and also in any particular year its actual distribution may be of an extremely capricious character. The normal distribution of rainfall in October can therefore only be described with approximate accuracy. The average rainfall in Behar (with the exception of the Purneah and North Bhagulpore districts) and Chutia Nagpur (excluding the districts bordering on South-West Bengal) varies from two and a half to four inches. The amount is least in the Gya district. Rainfall varies from four to six inches in the case of the previously excepted districts, the western districts of Orissa, and the whole of Bengal, excluding the Julpigoree district, and a narrow strip extending along the coast and bounded on the north by a curved line running through Cuttack, Jajpore, Diamond Harbour, Port Canning, Chandpore and Chittagong. Over this long narrow area, the width of which varies from 20 to 60 miles, the average rainfall exceeds six inches. It is absolutely greatest at False Point, and there equals 11.4 inches.

The principal features to be considered, therefore, in the meteorology of October, are the date of the gradual retreat of the south-west monsoon from the province, and the nature and the direction of movement of the cyclonic storms formed in the Bay.

*Meteorology of the month.*—It was noticed in the report for September that the south-west monsoon blowing over the province in that month had been weak, and that the current had diminished in strength more rapidly and much earlier than usual, and that from about the 27th of September the south-west monsoon winds had almost ceased to blow over Bengal.

At the commencement of October, therefore, the meteorological conditions over the province were distinctly those which mark the close of the rainy season in Bengal, and the commencement of the transition conditions which obtain up to the time of the complete setting in of the north-east monsoon of the cold-weather period. Dry north-westerly winds were blowing over the greater part of the province, and in fact the only districts in which southerly and south-easterly winds still continued to blow were at the extreme easterly stations of East and North Bengal and in Assam. Humidity had become very low at the western stations, and cloud proportion had also become small, generally, over the whole province. Northerly and north-westerly winds were also blowing over a considerable part of the northern half of the Bay, though in the south a fairly strong south-west monsoon current still prevailed. These conditions continued practically unchanged during the first four or five days of the month, though at the western and northern stations wind directions changed somewhat, and became in many cases north-easterly. On the 5th and 6th winds became lighter and more variable in direction than they had hitherto been, and on the 7th a certain number of stations showed southerly winds, and there was evidence of a considerable amount of interaction taking place over the province, which caused conditions to become more favourable for rainfall. The greater part of the whole province during this period was practically rainless, except for a few local showers of little or no importance; but on the 7th rainfall was fairly general in the 24-Pergunnahs and Khoolna districts in South-West Bengal, while showers were more numerous over a considerable part of the remainder of the province. These disturbed conditions in South Bengal were probably induced by the formation of a small cyclonic storm in the south of the Bay, slight indications of which were shown on the 7th by a fairly complete cyclonic circulation over the centre and south of the Bay, and by the strengthening of the winds at Galle and Diamond Island. This storm afterwards developed slightly, and on the 8th it was approaching the Madras coast, which it crossed on the 9th, subsequently travelling across the entire peninsula and passing into the Arabian Sea. This storm will be described more at length under the head of cyclonic storms of the month.

This sudden storm gave heavy rain to the Madras coast as it passed over the land, and with the indraught towards the retreating storm, rather strong gusty winds set in along the east coast of the Bay. From the reports received on the morning of the 10th, the area of heavy rainfall then appeared to extend along the coast from Gopalsore down to Madras, but the following day the humid winds advanced somewhat in a northerly direction, and on a morning of the 11th the reports showed that the area of heavy rainfall had advanced to Gan Point, while the southern limit was Cocanada. On the 12th the reports again showed that the moisture-laden current had advanced further northward, and the area of heavy rain extended from Sangoor Island down to Cocanada. The moist current having thus reached the Bengal, it then commenced to spread slowly over the interior of the province. The system blowing over Bengal became first strongly easterly, and then the northerly current gradually disappeared. On the 12th winds had become easterly and south-easterly over the greater part of the province, and by the close of the week scarcely any stations reported northerly winds.

The effect of the formation and movement of the cyclonic storm above described was soon to cause the south-west monsoon winds to temporarily establish themselves over the whole of Bengal, and thus good general rain was again reported over the whole of the province. During the formation and advance of the storm, conditions in Bengal as a whole became somewhat disturbed, and rain showers, more or less local, were reported from many districts, but the actual monsoon current came up later, and the heavy rainfall commenced in the Orissa Division from about the 10th; in South-West Bengal and Chutia Nagpur the general rain commenced on the 11th and 12th; and finally in East and North Bengal, and in Behar, the general heavy rainfall usually commenced on the 13th and 14th instant, and as a general rule the rainfall continued up to about the 15th or 16th of the month.

The meteorology of this period was therefore extremely important, probably more important to the province than any period since the commencement of the monsoon, for good general and rather heavy rainfall was given to the province at a period when it was extremely important and was most urgently needed.

On October 15th and 16th the moist south-easterly and easterly winds blowing over the province commenced to be driven back by a dry westerly and north-westerly current, and from the 17th light northerly winds blew over the whole province and rainfall practically ceased. Conditions therefore became settled, humidity, cloud proportion, and temperature decreased, and conditions were similar to those which usually usher in the cold weather season in Bengal. Winds were, however, rather light and irregular in direction at first, though cloud proportion and humidity were low and temperature was distinctly falling. On the 22nd winds became decidedly more northerly than they had been, and northerly winds were reported till nearly the close of the month. Temperature also began to fall rather rapidly, so that the mean temperature of the 23rd was at some of the western stations  $4^{\circ}$  and  $5^{\circ}$  below the normal. A further rather rapid fall of temperature took place later on, and in the observations reported on the 26th, the mean temperature was shown to be no less than  $9.5^{\circ}$  in defect of the normal at Berhampore and  $8.5^{\circ}$  below at Raneegunge. The defect exceeded  $7^{\circ}$  at Rampore Beaulah; at Burdwan, Dinapore, and Dhubri the defects exceeded  $6^{\circ}$ , and at Furruckpore and Rungpore they exceeded  $5^{\circ}$ . At the same time also humidity became decidedly low, and at 10 A.M. of the 25th, at Ranchi, the saturation of the air with moisture was only 23 per cent. and at Hazaribagh only 24 per cent. of the possible amount. The sky also became practically cloudless over the greater part of the province, except on the 26th, when it clouded over locally in parts of South-West and North Bengal, and a few local showers were reported on this day from the Burdwan, Bankoora, Beerbhoom, Moorshedabad, Rajshahye, Dinapore, and Rungpore districts. With the exception of these light local showers, the whole province was practically rainless during the period 21st to the 26th, which was thus characterized by the gradual establishment of the north-east monsoon conditions over the greater part of Bengal, accompanied by the continuance of comparatively high pressure, and with a decidedly rapid reduction of temperature; skies also cleared and humidity decreased.

But while these conditions gradually became established in Bengal, in the south of the Bay the south-west monsoon still continued to blow; rather heavy rain was received along the Madras coast, and strong winds and rather squally weather generally prevailed, and it was evident that a decided barometric depression or feeble cyclonic storm was forming in the south-west of the Bay. On October 29th a distinct barometric depression was situated off the south Madras coast; on the 30th it had moved in a northerly direction and was nearly opposite Madras; and on the 31st it had advanced towards the coast a little to the north of Madras, but in its advance towards the land it commenced to fill up, and at the same time became more diffused, giving unsettled conditions over the whole of the Bay. On the 31st therefore conditions commenced to change in Orissa and parts of South Bengal, skies clouded over rapidly and rainfall became general in Orissa, though only showers were reported in South Bengal.

The principal features of interest therefore in the month were the unusually early retreat of the south-west monsoon current from Bengal, and second, the formation of the two cyclonic storms in the Bay, the description of which, taken mainly from the weekly reports, is as follows:

**Cyclonic storms of the month.**—Storm of October 8th to the 11th. At the commencement of the month northerly winds were generally blowing in Bengal, though in the centre and south of the Bay the south-west monsoon was still blowing, and on the 5th and 6th conditions became somewhat disturbed over this area as evidenced by the strengthening of the winds at Galle. On Friday, the 7th, in addition to moderately strong winds, which were blow-

ing at Galle and at Diamond Island, there was a well marked cyclonic circulation of wind over the centre and south of the Bay, though there was still no distinct evidence to show that any definite cyclonic storm had formed. On the 8th pressure fell slightly at Madras, though it was rising at all other stations in the south of the Bay; the cyclonic circulation of wind over this area became more strongly marked, and winds strengthened considerably, particularly at Diamond Island.

It was therefore evident that a small cyclonic storm had formed to the west of the centre of the Bay, and immediately on receipt of the 10 A.M. observations on this day, following telegram was despatched to the Port Officers at Madras and Masulipatam, and to the important coast stations as far north as Gopulpore—"Baromet. depression for west of centre of Bay, probably off Masulipatam and Madras coasts. It may develop into heavy rain and squally weather to west coast. Please telegraph any important changes." The storm was on this day apparently not very far from the coast to the west of Madras, for it reached the land early on Sunday morning, the 9th instant, the centre crossing the coast probably at 7 or 8 A.M. about 30 to 40 miles to the north of Madras between this station and Masulipatam, and at 10 A.M. of this day the centre was well in and about this distance to the north-west of Madras. So far as the observations which have been received up to the present time show, the lowest pressure recorded at Madras by Port Officer during the passage of the storm was about 29.4 inches. The storm was not very violent one, though it gave strong winds or perhaps a gale of wind at Madras and far north as Coconada and Vizagapatam. It also gave heavy rain along the coast, and Madras received 6.23 inches on the morning of the 9th.

As the storm was evidently crossing the Peninsula, the following telegram was sent off on receipt of the 10 A.M. observations of the 9th to the Meteorological Reporter to the Government of Bombay to the following effect:—"Small cyclonic storm crossed coast near Madras; movement westerly," and the Port Officers at the stations previously named, except Madras, were informed that the storm was passing inland north of Madras.

The storm then travelled slowly in a north-westerly or west-north-westerly direction, and on the morning of the 10th it had almost crossed the peninsula, and the centre of the cyclonic wind circulation was a little to the south-east of Belgau. The storm therefore advanced along almost precisely the same track as that of the storm of the second week of November 1886, which passed over the Western Ghats and advanced by a curved track over the Arabian Sea to the Beluchistan coast. On the 11th the storm had crossed the coast and had passed into the Arabian Sea, and it had practically ceased to affect the land area.

*Small storm of October 27th to 31st.*—Up till about the 25th or 26th of the month light northerly winds were blowing over the greater part of the Bay, but on the 26th and 27th squally weather and strong winds commenced in the south-eastern part of the Bay. It is probable on the 27th that a definite barometric depression had formed, which then drifted in a westerly direction and commenced to make itself felt off the south Madras coast on the 29th, when its centre was probably opposite the coast between Madras and Negapatam. On the 30th it was almost opposite Madras, and on the 31st it was to the north-east of Madras, but as it approached the land it filled up and became more diffused, and afterwards quite ceased to exist as a distinct storm, though it gave rise to a large disturbance, which produced squally unsettled weather over a large part of the Bay. It was never an intense and concentrated storm, but rather of a diffused nature, and the disturbed conditions brought by it extended over a large area of the Bay and of the coast. It gave strong winds to all the coast stations from Vizagapatam southwards, while heavy rain also fell at many stations. Directly the storm approached the south Madras coast that, is, on the morning of the 29th, warnings of the existence of the barometric depression were issued to the Port Officers at Madras, and at all important ports to the south of that station, together with the statement that the storm was not an intense one; and on the 30th the Port Officers at the stations from Vizagapatam down to Madras were informed that the storm was almost opposite Madras, while the Port Officers at the stations south of Madras were informed of the northerly movement of the depression.

*Pressure.*—The changes in the distribution of pressure during the month have not been of very great importance. For the first week pressure was in excess of the normal, the mean excess equalling 0.008 inch. During the second week pressure rose decidedly rapidly, and the mean pressure became in excess of the normal by 0.078 inch. In the third week the excess had become rather smaller and only equalled 0.048 inch, while for the fourth week the excess had again rather increased, and pressure was above the normal by 0.065 inch. The mean pressure for the whole province of Bengal for October was therefore very decidedly in excess of the normal, and taking only those stations into consideration from which observations have been received for many years, and which therefore yield reliable averages, pressure in this month was in excess of the normal by 0.046 inch. The distribution of the excess pressure was also rather uniform, for the minimum excess was 0.035 inch at Calcutta, and the maximum 0.058 inch at Durbhanga. In Assam during October pressure was in excess of the normal by an average amount of 0.061 inch.

*Temperature.*—The most important feature in the distribution of temperature during the month was the very rapid fall which took place during the last week, when, as stated in the Meteorological Summary at some stations, temperature became largely below the normal for the period. During the first week in October temperature was in excess of the normal by 1.2°. During the second week the excess was neutralized, and a defect of 0.2° was established; in the third week the defect had increased to 1.7°, and in the fourth week

The defect was again 1.7°. For the whole month the average temperature was therefore below the normal. The defect was largest in South Behar, where it was 1.9°, in South-West Bengal the defect was 0.9°, in North Behar 0.8°, in North Bengal 0.7°, in East Bengal and Chutia Nagpur the defect was 0.5°, and in Orissa 0.3°. For the whole of Bengal therefore the mean temperature of the month was 0.7° in defect of the normal. In Assam the mean temperature was much more nearly normal, and the defect was only from about 0.1° to 0.3°.

**Rainfall.**—The rainfall of October appears to be an illustration of the fact that at certain seasons of the year the distribution of the rain with reference to time is quite as important as its quantity, and thus though the general rainfall of the whole of Bengal has averaged more than about 79 per cent. of the amount which normally falls in October, the rain came just when the conditions were becoming rather critical, the smaller fall was far more good than would have been the case had it fallen earlier in the month, or if it had been distributed evenly over the month, or if it had fallen quite at the end of the month. The rainfall, though really very considerably deficient in quantity, appears to have been more valuable than would be expected by the statement that the actual fall was more than four-fifths of the usual amount. During the first week of October the average fall of rain over the whole province did not equal more than about a tenth of an inch; in the second week the average fall equalled about two and a half inches; in the third week there was an average fall of about three quarters of an inch; and in the fourth week rainfall was practically absent, though again on the last day of the month rain commenced to fall at the extreme southern stations in the province.

During October rainfall was heaviest in North Behar, which received an average amount of 4.6 inches falling on four days; this amount is 1.08 inches in excess of the usual fall in October, and therefore the fall has been equal to 181 per cent. of the normal amount. In East Bengal the average fall in the month has been 4.84 inches on 5.6 days; this fall is 1.18 inches smaller than the normal, and thus this district has only received 79 per cent. of the normal. North Bengal has received rain on an average of 5.4 days, and the amount was 3.63 inches, or 1.06 inches smaller than the normal, the percentage fall in North Bengal is therefore 77. Orissa has received an average rainfall of 8.60 inches on 5.8 days; the actual fall is no less than 2.7 inches smaller than the normal, and the fall is therefore only 57 per cent. of the normal quantity. South-West Bengal has received 3.27 inches of rain falling on 5.6 days; this is 1.16 inches smaller than the normal October fall, and thus this district has only received 88 per cent. of the usual amount. South Behar has received an average fall of 3.14 inches on 3.7 days, which is only 0.19 inch less than the usual amount, and the percentage fall has been 94. Finally, in Chutia Nagpur there has been an average rainfall of only 1.46 inches, which is 1.78 inches less than the normal, and the percentage fall is therefore only 45.

The following table, which includes some of the above figures, gives a comparison between the actual monthly and total rainfall and the normal rainfall of the province up to the end of October, in the same form that has been employed in previous monthly abstracts of the present year. The figures represent the ratio of the rainfall of each month of the present year to the normal rainfall expressed as a percentage. The table thus gives a condensed summary of the rainfall data of the year for each meteorological division. The first ten columns give the percentage amount of rainfall received in each month, and the last column the percentage rainfall of the whole period from the 1st of January to the end of October:—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	Actual rainfall of first ten months expressed as a percentage of the normal fall for the period.
Orissa	119	Nil	137	80	133	66	91	83	59	63	82
South-West Bengal	233	3	233	2	120	83	103	70	86	74	93
East Bengal	613	14	306	34	151	79	84	71	58	70	77
North Bengal	530	3	274	114	151	139	83	97	88	77	106
North Behar	331	Nil	237	109	177	135	89	111	75	131	104
South Behar	411	Nil	263	133	433	70	83	83	79	94	101
Chutia Nagpur	600	Nil	10	111	331	73	93	90	71	45	93

For the whole of the year up to the end of October North Bengal and Behar have received falls up to or slightly exceeding the normal; South-West Bengal and Chutia Nagpur have received falls less than the normal by about 7 and 8 per cent.; Orissa has received a fall about 19 per cent. in defect, while in East Bengal the average fall has been only slightly more than three-fourths of the usual quantity.

Taking up the rainfall of October rather more in detail, the actual falls vary from about ten inches in the extreme north-west of Behar (Bagaha), on the coast of Orissa (False Point), and in the extreme south-east of the province (Harishpore), to a fall of less than half an inch at the following stations:—Anda and Gangejalghati in the Bankoora district, Rajauli (Gya district), and Jhoomra Hills and Ramghar in the Hazaribagh district. The following districts have received less than one inch of rain during the month:—a large part of the Singhbhum district, parts of the Hazaribagh and Gya districts, a considerable part

of the Bankoora district, part of the Midnapore district, and parts of the Bhagulpore and Sonthal Pergunnahs districts.

When compared with the normal fall, it is seen that there are two areas of distinct excess—the one including the greater part of North Behar (excluding parts of the Bhagulpore and the greater part of the Purneah district), and parts of South Behar represented by the Shahabad and Patna districts; and the second represented by a tract of country of various width running almost north and south through the centre of Bengal and including parts of the following districts:—Dinapore, Maldah, Sonthal Pergunnahs, Rajshahye, Moorshedabad, Nuddea, Jessore, and Khoolna. The remainder of the province is practically all defect, and over considerable areas the defects are as large as three inches, and even vary up to five inches. These areas comprise considerable parts of the following districts:—Poccuttack, Balasore, Midnapore, Howrah, Hooghly, Burdwan, Bankoora, Singbhoom, Manbhoom, Sonthal Pergunnahs, Backergunge, Noakholly, Chittagong, Cooch Behar, Julpigoree.

Comparing the averages district by district with the normal, and allowing due weight to the area which each reporting station represents, it is found that the average rainfall in following districts has been less than 50 per cent. of the normal:—In Orissa, Cuttack, Balasore; in South-West Bengal, Howrah, Hooghly, Burdwan and Bankoora; in East Bengal, Noakholly; in North Bengal, Cooch Behar; and in Chutia Nagpur, Singbhoom.

The following table gives full data of the comparison of the actual and normal rainfall of the month of October in all districts of the province. The figures are obtained in the manner explained in preceding monthly summaries. The first column gives the average district rainfall as determined from the rainfall observations of the past 15 years. The second column gives the actual district rainfall as determined from the actual weighted rainfall of the month at the reporting stations in the district. The third column expresses the ratio of the actual district rainfall to the normal district rainfall expressed as a percentage. The fourth column gives the same information as the third column in a slightly different form. It states by what percentage the actual rainfall varied in excess (+) or in defect (—) from the normal fall:—

CALCUTTA, the 8th November 1887.

# SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING SATURDAY, THE 4TH OF NOVEMBER 1887.

At the close of the previous week north-east monsoon conditions had become established in Bengal; pressure was high, temperature was comparatively low, and proportion humidity were small, while a steady northerly wind current prevailed over the whole province. On the 27th of October, however, weather conditions over the south of the Bay were decidedly disturbed, winds strengthened at Diamond Island, and it is probable a slight barometric depression was in process of formation in the south-east of the Bay. These conditions continued on the 28th, and on this day probably the depression had formed, and had moved towards the west of the Bay, for on Saturday, the 29th, a distinct cyclonic depression appeared in the south-west corner of the Bay, the centre of which was some little distance off the coast between Madras and Negapatam. Information of the existence of a barometric depression was sent on this day to the Port Officers of all the important ports from Madras southwards, with the statement that the storm was not an intense one. On the 31st the diffused storm had advanced in a northerly direction, and its centre was nearly opposite Madras, and with the movement of the storm intimation to this effect was telegraphed to the Port Officers at the stations south of Madras, while the Port Officers at the coast ports from Madras up to Vizagapatam were warned of the existence of the depression and its movement. The storm was by no means an intense one, but of decidedly diffused nature, and as it approached the coast to the north of Madras, it commenced to fill up rapidly and became more diffused, and finally ceased to exist as a definite storm. With the disintegration of the storm weather conditions became unsettled and squally over a large part of the Bay, and along the west coast in particular strong winds, heavy rain, and in some cases almost stormy weather prevailed. As a matter of fact, the slight depression left after the disintegration of the small storm continued to exist off the Madras coast for several days and did not pass inland as is usually the case. On the other hand the disturbed conditions brought by the storm gradually extended northwards, till on October 31st rain commenced to fall in moderate quantities in Orissa. They again extended further, and on November 1st general rain commenced in East Bengal and over some parts of South-West Bengal. These disturbed conditions continued to exist over those districts for three or four days, but the disturbance never extended further into the interior of the province, and North Bengal, Behar and Chutia Nagpur have been practically rainless for the week. As the disturbed conditions drifted over the head of the Bay and over South Bengal winds became strongly easterly and south-easterly at many of the stations in the province; skies clouded over rapidly in the parts affected and became almost overcast, humidity became high and temperature increased, but during the last day or two of the week it was evident these disturbed conditions were being steadily driven back by the northerly wind current blowing over the interior of the province, and at its close conditions had almost again become of the normal north-east monsoon character.

**Pressure.**—The most noticeable change in the distribution of the barometric pressure during the past week was a distinct fall which accompanied the drifting of the disturbed conditions over South Bengal. As pointed out above, the conditions only affected the southern parts of the province; and the mean pressure for the week has been comparatively low over this area. Thus, while at False Point the mean pressure for the week has been 0.021 inch in excess of the normal, and at Calcutta 0.023 inch, at Purneah the excess has been 0.076 inch, at Durbhunga 0.081 inch, and at Dacca 0.073 inch. For the whole province, taking only those stations into consideration from which observations have been received for many years, the mean pressure has been 0.046 inch in excess of the normal. In Assam pressure has also averaged 0.046 inch in excess of the normal.

**Temperature.**—The defective temperature, which was a prominent feature during the previous week, has been continued in the present, though it has not been quite so strongly marked, and its distribution has been rather changed. In Orissa, South-West and East Bengal, and North Behar, the mean temperature has been below the normal by amounts ranging from 1° up to 1.5°, and in South Bengal, South Behar and Chutia Nagpur, the defects have ranged from 0.5° up to 1°. The mean temperature of the whole province for the week has been about 1° in defect of the normal.

In the previous week the distribution of temperature was such that the defects were most marked in the night or minimum temperatures, but in the present week this has been reversed, and while the night or minimum temperatures have differed comparatively slightly from the normal, the day or maximum temperatures have been very markedly in defect. This is shown in the following table, where the mean maximum and minimum temperatures for the week at nine typical stations in different districts of the province are given, compared with the normal for the period, and thus while the mean minimum or night temperature of the nine stations has been only 0.5° in defect of the normal, the mean day or maximum temperature at the same stations has been 2° in defect. At such stations as Burdwan and Cuttack the mean maximum temperature has been between 2° and 3° below the normal; at Calcutta and Dacca the defect has been more than 3°, and at Purneah it has equalled 4°.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, observations made at 4h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet from the ground.

The barometer readings are corrected approximately to those of the standard Newmann's No. 86, kept at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

# MEMORANDUM.

The returns received from the principal Municipalities in Bengal during the week ending 8th October 1887, disclose the following results:—

1. That during the week in question births and deaths were recorded in the proportions, respectively, of 25·8 and 33·1 per 1,000 of population, as opposed to 15·4 and 22·9 per 1,000, respectively, during the preceding week ending 1st October, indicating a very considerable advance in the registration of both.

2. That they were registered in the highest proportions by the following Municipalities:—

Births.			Deaths.

# MEMORANDUM.

From the annexed table, exhibiting the vital statistics of the principal Municipalities in Bengal for the week ending 15th October 1887, it appears—

1. That births and deaths were registered in these Municipalities at the rates, respectively, of 22·6 and 28· per 1,000 of population, against 23·8 and 33·1 per 1,000, respectively, during the preceding week ending 8th October, indicating a large reduction in the registration of both the ex-  
~~data.~~

2. That in the following Municipalities, births and deaths were reported to have been recorded at the highest rates :—
